Significance: Regulatory Program

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: NHTSA proposes a comprehensive review of headlighting requirements of FMVSS No. 108 which may be simplified, while being consistent with motor-vehicle safety. The agency has concentrated its efforts into five principal areas. This action addresses the first of these, which is the feasibility of a standard directed toward onboard original-equipment headlighting performance rather than toward performance of individual aftermarket headlamps in a laboratory environment. This action is considered significant because of safety implications. Based on comments received, a second NPRM was issued.

Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407; 15 USC 2001

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: In response to a petition for rulemaking, the advance notice invited comment on possible amendments to the regulation with respect to the manner in which light trucks, vans, multipurpose vehicles, and certain other vehicles are classified. The October 17, 1988 Notice of Proposed Rulemaking proposed two alternative vehicle classification approaches for those vehicles now categorized as light trucks, multipurpose passenger vehicles, and passenger cars. This rulemaking is significant because of substantial public interest.

2059. + PART 544, MOTOR VEHICLE THEFT PREVENTION; REPORTING REQUIREMENTS FOR MOTOR VEHICLE RENTAL AND LEASING COMPANIES

Significance: Agency Priority

Legal Authority: 15 USC 2032

CFR Citation: 49 CFR 544

Legal Deadline: Final, Statutory, October 25, 1989.
Rental and leasing companies who are self-insured are required to report to the agency October 25th of each year.

Abstract: This notice has proposed to require theft reports only from rental and leasing companies with combined fleets of 50,000 or more vehicles. This would result in the largest rental and leasing companies being required to file theft reports, instead of the approximately 4,000 companies currently required to do so. NHTSA has determined that reports from the largest rental and leasing companies would provide the agency with the representative sampling of the theft experience of rental and leasing companies, while reducing an unnecessary burden on smaller such companies. This rulemaking is significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: PL 100-690

CFR Citation: 23 CFR 1313

Legal Deadline: NPRM, Judicial, November 18, 1989.
NHTSA is required to publish a final rule by November 18, 1989.

Abstract: Under the Anti-Drug Abuse Act of 1988, Pub. L. 100-690, this rulemaking establishes regulations and criteria under which States may apply for and receive federal alcohol highway safety incentive grants. Grant criteria include prompt license suspension for Driving While Intoxicated (DWI) offenses, self-sustaining community DWI programs, mandatory alcohol blood testing, prevention of underage drivers from drinking, suspension of vehicle license plates and registration for DWI offenses, and prevention of open alcohol containers and drinking in cars. This rulemaking is significant under DOT policy and procedures because it would have substantial impact on State and local governments.

Abstract: This action would amend Federal Motor Vehicle Safety Standard 114 to prevent the inadvertent knocking out of gear of the gear shift lever and potential accidents, injuries and fatalities from vehicles rolling out of control. This amendment is in response to a petition for rulemaking relating to an inadvertent knock-out-of-gear accident resulting in a fatality. In addition, FMVSS 114 is proposed to be amended to insure that, if a steering column locking device is employed, the device cannot be activated until the key is removed and the vehicle must be in park on automatic transmission vehicles to remove the key.

Abstract: The agency proposed to amend Federal Motor Vehicle Safety Standard No. 115 and Part 567 with regard to vehicles not originally manufactured for sale in the United States and that do not comply with Federal motor vehicle safety standards, but that are imported into this country by businesses unaffiliated with the original manufacturer. These vehicles often are labelled with "homemade" 17 digit Vehicle Identification Numbers (VIN). Under the proposal, the importer would label the vehicle partially exempt from Standard No. 115 and direct interested parties to the location of the original manufacturers's number to be used in lieu of the VIN. The agency is taking this action in response to a petition from the National Automobile Theft Bureau (NATB).

Significance: Nonsignificant

Legal Authority: PL 100-562 The Imported Vehicle Safety Compliance Act of 1988

CFR Citation: 49 CFR 592, (New)

Legal Deadline: Final, Statutory, October 31, 1989.

Abstract: This action implements those provisions of PL 100-562 that will restrict importation of nonconforming vehicles, not otherwise exempted, to persons who have registered with the Department as undertaking to provide certification that the vehicles have been conformed after entry, or to persons who have contracted with importers registered with the Department to undertake conformance work, by establishing the requirements for obtaining and maintaining registration.

Significance: Nonsignificant

Legal Authority: PL 100-562 The Imported Vehicle Safety Compliance Act of 1988

CFR Citation: 49 CFR 594 (New)

Legal Deadline: Final, Statutory, September 30, 1989.

Abstract: The Act requires NHTSA to establish different fees concerning the importation of motor vehicles into the United States. NHTSA will be establishing fees relating to the administration of the registered importer program, fees to cover costs associated with the agency's determination whether a motor vehicle is eligible for importation into the United States, and fees to allow reimbursement of the U.S. Customs Service for costs incurred in processing the bond that is required when certain nonconforming vehicles are imported.

Significance: Nonsignificant

Legal Authority: 15 USC 2021 to 2026

CFR Citation: 49 CFR 544

Legal Deadline: None

Abstract: This notice lists the subject insurers required to file annual reports with this agency on motor vehicle theft, unless exempt from filing such reports. The listing of insurance companies in this notice is derived from 1987 data provided by A. M. Best whose data are based on reports submitted voluntarily by the insurance companies. Those insurance companies included on the final rule listing would be required to file reports for the 1989 calendar year not later than October 25, 1989. Any insurance company not on the final list is not required to file a report for the 1989 calendar year.

Significance: Nonsignificant

Legal Authority: 15 USC 2021 to 2026

CFR Citation: 49 CFR 541

Legal Deadline: None

Abstract: The purpose of this notice is to report the results of this agency's actions for determining which car lines are subject to the marking requirements of the motor vehicle theft prevention standard for the model year 1990 and publish a list of those car lines. The agency has previously published a list of the car lines that were selected as high theft car lines for prior model years, beginning with the 1987 model year. The list in this notice includes all of the car lines in the previous lines, as well as the new lines that were introduced for the 1990 model year and that have been selected as likely high theft lines. This notice is revised yearly (each model year).

2080. + POST-1988 PASSENGER-CAR FUEL-ECONOMY STANDARDS

Significance: Regulatory Program

Legal Authority: 15 USC 2002

CFR Citation: 49 CFR 531

Legal Deadline: Final, Statutory, October 1, 1988.
Amendments reducing the fuel economy standard for a particular model year are required to be made by the beginning of a model year.

Abstract: Automotive Importers of America, Inc., Austin Rover Group Ltd., Mercedes-Benz of North America, Inc., Competitive Enterprise Institute, and General Motors Corporation petitioned to lower passenger car Corporate Average Fuel Economy (CAFE) standards for Model Years 1989 and 1990. The March 1988 ANPRM sought public comment on whether to reduce the CAFE standard for MY 1989 and/or 1990, to determine whether retaining the present standard would adversely affect U.S. employment or competitiveness of the U.S. auto industry. The final action determined that retention of the 27.5 mpg standard will not adversely affect employment or competition.

Significance: Regulatory Program

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.108

Legal Deadline: None

Abstract: Final action amends Standard 108 headlighting requirements by deleting certain external dimensions for sealed-beam headlamps, lifetime requirements for sealed-beam headlamps and standardized replaceable light sources, photometric requirements for headlamps designed to conform to SAE J579a, and certain durability requirements for headlamps. A new category was added: headlamps without dimensional requirements. These issues had been separated from RIN 2127-AB87. This rulemaking was significant because of substantial public interest.

2082. + UNIFORM TIRE-QUALITY GRADING

Significance: Agency Priority

Legal Authority: 15 USC 1423

CFR Citation: 49 CFR 575

Legal Deadline: None

Abstract: This action contemplated including rolling resistance for tires as a substitute for top-temperature-resistance grade in the Uniform Tire Quality Grading Standards, and was considered significant because of substantial public interest. However, since excessive temperature can lead to sudden tire failure, this aspect is more important as to safety than is rolling resistance. Of the two, temperature resistance should be retained and rolling resistance, which cannot be defined in terms of fuel economy, put aside. For this reason, the action on this rulemaking is terminated.

Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: In response to a petition for rulemaking, the agency is proposing a new regulation to add a requirement that 102-inch wide trailers be equipped with axle tracks having a minimum axle width of 77 inches. An advanced notice of proposed rulemaking seeking comments on the safety issue raised by the petition was published 05/22/84 (48 FR 21551). This rulemaking was initially considered significant because of possible impact on the industry. However, the industry has voluntarily adopted the 102-inch axle/tire track and, therefore, further action is unnecessary.

Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407

Abstract: Volkswagen of America petitioned to change Federal Motor Vehicle Safety Standard No. 108, Lamps, Reflective Devices, and Associated Equipment to permit an additional standardized replaceable light source for motor vehicle headlamps. The type of light source proposed was that currently used in European headlamps, the type H-4. Review of the merits of the petition found that, as used in Europe, the light source was not capable of achieving the level of performance required of U.S. light sources and NHTSA subsequently proposed a U.S. version to be known as the type HB2, which would have interchangeability and performance aspects compatible with U.S. safety needs. The final rule adopted NHTSA's proposed type HB2. This rulemaking was considered significant because of substantial public interest.

Abstract: Motor Vehicle Manufacturer's Association (MVMA) petitioned to amend Federal Motor Vehicle Safety Standard (FMVSS) No. 208, Occupant Crash Protection, to require that height-adjustable seats, and other adjustable seat features such as lumbar supports, be placed in the nominal design riding position specified by the manufacturer. However, current compliance procedures are objective and simple to administer; there appears no compelling reason for changing them. Available information indicates current positioning procedures are representative of the seat positioning most drivers have chosen. For these reasons, the petition was denied.

Abstract: Federal Motor Vehicle Safety Standard No. 105 requires vehicles to have one or more brake system indicator lamps in the instrument panel area, to warn drivers about certain types of brake failure and to indicate when the parking brake is in the applied position. Section S5.3.2 of the standard requires that the brake system indicator lamps be activated automatically when the vehicle is started, to enable the driver to check whether the lamp bulb is burned out. That section also provides that in a vehicle equipped with an automatic transmission, the activation of the lamp as a check of lamp function is not required when the transmission shift lever is in a forward or reverse drive position, since the vehicle cannot be started when the transmission shift lever is in those positions. In response to a petition for rulemaking submitted by Mazda, the final rule amends the standard to provide that the activation of the lamp as a check of lamp function is not required whenever the starting of a vehicle is prevented by an interlock switch.

Significance: Nonsignificant

Legal Authority: 15 USC 1392

CFR Citation: 49 CFR 571.102

Abstract: The purpose of Federal Motor Vehicle Safety Standard No. 102 is to reduce the likelihood of shifting errors. Manufacturers have provided a permanently displayed shift lever position indicator to meet the requirement of S3.2 of this Standard. Chrysler and General Motors petitioned the agency to amend the Standard to allow the use of electronic "PRNDL" displays. The amended requirements will facilitate the use of electronic displays, while assuring the information is displayed at all times.

Significance: Nonsignificant

Legal Authority: 15 USC 1407

CFR Citation: 49 CFR 571.107

Legal Deadline: None

Abstract: This standard requires that windshield wiper arms inside windshield moldings, horn rings, and frames and brackets of inside rearview mirrors have matte surfaces which will greatly reduce the likelihood of hazardous reflection into the driver's eyes. A petition was filed to extend the standard to the above items which are made of non-metallic, as well as metallic, materials. However, in view of the lack of substantiation of a problem, the apparent insignificance of any problem if one does exist, and the costliness of developing and using a more complex test procedure, extending the standard was determined to be inappropriate.

Significance: Nonsignificant

Legal Authority: 15 USC 2021 to 2026

CFR Citation: 49 CFR 541

Legal Deadline: None

Abstract: The purpose of this notice is to report the results of this agency's actions for determining which car lines are subject to the marking requirements of the motor vehicle theft prevention standard for the 1989 model year, and publish a list of those car lines. NHTSA has previously published a list of the car lines that were selected as high theft car lines for prior model years, beginning with the 1987 model year. The list in this notice includes all of the car lines in the previous lists, as well as the new lines that were introduced for the 1989 model year and that have been selected as likely high theft lines. This notice is revised yearly (each model year). This notice is used by other Federal agencies in carrying out the statutory requirements under Titles II and III. Title II is Antifencing Measures, 18 USC 511, and Title III is Importation and Exportation Measures, 18 USC 553 and 19 USC 1627.

Legal Deadline: Final, Statutory, June 22, 1989.

Abstract: FRA is required to adopt qualification standards for locomotive operators. Major elements that could be included in such standards involve initial training, retraining, performance monitoring, testing and retesting, and general fitness criteria. Issues being explored include the structure of the program to resolve questions of whether a Federal license program or a railroad licensing program meeting Federal criteria will best achieve the statutory intent. Significance: Agency Priority

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 225

Legal Deadline: None

Abstract: This project addresses possible problems of bias and inaccuracy in FRA's railroad data base. Although FRA investigates about 400 accidents a year and receives unsolicited information on a few more accidents, FRA's sole source of information on the great majority of railroad accidents is the railroad company itself. The proposed rule would require that the railroad provide written notification to any employee whom the railroad alleges to have caused a certain type of accident, informing the employee of the relevant allegations and of his or her right to file an accident statement with FRA. The proposed rule also would establish the format and filing procedures for such statements. Alternatives being considered are: (1) revising the reporting form itself to include boilerplate language regarding what, where, and how to file the employee statement and (2) requiring a separate notice to the employee with the same information. Potential costs have yet to be determined. This action is considered significant because of Departmental policy.

Abstract: Railroads use on-track equipment adapted for service as mobile sleeping quarters, in order to have large dormitories adjacent to work sites. 2116. INTERIOR NOISE STANDARDS FOR ON-TRACK SLEEPING QUARTERS

Significance: Nonsignificant

Legal Authority: PL 100-342 Rail Safety Improvement Act of 1988

CFR Citation: 49 CFR 228

Legal Deadline: None

Abstract: FRA's interpretive guidance concerning compliance with an hours-of-service statute will be extended by operation of law unless FRA acted within 6 mos. FRA guidelines specify a maximum noise level for the interior of facilities used to give train crews required periods of rest under the Hours of Service Act. The statute will make the noise level applicable to on-track vehicles used as dormitories for other railroad employees unless FRA alters its guidance on this matter for the on-track vehicles. FRA has determined that there is no need to delay the effective date of the statute; the statute is in effect without change.

2117. + IMPLEMENTATION OF SECTION 19 OF THE URBAN MASS TRANSPORTATION ACT OF 1964 AS AMENDED -- NONDISCRIMINATION

Significance: Agency Priority

Legal Authority: 49 USC 1615

CFR Citation: 49 CFR 641

Legal Deadline: None

Abstract: The proposed regulation would unify the Urban Mass Transportation Administration's civil rights requirements. This rulemaking is significant because of potential federalism implications as well as possible public interest. This rulemaking would improve the agency's civil rights regulations, assuring effective and uniform compliance with civil rights and equal employment opportunity requirements in a manner comparable to other agencies within the Department of Transportation.

Legal Authority: 49 USC 1602(i); 23 USC 103(e); 23 USC 142; PL 100-17, Sec 303

CFR Citation: 49 CFR 611

Legal Deadline: None

Abstract: This regulation implements section 303 of the Surface Transportation and Uniform Relocation Assistance Act of 1987. The regulation will define the procedures applicants must follow in developing fixed guideway projects. It also will set forth the means by which the agency will evaluate cost-effectiveness, the results of alternatives analysis, and the degree of local financial commitment as required by law. This regulation is significant because it involves important departmental policy.

CFR Citation: 23 CFR 770; 49 CFR 623

Legal Deadline: None

Abstract: This regulation proposes to consolidate and amend existing air quality requirements for transportation projects into a single amended air quality regulation. The amended regulation is intended to streamline and simplify (1) the process of determining which highway projects are exempt from the Federal assistance limitations of section 176(a) of the Clean Air Act (CAA), and (2) the conformity and priority procedures contained in 23 CFR 770. The amendments also are intended to provide more authority and flexibility to State and local agencies and to meet the objectives of the CAA in the most cost-effective and expeditious manner. The amendments are significant because they involve important departmental policy.

2129. + OST-FAA INFORMATION RULES: STANDARDIZED REGULATORY FLEXIBILITY REQUIREMENTS

Significance: Agency Priority

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1387

CFR Citation: 14 CFR 241; 14 CFR 298; 14 CFR 399

Legal Deadline: None

Abstract: The threshold for the aviation-information program for regulatory flexibility analysis is 60 seats or maximum payload of 18,000 pounds or less. Carriers operating aircraft under these limits are considered small carriers. FAA, on the other hand, uses a threshold based on the operational certificate requirements (Part 121 versus Part 135) with the threshold established at 30 seats or maximum payload of 7,500 pounds for a Part 135 certificate. FAA regulatory analysis for safety, congestion, etc., centers around the lower threshold which means much of the aviation economic information that they use has to be manipulated to fit their needs. This proposal of standardizing the threshold within the Department would save considerable resources and would eliminate much confusion in the air transportation industry. Most carriers, especially the newer ones, are familiar with FAA's requirements. This rulemaking is significant because it will achieve consistency in departmental treatment.

Abstract: Currently commuter air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other schedule provides the origination and destination for all the carriers' on-line passengers. The Department is considering proposing a new traffic and market data system for certificated and foreign air carriers. This system could be used for commuter air carriers, providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1373

CFR Citation: 14 CFR 241

Legal Deadline: None

Abstract: The present definition of revenue and nonrevenue passengers for aviation reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in section 403(b) of the Federal Aviation Act of 1958. These definitions have become outmoded in the process of air-fare deregulation. In addition, first class and coach passengers are defined in terms of the type of fare paid with premium or standard fares being the benchmark for first class. With deregulation and the proliferation of new air fares in the marketplace, such as business class, these definitions may also be outmoded. The DOT is considering several options for revising these definitions.

Abstract: This action will develop performance-oriented packaging standards and hazardous material classification based on the United Nations Committee of Experts on the Transport of Dangerous Goods. Rulemaking also includes former nonsignificant rulemakings entitled "Consolidation of Specifications and Establishment of Performance Standards for Specification Bags" (Docket No. HM-153), "Specifications for and use of Specification 17 Steel Drums" (Docket No. HM-182), and "Organic Peroxide Requirements" (Project 186-72). The rulemaking is significant because a large number of specifications for packaging in the hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification-type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade. This rulemaking is significant because of substantial public interest and safety implications.

Significance: Regulatory Program

Legal Authority: 49 USC 1804

CFR Citation: 49 CFR 172; 49 CFR 174; 49 CFR 175; 49 CFR 176; 49 CFR 177

Legal Deadline: None

Abstract: This action will propose to establish detailed training requirements for persons involved with the transportation of hazardous materials. Establishing more detailed training requirements should diminish the number of hazardous materials transportation incidents which can be attributed to human error. At this time, the potential cost of establishing this program is unknown. This rulemaking is significant because of public interest and safety implications.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 1804; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Adequate procedures for pipeline operation and maintenance, backed up by personnel training, have proven effective in minimizing the potential for accidents. Gas operators are required to have such procedures, but the existing requirements lack the clarity and specificity needed to assure a uniform, broad-based level of safety for all pipelines. Therefore, this proposal would clarify the existing requirements, make them more comprehensive, and, where appropriate, similar to the more detailed requirements applicable to the operation and maintenance of hazardous liquid pipelines. Also, a few additions and clarifying changes would be made to the hazardous liquid pipeline requirements. This is a significant action because of the need for adequate procedures to provide a basis for training and qualifying operator personnel. A related rulemaking to provide procedures requiring operators to amend operation and maintenance plans, and make operators subject to enforcement sanctions for failure to maintain plans, is entitled Amendment of an Operator's Plans or Procedures (RIN 2137-AB77).

2145. + PRESSURE TESTING EXISTING HAZARDOUS LIQUID PIPELINES

Significance: Agency Priority

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Recent accidents involving petroleum product pipelines demonstrate the potential for catastrophic losses if a large spill occurs in a populated area. Studies have shown that accidents attributable to latent material or construction defects can be prevented by restricting operation to not more than 80 percent of a prior test or operating pressure. In this regard, significant results have been achieved by imposing such an operating restriction on those product pipelines that carry highly volatile liquids. This rule would extend this existing safety standard to all hazardous liquid pipelines. This rulemaking is significant because of substantial public interest in the safety implications.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, November 1, 1989.

Abstract: Maintenance of appropriate information about pipelines is essential for emergency response, compliance with safety standards, and other purposes. As part of a continuing policy to adopt similar requirements for gas and hazardous liquid pipelines where appropriate for safety, this action proposes to equalize as far as possible the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines. Operators would also be required to keep an inventory of pipe and annually report mileage and other facts. In addition, operators would be required to provide certain information to State agencies upon request. This is a significant action because of Congressional and State concerns about the need for appropriate public officials to have pipeline information.

Significance: Agency Priority

Legal Authority: PL 100-561, Sec 303

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, May 1, 1990.

Abstract: This rulemaking proposes the issuance of requirements for the establishment and operation of appropriate one-call notification systems in areas containing underground gas or hazardous liquid pipeline facilities. The requirements are intended for adoption by States with agencies participating in the Federal/State pipeline safety grant-in-aid program. Adoption would be a consideration in determining reimbursement of State program costs. This rulemaking is significant because of substantial public and congressional interest.

Abstract: The accounting system that underpins the Form 41 Report is based on Generally Accepted Accounting Principles (GAAP) established by the Financial Accounting Standards Board. This board recently amended GAAP reporting disclosure standards by adding a Statement of Cash Flows. The Form 41 Report currently has a Statement of Financial Position. Unless there is some incompatibility with another aviation regulatory program, a proposed rule will be issued to replace the Statement of Financial Position with a Cash Flow Statement to maintain uniformity with GAAP. This rule would relieve large U.S. air carriers from the burden of preparing two different statements.

CFR Citation: 49 CFR 190; 49 CFR 193; 49 CFR 195

Legal Deadline: None

Abstract: This was previously part of RIN 2137-AB44. An administrative rule prescribing criteria and procedures for requiring hazardous liquid pipeline operators to amend their procedural manuals for operations, maintenance, and emergencies would be expanded to apply to all plans and procedures that operators of hazardous liquid pipelines, gas pipelines, and LNG Facilities are required to prepare. In addition, it proposes to make operators subject to all enforcement sanctions for failure to maintain plans and procedures in accordance with the regulations.

2168. + NATURAL GAS AND HAZARDOUS LIQUID PIPELINE DAMAGE PREVENTION PROGRAM

Significance: Agency Priority

Legal Authority: 49 USC 2002(e)

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Each year a large percentage of gas and hazardous liquid pipeline accidents are caused by excavation damage. Based on existing rules intended to reduce damage to gas pipelines in populated areas, this action would require hazardous liquid pipeline operators to provide damage prevention programs and gas operators would have to expand their programs to cover rural areas. This is a significant action because of the widespread interest in the use of "one-call" programs to prevent damage to buried pipelines.

2174. DETERMINING THE EXTENT OF CORROSION ON EXPOSED GAS PIPELINES

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Corrosion is a major cause of gas and hazardous liquid pipeline accidents. A safety standard applicable to liquid pipelines requires operators to examine exposed pipe for evidence of external corrosion and, if harmful corrosion is found, to investigate further to determine the extent of the corrosion. As part of a continuing policy to adopt similar requirements for gas and liquid pipelines where appropriate for safety, this action proposes that exposed gas pipelines with evidence of harmful corrosion be investigated to determine the extent of the corrosion.

Significance: Agency Priority

Legal Authority: 49 USC 1803 to 1808

CFR Citation: 49 CFR 173; 49 CFR 177; 49 CFR 178

Legal Deadline: None

Abstract: This rule modifies cargo tank specifications in sections 178.337-178.343 to improve clarity, quality control and safety, and provides for vacuum-loaded cargo tanks. It includes improved standards for inspection and testing of cargo tanks, improved valves and closures to prevent leakage and the risk of fire in overturns and other accidents, and new qualification criteria for cargo tank manufacturers, repairers, and inspectors. This rulemaking was developed in conjunction with FHWA. This rulemaking is considered significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1809

CFR Citation: 49 CFR 171

Abstract: The final rule implements several changes to the system of collecting information on incidents involving the transportation of hazardous materials. The incident report form has been modified to provide more meaningful and comprehensive incident data, especially in terms of incident causation and consequence. Reporting requirements have been expanded to include closure of major transportation arteries or facilities, unscheduled events involving aircraft transporting hazardous materials, and fires associated with shipments of radioactive materials. This rulemaking is significant because of substantial public interest due to safety implications.

Significance: Nonsignificant

Legal Authority: 49 USC 1672; 49 USC 1804

CFR Citation: 49 CFR 192.611(a)

Legal Deadline: None

Abstract: This rule provides an alternate method for confirmation or revision of the maximum allowable operating pressure of pipelines previously tested to less than 90 percent of specified minimum yield strength. The alternate method allows operators to establish a maximum allowable operating pressure in proportion to the level permitted for pipelines tested to 90 percent of specified minimum yield strength, or more, without retesting the pipeline. Considerable cost savings are expected.

Significance: Regulatory Program

Legal Authority: 46 USC App 1242(b); 46 USC App 1114(b)

CFR Citation: 46 CFR 382, (New)

Abstract: This regulation would require provision of rate and cost data to MARAD so it can determine fair and reasonable rates for carriage of preference cargo in bulk vessels at the request of concerned Federal agencies. Calculation of fair and reasonable rates would be based on industry cost data supplied by participating carriers. It would establish requirements for submission of data on which the calculations would be based. This rulemaking is significant because it concerns a matter on which there is substantial public interest. It would clarify the meaning of a statutory term.

Legal Authority: 46 USC App 1114

Significance: Agency Priority

Legal Authority: 46 USC App 1241

Significance: Nonsignificant

Legal Authority: 46 USC App 1241(b)

CFR Citation: 46 CFR 381

Legal Deadline: None

Abstract: This action was terminated because the Department of Defense (DOD) has already complied with two cargo preference statutes that require that minimum specified percentages of oceanborne cargoes sponsored and generated by DOD be carried on privately owned U.S.-flag commercial vessels in a rulemaking, Defense Aquisition Circular 88-6, published at 54 Federal Register 16111.

Abstract: MARAD has received a petition for rulemaking from an association representing oil-drilling contractors requesting that MARAD expand the scope of its general approval of charters to noncitizens (without obtaining prior MARAD approval) to include (1) intra-company charters of mobile offshore drilling units (MODUs) regardless of their duration; and (2) all bareboat charters and subcharters of MODUs to facilitate their employment in foreign business activities. The issues involved are being subsumed in the broader rulemaking in RIN 2133-AA79 and are consolidated therein.

Semiannual Agenda

AGENCY: Departmental Offices, Treasury.[1]

ACTION: Semiannual agenda.

SUMMARY: This notice is given pursuant to the requirements of the "Regulatory Flexibility Act" (Pub. L. 96-354, September 19, 1980) and Executive Order 12291 ("Federal Regulation," February 17, 1981), which require the publication of a semiannual agenda of regulations. The semiannual agenda of the Department of the Treasury conforms to the Unified Agenda Format developed by the Regulatory Information Service Center (RISC).

FOR FURTHER INFORMATION CONTACT: For additional information about a specific departmental offices' regulation, contact the "agency contact" listed in the specific regulatory action. For general information concerning the agenda, contact Richard S. Carro, Associate General Counsel, Room 1422, 1500 Pennsylvania Avenue NW., Washington, DC 20220, (202) 566-2558, not a toll-free call.

Dated: August 29, 1989.

Richard W. Porter,

Acting Executive Secretary.

2216. REVISION OF 31 CFR PART 205 (TDC NO. 1075), PAYMENTS BETWEEN THE FEDERAL GOVERNMENT AND RECIPIENT ORGANIZATIONS

Significance: Agency Priority

Legal Authority: 31 USC 6503

CFR Citation: 31 CFR 205

Legal Deadline: None

Abstract: Revision of 31 CFR 205 will implement a new funding technique for Federal programs. The regulation would require a State to pay interest on Federal funds from the time they are deposited to the State's account until the time those funds are paid out to redeem checks or warrants or make payments by other means. This new "Checks Issued-Interest Remitted" technique was developed in response to statutes in some States that require that funds reside in a bank account prior to the issuance of checks. This revision also provides for the remittance of interest by the Federal Government if a State disburses its own funds for program purposes in accordance with Federal law, regulation or Federal/State agreement.(cont)

Significance: Agency Priority

Legal Authority: 31 USC 9301 to 9309

CFR Citation: 31 CFR 223, (Revision)

Legal Deadline: None

Abstract: The revision makes editorial changes, and contains substantive changes to sections concerning business experience, collateral and reinsurance requirements. Substantive changes include: 1) a 3-year aging requirement in order to qualify for Treasury certification, 2) elimination of the alternative to use collateral for protecting excess risks, and 3) a requirement that all reinsurance on Federal bonds be placed with companies recognized by Treasury for reinsurance purposes. The proposed regulations provide provisions for exceptions to the aging and reinsurance regulations under certain circumstances. These regulations will help Treasury ensure that certified companies are capable of carrying out their surety contracts.

Significance: Agency Priority

Legal Authority: 5 USC 5525; 12 USC 391; 31 USC 321

CFR Citation: 31 CFR 210, (Revision)

Legal Deadline: None

Abstract: Revision of 31 CFR Part 210 will clarify the breadth of payments governed by the regulations. These include non-benefit payments such as vendor payments, miscellaneous payments, Internal Revenue Service (IRS) tax refunds, savings bonds, grants and loans. It will also include the payment of discretionary allotments of net pay of Federal employees' salaries by DD/EFT. Electronic funds thus transferred through the Federal Reserve System eliminate the possibility of checks being lost, stolen, or forged. The Federal Government's operating efficiency will be improved, productivity will be increased, and the costs associated with the current methods will be reduced.

[Notice No. 672]

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General Notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291, entitled "Federal Regulations," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive order, within the next six months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the

VOL 54 ISS 208 OCT 30 1989 UMI

regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the **Federal Register** of April 1990.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact" for the regulatory project.

For general information about this general notice, contact Lori Weins, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, Ariel Rios Federal Building, 1200 Pennsylvania Avenue NW., Washington, DC 20226; (202) 566-7626.

Issuance

By direction of the Secretary of the Treasury, this general notice reads as set forth below.

Dated: August 18, 1989.

Stephen E. Higgins,

Director.

2238. NON-GENERIC DESIGNATIONS OF GRAPE WINE HAVING GEOGRAPHICAL SIGNIFICANCE

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.24

Legal Deadline: None

Abstract: This proposal expands the list of names officially recognized under 27 CFR Part 4, as being non-generic for the purposes of labeling and advertising of wine. This proposal is the result of petitions from numerous foreign countries for ATF recognition of non-generic wine designations which, in their view, denote distinctive national products. This proposal is also an outgrowth of one of the commitments made by the United States, in the Exchange of Letters of July 26, 1983 with the Commission of the European Communities, to work within the regulatory framework of 27 CFR Part 4, to prevent erosion of non-generic designations of geographic significance. For practical reasons it is being proposed that only "examples" of non-generic designations be listed in Part 4 while a complete list of all non-generic designations be listed in a new Part 12.

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.32; 27 CFR 5.32; 27 CFR 7.22

Legal Deadline: None

Abstract: ATF is proposing to amend the regulations by requiring the mandatory disclosure of FD & C Yellow No. 6 on labels of alcoholic beverages, because of evidence indicating the possibility of allergic-type reactions to the color additive. As in the case of FD & C Yellow No. 5, which also requires label disclosure under existing regulations FD & C Yellow No. 6 is used infrequently in the production of alcoholic beverages being limited to mostly cocktails, liqueurs, and other specialty products.

FIREARMS

2242. FIREWORKS REGULATIONS

Significance: Agency Priority

Legal Authority: 18 USC 841-848

CFR Citation: 27 CFR 55

Legal Deadline: None

Abstract: Information gathering on safe handling of explosive materials in the fireworks industry is necessary due to accidental explosions causing death. Injuries and property damage have occurred at fireworks manufacturing and assembling plants. Damage has been in the millions of dollars and some regulatory changes are needed. This notice to gather information is to determine changes needed and potential costs.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on April 24, 1989 (54 FR 17064) are also included. It is expected that this semiannual agenda will enable the public to be more aware of and allow it to more effectively participate in the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East SW., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda, contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda, contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda requires a regulatory flexibility analysis; all entries have been determined not to have a "significant impact on a substantial number of small entities" and, therefore, are not subject to the provisions of the act. Additionally, none of the rules is a "major" rule as defined by Executive Order 12291. Executive Order 12291 defines a "major" rule as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Dated: August 14, 1989.

Robert L. Clarke,

Comptroller of the Currency.

Legal Authority: Sec 1, 77 Stat 666; 12 USC 92a; 12 USC 481

CFR Citation: 12 CFR 9

Legal Deadline: None

Abstract: Comments in response to a prior rulemaking Final Rule Docket No. 80-16 (46 FR 71571) published October 29, 1980, included recommendations that additional amendments should be made to 12 CFR 9. The OCC believes that the issues raised by the commenters can best be addressed through a comprehensive review of its regulations concerning national bank fiduciary powers and collective investment funds. The OCC requested comments from the public as to the desirability and feasibility of a comprehensive review of its trust regulations pertaining to collective investment funds, including specific matters which should be addressed. In view of the favorable disposition of litigation impacting on the fiduciary powers of national banks and collective investment funds (Investment Company Institute v. Clarke, 789 F.2d 175 (2d Cir. 1986), cert. denied, 55 U.S.L.W. 3316 (U.S. Nov. 4, 1986); Investment Company Institute v. Conover, 790 F.2d 925 (D.C. 2247. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11, (New Subsection)

Legal Deadline: None

Abstract: The proposed rule would require that more detailed and meaningful information be provided to shareholders and the OCC concerning banks' loan portfolios, including loans to borrowers in foreign countries experiencing liquidity problems, other sources of income and exposure to risks. This will assist shareholders in evaluating proposals for mergers, consolidations, acquisitions and similar matters and will assist the OCC in administering and enforcing the Securities Exchange Act of 1934 as it applies to national banks. The OCC considered not proposing the additional amendments or proposing them as a general guide rather than a rule. However, the OCC determined it was appropriate to propose the additional requirements as amendments to Part 11 because the OCC believes the proposed requirements will help to clarify the types of disclosures which the OCC, shareholders and the public would consider material in analyzing various Exchange Act filings and statements. The proposed rule will also include amendments to update Part 11 to conform with recent amendments by the Securities and Exchange Commission to its Securities Exchange Act Disclosure Rules. 2248. SECURITIES OFFERING DISCLOSURE RULES

Legal Authority: 12 USC 1818; 12 USC 93a

CFR Citation: 12 CFR 16

Legal Deadline: None

Abstract: This regulation contains the OCC's disclosure requirements for securities offerings by national banks. The OCC is considering revisions which would clarify the coverage of the rule, specify the OCC's enforcement authority in connection with the rule, liberalize nonpublic offering requirements, provide for more meaningful disclosure requirements in public offerings, revise financial information requirements to be more consistent with 12 CFR 11, and where practicable, incorporate by reference provisions of 12 CFR 11. Abstract: This proposed regulation implements recent amendments to the Freedom of Information Act (FOIA). The amendments concern Exemption 7 of the FOIA (relating to law enforcement records) and the provisions of the FOIA concerning fees and fee waivers. In addition, the proposed regulation implements Executive Order 12600, which deals with predisclosure notification procedures for confidential commercial information. This proposed regulation also makes technical changes to the OCC's existing FOIA regulation. The proposed regulation, and the OCC's FOIA regulations in general, affect public disclosure of information by the OCC. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 24; 12 USC 92a

CFR Citation: 12 CFR 12.7

Legal Deadline: None

Abstract: This rulemaking would broaden an exemption from requirements that banks maintain certain records and establish certain written policies and procedures. Under the proposal, the current exemption for banks with an average of less than 200 securities transactions per year is expanded to 1,000 transactions per year. The purpose of broadening the exemption from 200 transactions per year to 1,000 transactions per year is to reduce the regulatory burden on small banks.

CFR Citation: 12 CFR 5.61; 12 CFR 5.62; 12 CFR 7.6100; 12 CFR 7.6125

Legal Deadline: None

Abstract: This rulemaking will amend two interpretive rulings in 12 CFR 7 and promulgate them as regulations in 12 CFR 5. The amendments are needed to revise and clarify certain OCC interpretations of statutes that govern the payment of dividends by national banks (12 USC 56 and 60). The intended effect is to make the calculation of the restrictions on the payment of dividends by national banks consistent with generally accepted accounting principles (GAAP). Abstract: The OCC is proposing to amend its capital regulation in 12 CFR 3. Primarily, this amendment would (1) make the definition of capital in 12 CFR 3.2 and in the OCC's recently published risk-based capital guidelines consistent and (2) change the minimum capital ratio in 12 CFR 3.6. This amendment will limit the amount of leverage a national bank can undertake. The intended effect of this amendment is to ensure the continued safety and soundness of the national banking system. The effect on small entities will be considered in the development of this rulemaking.

2260. RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES

Significance: Agency Priority

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 5

Legal Deadline: None

Abstract: The OCC is engaged in a continuing review of its rules, policies, and procedures governing corporate activities. The OCC proposes to provide clarification of the OCC's ability to impose conditions on transactions between a bank and its subsidiaries; to add 12 CFR 5.36 to require notification to the OCC of certain equity investments which national banks are authorized by statute to make; to outline the responsibility of the applicants for accurate and complete filings; to centralize the OCC's distribution of forms; and to make several miscellaneous technical amendments. These proposals are expected to benefit the OCC by assisting the OCC in fulfilling its responsibility for maintaining the safety and soundness of national banks and the national banking system, and to improve OCC efficiency. The effect on small entities is considered in the development of each rulemaking. If adopted as final rules, the changes to Part 5 will not have a significant economic impact on a substantial number of small entities.

2261. LENDING LIMITS

Legal Authority: 12 USC 84(b)(1); 12 USC 84(d)(1); 12 USC 93a

CFR Citation: 12 CFR 32.2(d)

Legal Deadline: None

Abstract: This rulemaking will revise the definition of a "contractual commitment to advance funds" in response to comments received on the Temporary Rule on National Bank Lending Limits, at 53 FR 23752 (June 24, 1988). Comments were generally in favor of the temporary rule, but expressed concern about its impact on banks which had not experienced a decline in capital. This proposed revision will address those concerns through an amendment to the definition of a "contractual commitment to advance funds." This action will return to banks some flexibility in monitoring their lending limits and outstanding loan commitments. The effect on small entities will be considered in the development of this rulemaking.

2263. RECEIVERSHIP AND CONSERVATORSHIP

Legal Authority: 12 USC 93a; 12 USC 191

CFR Citation: 12 CFR 5.49

Legal Deadline: None

Abstract: The proposed regulation will clarify the standards of insolvency the OCC may use in determining whether to appoint a receiver under 12 USC 191. Specifically, the rulemaking describes the net worth and liquidity tests. The rulemaking is intended to state OCC procedures clearly, to conform those procedures more closely to GAAP and to evaluate an insolvent bank's true financial condition. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 93a; 12 USC 1818; 12 USC 1881 to 1884

CFR Citation: 12 CFR 21

Legal Deadline: None

Abstract: This regulation revises the two criminal referral forms, raises the threshold for filing criminal referrals where no suspect has been identified, and clarifies the filing requirement as far as reporting financial crimes where no loss is incurred by the bank, such as money laundering, bank bribery, and Bank Secrecy Act violations. These revisions are intended to clarify the filing requirement for these reports and are intended to reduce the overall number of criminal referral reports to be filed by national banks. This regulation will not have a significant economic impact on a substantial number of small banks or other small entities.

Semiannual Agenda

AGENCY: U.S. Customs Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Public Law 96-354, the "Regulatory Flexibility Act," and Executive Order 12291 "Federal Regulations," Customs is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific regulation contained in this agenda, contact the "agency contact" listed in the specific regulatory action.

SUPPLEMENTARY INFORMATION: The projects listed below are not considered to be "major" regulations within the meaning of E.O. 12291 and will not have a significant impact on small entities within the meaning of the Regulatory Flexibility Act.

General statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301) and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional, specific statutory authority is indicated as the legal authority for the project.

Dated: August 29, 1989.

Harvey B. Fox,
Director, Office of Rulings and Regulations.

Significance: Agency Priority

Legal Authority: 19 USC 1584; 19 USC 1594; 19 USC 1595a; 21 USC 960; 21 USC 961; PL 99-570

CFR Citation: 19 CFR 162

Legal Deadline: None

Abstract: Amendment to the Customs Regulations relating to the liability of common carriers to penalties, seizure and forfeiture for unmanifested narcotic drugs or marijuana. The proposed changes would add to the regulations the statutory standard for the highest degree of care and diligence on the part of common carriers in preventing unmanifested drugs and marijuana. It also sets forth specific duties and procedures by which the standard is defined and against which compliance with the standard can be determined. These duties and procedures include such security measures as background investigations of employees, access restrictions to cargo areas, use of lighting in storage areas, and similar measures.

Abstract: Amendment to the Customs Regulations to set forth revised special informal entry procedures applicable to the entry and clearance of cargo carried by the various entities which comprise the express consignment industry and to further refine and expand upon the existing procedures which recognize the special needs of the growing express consignment industry. The member countries of the Customs Cooperation Council have recently examined the industry and associated issues and have adopted international guidelines which established various definitions, including the term "Express Consignment Operators or Carriers." The overwhelming growth of this industry requires Customs to provide more expedited clearance procedures. The amendments will promote uniform, fair and consistent treatment of the various courier and express air services, while at the same time better assuring the protection of the revenue in accord with all applicable laws and regulations.

of origin identifications from jewelry, particularly Native American style jewelry, after importation, but before sale to consumers often for the purpose of deceptively representing the merchandise as made in the U.S. The proposed rule will limit the permanent marking requirement to the smallest practicable portion of imported jewelry that will ensure that imported jewelry is permanently identified with the country of origin. For jewelry covered under the proposed rule, previous methods permitting country of origin marking for jewelry using adhesive labels or string tags would be permitted only where the size of the article does not permit more permanent marking methods. For other articles, the changes will require that jewelry be indelibly marked with the country of origin by cutting, die-sinking, engraving, stamping, or some other equally permanent methods, or with a similarly marked plastic or metal tag.

Additional Information: A proposed interpretive rule was published on July 15, 1986 (51 FR 25574) soliciting comments on a proposal to require that all foreign-made Native American-style jewelry be indelibly marked with the country of origin by cutting, die-sinking, engraving or stamping. In response to the notice, 92 written comments were received. Thirty-five of the comments supported the proposal that all foreign-made Native American-style jewelry be permanently marked with the country of origin; 42 favored the permanent marking of all foreign-made silver jewelry; 11 commenters said that all foreign-made jewelry should be permanently marked; and one commenter favored permanent marking of all imported gold and silver jewelry. On August 23, 1988, Congress enacted PL 100-418, which, among other things, requires the indelible and permanent marking on all imported Native American-style jewelry. The final rule will implement this law, taking into consideration public comments on the revised proposal concerning ways in which the type of jewelry subject to permanent marking might be reduced while accomplishing the statutory objective.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations that the Internal Revenue Service will be developing from October 1, 1989, through September 30, 1990. Determinations with respect to the agenda were made as of July 31, 1989. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Robert Boyer, (202) 566-3935 (not a toll-free number), Regulations Unit, Office of the Assistant Chief Counsel (Corporate), Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC 20224, Attention: CC:CORP:T:R.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in April of 1990.

Description

This Semiannual Agenda of Regulations lists all projects within the Internal Revenue Service (IRS) as of July 31, 1989, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Offices of the Assistant Chief Counsel (Corporate), Assistant Chief Counsel (Financial Institutions and Products), Assistant Chief Counsel (Income Tax and Accounting), Assistant Chief Counsel (Passthroughs & Special Industries), Assistant Chief Counsel (Disclosure Litigation), Assistant Chief Counsel (Employee Benefits and Exempt Organizations), Assistant Chief Counsel (General Litigation), and Associate Chief Counsel (International). The following information is provided for each regulation project: the title; priority status; its effect, if any, on small business; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under Additional Information, there is provided the control number of the project within the Chief Counsel's office and the names and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Fred T. Goldberg,

Commissioner of Internal Revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 168 (e) (3) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide guidance to public utilities relating to the transitional rules for the public utility normalization requirements of ACRS under section 168 (e) (3). Prior to ACRS some public utilities did not have to normalize in order to use accelerated depreciation. Under the transitional rule these utilities are given until January 1, 1993 to meet the normalization requirements of section 168 (e) (3).

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The income tax regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations provide rules for electing the employee plan credit under section 48 of the Internal Revenue Code, establishing a tax credit employee stock ownership plan under section 409 of the Internal Revenue Code and providing voting rights to participants of certain defined contribution plans under section 401(a)(22) of the Internal Revenue Code. Further, the regulations provide guidance for determining the applicability of and calculating the assessable penalties relating to tax credit employee stock ownership plans under section 6699 of the Internal Revenue Code. The regulations reorganize and modify the current regulations which are based on section 301(d), (e), and (f) of the Tax Reduction Act of 1975, and provide a single set of rules that would apply to tax credit employee stock ownership plans established under the provisions of the Tax Reduction Act of 1975 and the 1978 Revenue Act.

Abstract: Final regulations relating to Nuclear Decommissioning Funds did not include provisions for treatment upon disposition of an interest in a nuclear power plant. The proposed regulations will provide guidance to determine the tax consequences of such disposition on a Nuclear Decommissioning Fund and on taxpayers that establish such funds. In addition, the proposed regulations will make a number of needed changes and clarifications to the existing regulations that will aid in the administration and processing of requests for schedules of ruling amounts.

Abstract: The Tax Reform Act of 1986 provides for a new method of computing the tax on distributions of income accumulated by a trust in prior years. The new method, in effect, determines the tax attributable to an accumulation distribution by averaging the distribution over the number of years during which the income was earned by the trust. This is accomplished by including, for purposes of tentative computations, a fraction of the income received from the trust in the beneficiaries' income for 3 of the 5 preceding years. Those 3 years are determined by taking from the 5 preceding years the year with the highest taxable income and the year with the lowest. The fraction of the income included in each of the 3 years is based upon the number of years during which the income is accumulated by the trust. The average yearly additional tax determined by recomputing the tax for the 3 years is then multiplied by the number of years during which the distribution was accumulated. The resulting tax so computed may be offset by a credit for any taxes previously paid by the trust with respect to the accumulated income. (Cont)

deductions and credits to each grantor. This will enable the Service to match the reported income from grantor trusts with the grantor's tax return. Different procedures will be required for trusts with single grantors as opposed to multiple grantors. Corporation grantors will be included. Other considerations will be whether backup withholdings rules apply and whether there is a legal basis for requiring a payor to report income directly to the grantor rather than the trust.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 876 Internal Revenue Code of 1986; 26 USC 931 Internal Revenue Code of 1986

Abstract: The Tax Reform Act of 1986 eliminates the requirement that there be a mirrored system of taxation in Guam and the CNMI, and coordinates the tax system of these possessions and of American Samoa with the U.S. tax system. Guam the CNMI and American Samoa are granted full authority over their own local income tax systems, with respect to income of bona fide residents sourced within or effectively connected with the conduct of a trade or business within any of these possessions. This grant of authority is effective, however, only if and so long as an implementing agreement is in effect between the possession at issue and the United States which provides for elimination of double taxation, prevention of evasion or avoidance of U.S. tax exchange of information and other administrative matters. Regulations are needed to clarify who qualifies as a bona fide resident and to determine sourcing rules.

2444. COORDINATION OF U.S. AND VIRGIN ISLANDS TAXES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986, inhabitants of the Virgin Islands satisfied their U.S. tax liability by filing a return with the Virgin Islands. The Tax Reform Act of 1986 repealed the inhabitant rule to correct an erroneous interpretation of its operation in connection with the Virgin Islands mirror code. Section 1274 of the Tax Reform Act of 1986 clarifies the filing obligations of individuals in the Virgin Islands. Bona fide residents of the Virgin Islands are required to file only one return with the Virgin Islands in which they report worldwide income and identify the sources of income from the Virgin Islands will be required to file two identical tax returns one with the US and one with the Virgin Islands and pay a pro rata amount of tax to each. Regulations are needed to clarify who qualifies as a bona fide resident. It is anticipated that the regulations will provide a facts and circumstances test for determining bona fide resident status. It is unknown what the operational costs will be.

VOL 54 ISS 208 OCT 30 1989 UMI

Abstract: When securities are sold short and payments in lieu of dividends or interest are paid by a U.S. person to a foreigner or vice versa, no rules exist to determine the source of such payments. These regulations will provide such rules. Either the payments will be sourced by reference to residence of the payor or residence of the recipient. Taxpayers now are likely using whatever rule avoids taxation; these regulations will at least provide some revenue to the FISC.

2477. REVISED WITHHOLDING TAX REGULATION TO MODIFY "AS SOON AS PRACTICAL" REQUIREMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1441 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations will modify a requirement of Treas. Reg. section 1.1441-6(c) regarding the time for filing of Form 1001. Section 1.1441-6(a) provides that the withholding rate shall be reduced as may be provided by a treaty with any country. To secure a reduced treaty withholding rate, subsection (c) of the regulation requires the recipient of the income to file Form 1001 (ownership, exemptions, or reduced rate certificate) with the withholding agent. The regulation further provides that each such Form 1001 filed with any withholding agent shall be filed "as soon as practicable". The "as soon as practicable" requirement will be changed to a narrower and more objective time period.

CFR Citation: 26 CFR 20; 26 CFR 25

Legal Deadline: None

Abstract: These regulations will clarify the estate and gift tax treatment of transfers of property where the surviving spouse or donee spouse is not a United States citizen. The regulations will prescribe how certain transfers to a qualified domestic trust for the benefit of an alien spouse will qualify for the estate tax marital deduction. The regulations will also describe the manner on which an estate tax is imposed in the case of any principal distribution from a qualified domestic trust before the death of the surviving spouse and upon the value of the property remaining in the trust upon the surviving spouse's death.

CFR Citation: 26 CFR 1; 26 CFR 301

Legal Deadline: None

Abstract: Legislative changes require that increased numbers of retirees and plan participants must make complex calculations of the taxable amount of distributions they receive from qualified

plans. The regulations will require the payor of a qualified plan distribution (or the plan administrator) to calculate the taxable amount and to report it on the appropriate information return.

Abstract: The purpose of these regulations is to solve the problem that arose in the case of United States v. Air Florida, Inc. 56 B.R. 732 (S.D. Fla. 1985). The regulations will provide that if a state has adopted a Federal law establishing a place for the filing of liens under a national filing system, the state is not considered to have a second office for filing of the notice of lien. The regulations will also provide that the filing of a notice of Federal tax lien is governed solely by the Internal Revenue Code and is not subject to any other Federal law establishing a national filing system.

Abstract: The regulation will provide guidance in obtaining the issuance of a certificate of release of a notice of Federal tax lien. The regulation will revise existing regulations relating to the size of the exemption from levy available for certain property. The proposed regulation also increases the length of post-sale redemption period currently specified in the regulations. The proposed regulations provide rules for service employees administering the Code for providing notice of intention to levy upon the property of a delinquent taxpayer. The proposed regulations increase the amount of damages allowed where property has been levied wrongfully.

Legal Authority: 26 USC 6332 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6332-1(c)

Abstract: Section 1.6332-1(c) currently provides that any person in possession of or obligated with respect to property or rights to property subject to levy and upon which levy has been made who surrenders the property or rights to property, or discharges the obligation to the district director is discharged from any obligation or liability to the delinquent taxpayer. Section 1015(t) of Technical and Miscellaneous Revenue Act of 1988 amends Section 6332 of the Internal Revenue Code to provide that a person who honors a levy is protected from any obligation or liability to any other person as well as the delinquent taxpayer. This should cause a reduction in the number of interpleader actions filed because of concerns over liability to third parties.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6695 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6695-1 (b)

Legal Deadline: None

Abstract: Section 1.6695-1 (b) currently requires that, with one exception, income tax return preparers must

VOL 54 ISS 208 OCT 30 1989 UMI

manually sign returns or claims for refund signed by them. The exception does allow preparers of returns and refund claims for nonresident aliens to use facsimile signatures under certain circumstances. Section 645 (a) of the Internal Revenue Code, added by section 1403 (a) of the Tax Reform Act of 1986, requires trusts, with certain limited exceptions, to use a calendar taxable year. The calendar year requirement means that, instead of being able to spread their duty to sign trust returns over the entire course of a year, preparers must now sign all trust returns before April 15 in order to present them to clients for timely filing. To alleviate this hardship, we are examining the advisability of permitting income tax return preparers of Forms 1041, U.S. Fiduciary Income Tax Returns, to use facsimile signatures and under what conditions such use would be permitted and appropriate.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7425 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Section 301.7425-4(b)(3)(ii), which deals with excess expenses incurred by a purchaser of property after a foreclosure sale and before redemption, provides that the Service may request a written itemized statement from the purchaser regarding excess expenses with 15 days, it shall be presumed that no excess expenses are payable. However, even after the 15-day period expires, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement submitted by the purchaser. There is no specific time frame set for the purchaser to submit his claim after the redemption and after the expiration of the 15-day period. We are examining the feasibility of establishing a 30-day time limit within which a final claim for excess expenses must be submitted by the purchaser after the sale of the property. This will eliminate claims for reimbursement of expenses that may be submitted after redemption and sale of the property, where the liens were fully satisfied and released, and all surplus funds returned to the taxpayer.

Legal Deadline: None

Abstract: Section 7429 currently provides for administrative and judicial review of jeopardy assessments, but these review procedures do not apply to jeopardy levies. The Technical and Miscellaneous Revenue Act of 1988, PL 100-647, Sec. 6237, extends the review procedures of Section 7429 to the review of jeopardy levies and provides concurrent jurisdiction to the Tax Court with Federal District courts with respect to actions challenging a jeopardy assessment or jeopardy levy, provided a Tax Court petition is filed prior to the making of the assessment or levy. We are examining whether any regulations need to be promulgated under the statutory amendment. In particular, we are examining whether any procedural guidelines for the filing of actions in the Tax Court are needed by means of regulations, or whether revision to Tax Court rules is more appropriate. We are also examining whether the revised review procedures contain any ambiguity for which clarification by way of regulation would be helpful.

Abstract: The new section 7432 grants taxpayers the right to bring a cause of action for damages in Federal District court if any officer or employee of the Internal Revenue Service knowingly or negligently fails to release a lien under section 6325 on property of the taxpayer. Damages will not be awarded for failure to release a lien unless the court determines that the taxpayer has exhausted all administrative remedies within the Internal Revenue Service. The Secretary must provide by regulations a reasonable procedure for the taxpayer to notify the Service of a failure to release a lien on property of the taxpayer. Currently, we are considering regulations that will provide procedures for a taxpayer to notify the Service of a failure to release a lien and procedures for administrative exhaustion of remedies.

Legal Deadline: None

Abstract: PL 100-647, Sec 6241, adds a new section 7433 to the Internal Revenue Code. This provision allows taxpayers to sue the Internal Revenue Service to recover economic damages if a Service employee, in connection with the collection of a tax, recklessly or intentionally disregards any provision of the Code or regulations. The new implementing regulation will establish administrative remedies for taxpayers to meet the statutory requirement that administrative remedies be exhausted prior to a court award of damages. The regulation will also outline what steps taxpayers should take to satisfy the statutory requirement that they mitigate their damages.

Abstract: Section 7520 of the Internal Revenue Code, as added by section 5031 of the Technical and Miscellaneous Revenue Act of 1988, requires that the value of any annuity, any interest for life or a term of years, and any remainder or reversionary interest be determined under valuation tables, revised periodically and the applicable Federal interest rate for the month of the valuation of the interest. The regulations will address the use of the tables, which will be published separately, and will contain rules for making an election where charitable transfers are involved. It will also include rules for rounding the applicable interest rates. In addition, the regulations will modify the current regulations for gift, estate, and charitable transfers of annuity trusts, and unitrusts and pooled income funds.

CFR Citation: 26 CFR 301.7605-1(a), (Revision)

Legal Deadline: NPRM, Statutory, November 10, 1989. Final, Statutory, November 10, 1992.

Abstract: Section 7605(a) of the Internal Revenue Code, 26 USC 7605(a), and section 301.7605-1(a) of the regulations currently provide the time and place of an examination shall be fixed by an officer or employee of the Internal Revenue Service and shall be reasonable under the circumstances. No regulations have been promulgated elaborating on this provision. The Taxpayer Bill of Rights requires the publication within one year of regulations enumerating standards for determining whether the selection of a time and place for interviewing a taxpayer is reasonable. These regulations are to provide that if it is generally not reasonable for the IRS to require a taxpayer to attend an examination at an IRS office within the assigned district other than the office located closest to the taxpayer's home. They will also provide it is generally not reasonable for the IRS to audit a taxpayer at his or her place of business if the business is so small that doing so will essentially require the taxpayer to close his business.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 144 (a) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This regulation would define the meaning of the term "principal user of a facility" for purposes of applying the limitation set by the Internal Revenue Code upon the permissible size of a small issue of tax-exempt industrial development bonds, as diminished by certain other capital expenditures. This regulation would help identify other facilities the capital expenditures from which must be taken into account in determining whether that issue exceeds the small issue limitation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved–failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

2613. ● SCOPE OF GENERAL UTILITIES REPEAL

Legal Authority: 26 USC 337(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented in certain circumstances, including, downstream mergers, conversion into tax exempt entities, and cross ownership. This project will seek to identify these areas and promulgate regulations to assure corporate level gain recognition as required by the Act.

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

2630. ALLOCATION OF A LOSS CORPORATION'S INCOME OR LOSS FOR THE TAXABLE YEAR THAT INCLUDES THE CHANGE DATE BETWEEN THE PERIODS ENDING WITH AND AFTER THE CHANGE DATE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Except as provided in regulations, sections 382 (b) (3) (A) and (d) (1) of the Internal Revenue Code of 1986 provide for a ratable allocation of income or net operating loss, respectively, for the taxable year that includes the change date. Notice 87-79, 1987-2 C.B. 387, states that regulations will, in certain cases, provide taxpayers with an election to allocate income and loss between the periods ending with and after the change date on the basis of a closing of their books as of the change date (rather than on the basis of a ratable allocation). The purpose of this regulations project is to implement the above mentioned portion of Notice 87-79 and to provide guidance in certain related areas.

CFR Citation: 26 CFR 1.382-2T(k)(6)

Legal Deadline: None

Abstract: The temporary regulations under section 382 of the Code require loss corporations to identify their five percent shareholders and any five percent shareholders of the loss corporation's corporate shareholders. Foreign corporations do not always have the ability to identify their five percent shareholders. This project will consider whether the attribution, aggregation, and segregation rules under section 382 should be modified when applied to foreign corporate shareholders of a loss corporation, and whether the Service should substitute a more convenient inquiry for foreign corporate shareholders than the current five percent shareholder identification.

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-86 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities

(including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation period.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; PL 99-514, Sec 1203

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1203 of the Tax Reform Act of 1986 amends section 904 (f) by adding paragraph (5) at the end thereof which requires that foreign source losses with respect to any income category first offset the taxpayer's other foreign source income subject to a separate limitation for the taxable year on a proportionate basis before such losses offset the taxpayer's U.S. source income. Accordingly, the regulation will provide rules for the allocation of foreign source losses incurred in taxable years beginning before the effective date of the Tax Reform Act of 1986.

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

2725. CUSTOMS LIMITATION ON TAXPAYER'S BASIS IN PROPERTY IMPORTED FROM RELATED PERSONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986 importers could claim a transfer price for customs purposes that was too low to be consistent with the price they claim for income tax purposes. Section 1248 of the Tax Reform Act of 1986 addressed this problem by enacting Section 1059A of the Internal Revenue Code, under which importers cannot claim a transfer price for income tax purposes that is higher than would be consistent with the value they claim for customs purposes. Regulations will be needed to provide rules for coordinating customs and tax valuation principles. It is anticipated that as a result of Section 1059A of the Internal Revenue Code, some taxpayers will claim higher transfer prices for customs purposes. No estimate has been made of the revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-3(f)(2)

Legal Deadline: None

Abstract: Section 47 (a) (1) of the Internal Revenue Code and the regulations thereunder provide the general rule that if section 38 property is disposed of there shall be recapture of investment credit. Section 1.1502-3 (f) (2) provides an exception to that rule for the transfer of section 38 property between members of an affiliated group; such a transfer will not cause a disposition within the meaning of section 47 (a) (1). This exception is premised on treating the affiliated group, for investment tax credit purposes, as a single entity that continues to own the property after the transfer. Such a premise is not justified, and the exception does not apply, if at the time of the transfer there is an intent that the property subsequently leave the group in a transaction described in section 1.1502-13 (f). See Rev. Rul. 82-20, 1982-1 CB 6. In such a case, recapture is appropriate. The regulation will amend section 1.1502-3 (f) (2) to make this explicit.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-32 (T)

Abstract: When a subsidiary declares a dividend while a member of a consolidated group, but pays the dividend after disaffiliation from the consolidated group, the basis of the subsidiary's stock is not reduced by the amount of the dividend. The problem is caused by a difference in timing of the two events (declaration of dividend and payment of dividend) and its effect on earnings and profits and basis. This regulation will alleviate the problem by providing that basis of the subsidiary's stock will be reduced when the subsidiary declares a dividend.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-13

Legal Deadline: None

Abstract: Section 1.1502-13 of the Income Tax Regulations provides the general rule that the term intercompany transaction means a transaction during a consolidated return year between corporations which are members of the same group. Section 1.1502-13 (f) provides as a general rules that deferred gain attributable to a selling member will be triggered when the asset leaves the group. The regulation, in effect, does not deal with a situation where a selling member exchanges property subject to Section 1.1502-13 rules in a nontaxable exchange to an outside party. Moreover, the current regulations do not adequately cover tax free transactions between members. This proposed regulation will provide rules for certain common nontaxable exchanges within the affiliated group.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1503(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Abstract: If a U.S. Corporation is subject to a foreign country's tax on worldwide income, or on a residence basis as opposed to a source basis, any taxable loss it incurs cannot reduce the taxable income of any other member of a U.S. affiliated group for any other taxable year. Where a corporation is subject to foreign tax on a residence basis, then for U.S. purposes, its loss will be available to offset income of that corporation in other years, but not income of another U.S. Corporation. Regulations may exempt a U.S. corporation from this rule to the extent that its losses do not offset the income of foreign corporations for foreign tax purposes.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.

2810. ● TAXPAYER ASSISTANCE ORDERS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986 PL 100-647, Sec. 6230

CFR Citation: 26 CFR 301.7811

Legal Deadline: Final, Statutory, February 8, 1992.
Temporary regulation published as TD 8246 effective February 8, 1989, must be published as final regulations within three years.

Abstract: PL 100-647, section 7811, adds new section 7811 to the Internal Revenue Code. This section provides that upon application filed by a taxpayer with the Ombudsman's office, the Ombudsman may issue a taxpayer assistance order (TAO) upon a determination that a taxpayer is or is about to suffer a significant hardship as the result of how the internal revenue laws are being administered by the service. The temporary regulations discuss the form, manner and time for filing an application for assistance, the terms of a TAO, and the supervision of applicable periods of limitation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-32(T)

Legal Deadline: None

Abstract: When a subsidiary declares a dividend while a member of a consolidated group, but pays the dividend after disaffiliation from the consolidated group, the basis of the subsidiary's stock is not reduced by the amount of the dividend. The problem is caused by a difference in timing of the two events in (payment of dividend and declaration of dividend) and its effect on earnings and profits and basis. This regulation will alleviate the problem by providing that basis of the subsidiary's stock will be reduced when the subsidiary declares a dividend.

2842. ADMINISTRATIVE APPEAL OF THE FILING OF NOTICE OF FEDERAL TAX LIEN

Significance: Agency Priority

Legal Authority: PL 100-647, Sec 6238; 26 USC 6326

CFR Citation: 26 CFR 1.6326

Legal Deadline: NPRM, Statutory, May 9, 1989.

Abstract: Section 6238 establishes a new section 6326 of the Internal Revenue Code. The new section 6326 (a) provides that the Secretary shall prescribe regulations that provide for the administrative appeal of the filing of notice of Federal tax lien. Section 6326 (b) provides that if the Secretary determines that the Service has erroneously filed a Federal tax lien, the Secretary must expeditiously and to the extent practicable, within 14 days after such determination, issue a certificate of release of the lien. This certificate must include a statement that the filing was erroneous. We currently are in the process of drafting regulations pursuant to section 6326. The regulations will address what issues are appealable under section 6326, to whom an appeal should be made, and the procedures for appeal.

Department of Veterans Affairs

Semiannual Regulatory Agenda

DEPARTMENT OF VETERANS AFFAIRS (VA)

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Department of Veterans Affairs.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Department of Veterans Affairs will have under review, development, or revision during the 12-month period from October 1989 to October 1990. The purpose in publishing the Department's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual Department contact listed for each regulation or by writing to: Paperwork Management and Regulations Service (70Y731), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: 38 CFR: M'Liz McLendon, (202) 233-3770; 48 CFR Chapter 8: Sunny Huff, (202) 233-4240.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register** in April and October of each year an agenda of regulations under development and review.

The Department of Veterans Affairs has no regulations considered major under the terms of Executive Order 12291; however, all of this Department's proposed rules and current rules under review, except those considered to be internal Department policy management or routine regulations, have been listed in accordance with section 5(a) of the Executive order.

This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) of the Regulatory Flexibility Act.

This agenda has been prepared in accordance with OMB Bulletin 89-12.

Dated: August 25, 1989.
By direction of the Secretary.

Michael J. Herway,

Deputy Assistant Secretary for Information Resources Management.

2848. DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS ON FACILITY UPON DEATH, OR DISCHARGE, OR UNAUTHORIZED ABSENCE, AND OF FUNDS AND EFFECTS FOUND ON FACILITY

Legal Authority: 38 USC 210(c)

CFR Citation: 38 CFR 12.0 to 12.24

Legal Deadline: None

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a Department of Veterans Affairs facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any Department of Veterans Affairs facility or any hospital, while being furnished care or treatment therein by VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

Legal Authority: 38 USC 5031 to 5037; PL 100-322

CFR Citation: 38 CFR 17.170 to 17.177

Legal Deadline: None

Abstract: Pub. L. 100-322 changed the date of the priority list for applications from July 1 to August 15. The Secretary is provided authority to conditionally award construction grants. If a state does not complete requirements within 90 days after conditional approval, funds will be deobligated. These proposed regulations will implement that change. Construction standards in 38 CFR 17.177 are being totally reformatted, revised and updated. The veteran population in 38 CFR 17.171 Appendix A is being updated to reflect the current information. Additionally, provisions are being established to handle large grant requests where one project may exceed the annual appropriation. Requests for projects exceeding one-half the annual appropriation will receive lower priority on the list and may be partially funded if funds are available, the project ranks high enough on the priority list for Federal funds, and the State accepts a smaller grant.

Legal Authority: PL 100-322, Sec 412

CFR Citation: 38 CFR 17.162

Legal Deadline: None

Abstract: Section 412 of Pub. L. 100-322 authorizes the Veterans Canteen Service to operate child care centers at VA facilities. The centers will be established based on the demand for care and to the extent that such operation is practical and in the best interest of VA. The centers will be available for the children of VA employees and, to the extent space is available, the children of other Federal and Department of Veterans Affairs affiliated employees. Also, these centers should provide an incentive for personnel recruitment. The proposed regulations will prescribe the requirements and standards for the operation of VA child care centers.

Legal Deadline: None

Abstract: 38 USC 3305 prohibits VA from designating any Quality Assurance (QA) program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. Final regulations implementing 38 USC 3305 were made effective October 22, 1982. Those regulations govern VA's QA program activities and records and documents which are made confidential and privileged. Proposed rules amending 38 CFR 17.500-17.534 were issued in the Federal Register on October 27, 1988, and the public comment period ended November 38, 1988. One commenter suggested a change to those regulations that could not be accepted by VA without public comment. Therefore, VA is proposing to reorganize the description of the continuous monitoring functions, streamline programmatic QA requirements for the medical facilities and update requirements according to new standards.

Abstract: Federally appointed fiduciaries are not required, except under very specific circumstances, to divulge non-VA income and assets belonging to the incompetent beneficiary. It is difficult to assess whether the fiduciary is using the beneficiary's VA assets appropriately unless placed in the context of total income and assets available. The purpose of these changes is to lessen the potential for fraud, waste and abuse. 38 CFR 13.58(b)(2) and 13.59(a) detail the responsibilities of legal custodians and court-appointed guardians respectively. They would be amended to require the reporting of non-VA assets. 38 CFR 13.100(a)(1) defines the authority of the Veterans Services Officer to supervise fiduciaries. The intended change would permit the Veterans Services Officer to request non-VA financial information from fiduciaries. 38 CFR 13.102(b) and 13.104(b) define the accountability of legal custodians and court-appointed guardians respectively. Legal Authority: 38 USC 706; 38 USC 744

CFR Citation: 38 CFR 6.211; 38 CFR 8.119

Legal Deadline: None

Abstract: Under current procedures, State appointed fiduciaries may perform insurance transactions, e.g., apply for coverage or reinstate a policy, on behalf of incapacitated veterans. The ability of a fiduciary to perform a particular transaction is dependent on the authority granted to the fiduciary by State law. Such authority varies from State to State. Because of this, before any insurance transaction can be completed it must first be determined whether the fiduciary is authorized by State law to conduct the particular transaction. This entails referring the matter to a District Counsel for review. This process is time consuming and delays rendering service to our policyholders. In order to alleviate this problem and to establish a consistent approach regarding the powers of State-appointed fiduciaries, as well as federally appointed fiduciaries as they pertain to government life insurance transactions only, we are proposing regulations which will clarify and enunciate such powers.

Abstract: The Department of Veterans Affairs (VA) is proposing to amend its regulations governing two programs which provide vocational service to seriously disabled veterans receiving pension or individual unemployability benefits from VA. These changes are required because recent legislation extended both programs through January 31, 1992, and revised eligibility criteria for participation. The intended effect of these amendments is to make these programs available to an expanded group of veterans in receipt of pension from VA and eliminate the mandatory participation requirement for veterans awarded individual unemployability benefits on or after February 1, 1985.

Abstract: To establish standards and procedures for enforcing Title IX of the Education Amendments of 1972 in educational programs and activities receiving Federal financial assistance from VA. Title IX prohibits discrimination on the basis of sex. There are no alternatives to the issuance of the regulations. Participants, potential participants and the public in general will benefit from Federally assisted programs provided free from prohibited discrimination based on sex.

This originally appeared as a proposed rule in the Federal Register of April 25, 1979 (44 FR 24320). Because of the extended time frame due to internal agency consultation with the Department of Justice, the Department is planning to repropose these regulations.

Abstract: The proposed amendments to existing procedures and requirements will authorize accreditation as claim representatives of individuals working at least 1,000 hours annually for organizations recognized by VA to represent veterans-benefit claimants and establish criteria for the accreditation of county veterans' service officers as claim representatives based on recommendation and supervision by State organizations recognized by VA to represent veterans' benefit claimants. VA believes less-than-full-time employment of a claim representative (specifically, at least 1,000 hours per year) does not connote lack of accountability to the recognized organization, primarily because the representative is significantly dependent upon the organization as the source of livelihood. As regards accreditation of county veterans' service officers, VA has for some years recognized some such officers, even though they are not actually State-employed, under the theory they are so closely associated with the State as to be considered State employees. 2907. CONTRACT MEDICAL CARE

Significance: Regulatory Program

Legal Authority: PL 99-576

CFR Citation: 38 CFR 17.50b; 38 CFR 17.87

Legal Deadline: None

Abstract: The Department of Veterans Affairs and the Department of Health and Human Services will be proposing to amend applicable regulations to permit VA to pay for authorized or private hospital care in amounts based on the rates allowed by Medicare under the prospective payment system. This step will help ensure that payments made by VA are consistent with those

made by the largest Federal health care program for similar services in the community.

Legal Deadline: None

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criteria for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the result of an unpublished General Counsel opinion.

38 CFR 13.74 is based on the provisions of 38 USC Sec. 3203(b) (1)(A); however, where the law refers to more than one type of institutional care, the regulation refers only to instances of hospitalization. This would seem to preclude application of the regulation when veterans are in State run nursing homes or other institutions operated by the United States or a political subdivision. The Department of Veterans Affairs, therefore, proposes to correct this defect by substituting the terms "institution" and "institutionalization" where appropriate.

Abstract: Under current provisions, use of the Vocational Rehabilitation Panel is required in certain instances. The role of the Panel is to assist in helping seriously disabled veterans successfully pursue a rehabilitation program. The requirement for consultation was a sound policy when the vocational rehabilitation program was substantially revised and broadened in 1980. As staff have gained experience with the new policies which resulted from the revision of the rehabilitation program in 1980, the need for consultation in every case has decreased. Current field experience indicates that placing use of the Panel on a discretionary basis is in the interest of the veteran and the government.

Abstract: VA may make payments of educational assistance allowance to veterans and eligible persons under the various GI Bills during breaks within a certified period of enrollment when the break results from a school closing based upon an order of the President or due to an emergency situation. The Directors of Regional Offices have been delegated the authority to determine when these payments should be made. Legal Authority: 38 USC 1621; 38 USC 1631

CFR Citation: 38 CFR 21.5134

Legal Deadline: None

Abstract: The law requires that generally, an individual must contribute to the Post-Vietnam Education Assistance Program (VEAP) fund for 12 months in order to receive educational assistance. So as to encourage participation by servicemembers, VA has permitted a servicemember who meets all the other eligibility requirements to receive educational assistance after he or she has completed 3 months of contributions to the fund or has made a lump-sum payment which is the equivalent of at least 3 months' contributions to the fund. In order to comply with the law it has been VA's policy to require these servicemembers to establish a continuing allotment so that they eventually will contribute to the fund for 12 months. However, the regulation which mentions the 3 months' contributions does not mention the 12 months' participation requirement. This has led to instances where servicemembers who have been paid educational assistance, never participated for 12 months. VA wishes to amend the regulation to correct this.

Legal Authority: 38 USC 3102

CFR Citation: 38 CFR 1.955

Legal Deadline: None

Abstract: Currently, a panel of a Committee on Waivers and Compromises is composed of either one, three, or five members. A one-member panel is used for waiver requests on debts of $1,000 or less. The proposed revision will permit one panel member for debts of $20,000 or less and two or three-member panels for debts in excess of $20,000. We believe that this proposed revision will provide the most efficient use of Committee members.

Legal Authority: 29 USC 794

CFR Citation: 38 CFR 18.423(c); 38 CFR 18.401 to 18.461, App A

Legal Deadline: None

Abstract: To incorporate a reference to the Uniform Federal Accessibility Standards (UFAS) and update the list of Federal financial assistance programs administered by VA. The existing regulations require that new construction and alteration of facilities be made in an accessible manner. The regulations provide that new construction or alteration of facilities in conformance with the American National Standard Specifications for Making Building and Facilities Accessible to, and Usable by, the Physically Handicapped (ANSI A117.1-1961 (B 1971)) shall constitute compliance with the accessibility requirements for new construction and alteration of facilities. The proposed revision will replace the current standard with the UFAS, published under the Architectural Barriers Act of 1966. Because some facilities subject to the accessibility requirements of section 504 of the Rehabilitation Act of 1973 are also subject to the accessibility requirements of the Architectural Barriers Act, this proposal would eliminate any potential conflict between standards enforced under the two statutes.

2939. ● SUITS AGAINST VA EMPLOYEES ARISING OUT OF COMMON LAW TORTS AND BASED UPON MEDICAL CARE AND TREATMENT FURNISHED IN OR BY VHS&RA

Legal Authority: 38 USC 4116(f)

CFR Citation: 38 CFR 14.610

Legal Deadline: None

Abstract: This amendment will incorporate a change in the law of personal immunity of Department of Veterans Affairs (VA) health care personnel. 38 U.S.C. 4116 renders the Federal Tort Claims Act (FTCA) the exclusive remedy for negligence or malpractice committed by a VA health care worker in the course of his or her employment in or for the Veterans Health Services and Research Administration (VHS&RA). Judicial decisions have held the provision to be inapplicable, however, and the immunity effected thereby unavailable, when the tort allegedly committed was one excepted from the coverage of the FTCA, as a number of intentional torts are by virtue of 28 U.S.C. 2680(h). Section 203(a) of Pub. L. 100-322, now codified as 38 U.S.C. 4116(f), waives the intentional torts exception of the FTCA in the medical care context, permitting an action against the United States and conferring immunity on the VA health care worker.

2940. RELEASE OF VA LISTS OF NAMES AND ADDRESSES AND PENALTY PROCEDURES FOR UNAUTHORIZED USE

Legal Authority: 38 USC 3301(f)

CFR Citation: 38 CFR 1.519

Legal Deadline: None

Abstract: VA is amending the existing regulations concerning VA lists of names and addresses and is also proposing administrative procedures to use when these lists are used for purposes not authorized by law. This action results from the need to amend the regulations to reflect current procedures, organizational changes, and concern expressed by veterans and some service organizations regarding unsolicited mail. The proposed regulatory amendments will allow VA to enforce its statutory duty to protect the privacy of information concerning veterans and their dependents, establish procedures to suspend recipients who misuse VA name and address lists of veterans/dependents, and give advance notice to recipients of what constitutes an authorized/unauthorized use of veterans/dependents names and address lists, thereby protecting the due process rights of any recipient before penalties are enforced.

Legal Authority: 5 USC 552(b)(4); EO 12600

CFR Citation: 38 CFR 1.554

Legal Deadline: None

Abstract: Executive Order 12600, Predisclosure Notification Procedures for Confidential Commercial Information, establishes certain mandatory and uniform procedures for handling Freedom of Information Act (FOIA) requests for records which may contain confidential commercial information, protected by FOIA exemption (5 U.S.C. 552(b)(4)). The Executive Order requires the notification and designation procedures be established in VA regulations. Accordingly, the revision to 38 CFR 1.554 will comply with the requirements of the Executive Order.

ACTION

Semiannual Regulatory Agenda

ACTION (ACTION)

ACTION

45 CFR Ch. XII

Executive Order 12291, Federal Regulation, Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision, or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Stewart A. Davis, Acting General Counsel, ACTION, 1100 Vermont Avenue NW., Washington, DC 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Jane A. Kenny,
Acting Director.

ACTION (ACTION) — Prerule Stage

2969. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS

Legal Authority: 42 USC 2000(d)(1); 42 USC 5057; 42 USC 5060

CFR Citation: 45 CFR 1203

Legal Deadline: None

Abstract: In accordance with 42 USC 2000(d)(1), ACTION will promulgate regulations implementing provisions of Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, as amended, and Section 417 of the Domestic Volunteer Service Act of 1973, as amended, which prohibit discrimination on the basis of race, color, national origin, religion or sex, in federally assisted programs. Relevant provisions of existing ACTION Title VI regulations will be subsumed into this new regulation.

2973. FREEDOM OF INFORMATION ACT REGULATIONS

Legal Authority: 16 USC 470 Nat. Historic Preservation Act of 1966, as amended

CFR Citation: 36 CFR 810.5

Legal Deadline: None

Abstract: The regulation will increase the fees charged to requesters of information to better reflect the cost to the Government of locating and copying the documents requested. Copying charges would be increased from $0.10 to $0.13 per page; fees for searches by professional staff from $2.00 to $4.65 per quarter hour; and fees for searches by clerical staff from $1.00 to $2.30 per quarter hour. The regulation would thus impose a "user's fee" to users of the Government FOIA system which is more consistent with other agencies' fees.

Federal Regulations; Agency Regulatory Agenda Semiannual Summary

AGENCY: Agency for International Development, IDCA.

ACTION: Agency regulations agenda.

SUMMARY: The Agency for International Development (AID) is publishing this agenda as required by section 5(a) of Executive Order 12291, Federal Regulation (46 FR 13193, February 19, 1981), and by the Regulatory Flexibility Act (Pub. L. 96-354, September 30, 1980). This agenda reports the status of those regulations currently under review and gives AID's plan for the issuance of proposed regulations during the next twelve months. It is expected that the information provided in this agenda will enable the public to be more aware of and to participate more effectively in AID's rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda or the review list in general, contact: Mr. John H. Elgin, Office of Information Resources Management, Agency for International Development, Washington, DC 20523; telephone (703) 875-1608.

Specific: For further information about any particular item on the agenda, contact the individual listed as the contact for that item.

Regulatory Flexibility Act (RFA)

The Agency does not have any rulemaking activity that falls within the requirements of RFA and does not anticipate any during the next reporting period.

Dated: August 21, 1989.

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Legal Deadline: None

Abstract: This regulation sets forth provisions of the Agency for International Development (AID), acting as an agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the Section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy and wheat products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, PL 83-480. The Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

COMMISSION ON CIVIL RIGHTS (CCR)

COMMISSION ON CIVIL RIGHTS

45 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: U.S. Commission on Civil Rights.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the 6-month period from October 1, 1989, through March 31, 1990. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For further information on any items in the agenda, contact: Jeffrey P. O'Connell, Acting Solicitor, U.S. Commission on Civil Rights, Room 604, 1121 Vermont Avenue NW., Washington, DC 20425, (202) 376-8514.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required.

William J. Howard,

General Counsel.

SUPPLEMENTARY INFORMATION:

Statutes Covered in the Agenda

Asbestos Hazard Emergency Response Act (AHERA)
Atomic Energy Act (AEA)
Clean Air Act (CAA)
Clean Water Act (CWA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Hazardous and Solid Waste Amendments (HSWA)
Marine Protection, Research, and Sanctuaries Act (MPRSA)
Resource Conservation and Recovery Act (RCRA)
Safe Drinking Water Act (SDWA)
Superfund Amendments and Reauthorization Act (SARA)
Toxic Substances Control Act (TSCA)
Water Quality Act of 1987 (WQA)
General - Other Acts (including grant and procurement regulations that cut across several program areas)

Organization of the Agenda

The agenda is organized by statute, and in several cases, it combines regulations with differing statutory authorities that have closely related subject matter. For example, the Asbestos-in-Schools Inspection, Abatement, and Disposal regulation is written under AHERA but appears with regulations under TSCA.

Within each statutory listing, the regulations are ordered numerically by section number of the authorizing legislation. For example, all RCRA regulations under section 3001 appear before those under section 3006.

Within each statutory area, the entries are further divided into four categories: (1) Prerule, (2) proposed rule, (3) final rule, and (4) completed actions (regulations that EPA is deleting from the agenda because the Agency has completed, withdrawn, or postponed them indefinitely). Detailed information on each of these sections is presented below.

I. Prerulemakings

Prerulemaking actions include activities intended to determine whether or how to initiate rulemaking. These activities include anything that influences or leads to rulemaking, such as advance notices of proposed rulemaking, significant studies or analyses of the possible need for regulatory action, requests for public comment on the need for regulatory action, or important pre-regulatory policy proposals.

This section also includes existing EPA regulations that are now under review. The purpose of such reviews is to determine whether the Agency should revise the rule, rescind it, or leave it unchanged. When finished, the Agency will list these reviews in the completed section of the agenda. If EPA decides to revise or rescind the regulation, the action will appear in the proposed rule section of the next agenda, which will state the timetable for completing the revision or rescission.

For each regulation under review, the agenda provides the title, a short abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and the schedule for completing the review. It also indicates the "review authority," which may be different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12498 is intended to outline the Administration's annual Regulatory Program. It defines priority activities that Federal departments and agencies will work on during the upcoming year. Its purpose is to minimize duplication and conflict among regulatory activities and enhance public understanding of the Administration's regulatory objectives.

Executive Order 12291 establishes the general policy that Federal departments and agencies should review their regulations to ensure that the costs of the regulations are justified by their benefits. The Office of Management and Budget (OMB) reviews agency rules to assess their compliance with the Executive order's goals of maximizing net social benefits.

The Regulatory Flexibility Act (RFA) requires that Federal departments and agencies review existing regulations that have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every ten years. EPA invites public comment regarding RFA issues on the list of regulations EPA is reviewing.

Reviews EPA has targeted under the RFA are identified under "Analysis." The agenda identifies the types of entities affected under "Small Entities Affected." "Government Levels Affected" (State, local, or Federal) are also indicated.

When the Agency completes reviews of regulations with a significant impact on small entities, the agenda indicates whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 16, 1981, plan (46 FR 36930) for reviewing regulations under the Act.

The Paperwork Reduction Act (PRA) requires Federal departments and agencies to review their information collection activities to assure that they need and will use the information and manage it efficiently. They must also ensure that the information to be collected is of high quality, appropriate for its intended use, and does not already exist at some other Federal agency. In addition, the PRA requires agencies to review the cost of collecting the information so that it will be held to a minimum for both the respondent and the agencies. Congress gave oversight authority to OMB. EPA must have OMB approval before it either collects information or requires that information be collected.

II. Proposed and Final Rules

This section includes all "significant" EPA regulations. Some are priority regulations under development that are subject to Executive Order 12498 or that the Agency has designated for priority development or revision. These regulations are also subject to certain provisions of E.O. 12291, RFA, and PRA.

EPA generally lists regulations in this category of the agenda once they are within a year of proposal or promulgation. Very important regulations under development will usually appear even if the scheduled publication dates are more than a year away.

Proposed and final rules appear as: (a) Actions that will create new CFR parts, subparts, or subsections (the word "revision" will appear in subsections) or (b) actions that revise or amend already existing CFR parts, subparts, or subsections. The word "revision" will appear in parentheses after the title of each regulation undergoing revision. All regulations appearing in the agenda for the first time are marked with bullets (●).

However, the listings exclude (a) specialized categories of actions (such as EPA approvals of State plans and other actions that do not apply nationally) and (b) routine actions (such as pesticide tolerances and minor amendments to existing rules).

For each proposed and final regulation, the agenda includes:

- Title
- Priority classification (if applicable)
- Legal authority
- CFR reference(s)
- Legal deadline (if applicable)
- Abstract (short description of action)
- Timetable of existing and scheduled actions
- References to small entities
- Additional information (includes the FTS phone number for the Agency contact, the Start Action Request (SAR) number, which is assigned to the regulation for internal tracking purposes, and any other information that is not included in the abstract)
- Agency contact
- Analysis (indicates if the Agency is preparing a Regulatory Impact Analysis (RIA) and/or an analysis under the RFA)

III. Completed Actions

These are actions that appeared in the previous agenda, which EPA is deleting because they are completed or are no longer under consideration for rulemaking. Information on these regulations is less detailed than for those that are still under consideration. Generally, completed entries include: (1) An explanation of why the Agency is deleting the regulation from the agenda or (2) the **Federal Register** publication date and citation for the final rule.

Dated: August 24, 1989.

Deputy Assistant Administrator, Office of Policy, Planning and Evaluation.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

Proposed Rule Stage

2985. PESTICIDE REGULATIONS FOR PESTICIDAL TRANSGENIC PLANTS (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136/FIFRA 2; 7 USC 136a/FIFRA 3; 7 USC 136w/FIFRA 25; 7 USC 136c/FIFRA 5

CFR Citation: 40 CFR 152.20

Legal Deadline: None

Abstract: EPA will consider the need for an amendment to clarify that chemical pesticides produced by transgenic plants are not considered to be biological pest control agents and, therefore, may not be exempt from the provisions of FIFRA (the existing section 152.20 exempts from FIFRA regulation all plants that may be used as biological pest control agents). Instead, chemical pesticides produced by transgenic plants may receive regulatory oversight similar to that which is already in place for chemical pesticide products that are produced and applied by conventional means. This regulation and its development will be coordinated with USDA/APHIS and other agencies, as appropriate.

Significance: Regulatory Program

Legal Authority: 7 USC 136a/FIFRA 3; 7 USC 136d/FIFRA 6; 7 USC 136w/FIFRA 25

CFR Citation: 40 CFR 152.170

Legal Deadline: None

Abstract: This rule will provide a scheme for identifying pesticides which may pose an unacceptable hazard because of the potential to leach into groundwater. The Agency will propose criteria for classifying such pesticides for restricted use. Restricted use pesticides generally may be applied only by state certified applicators.

Legal Authority: 7 USC 136a/FIFRA 3; 7 USC 136w/FIFRA 25; 7 USC 136d/FIFRA 6

CFR Citation: 40 CFR 158.640

Legal Deadline: None

Abstract: The Agency may change pesticide producer requirements on submission of qualitative and quantitative product performance data relative to other chemical or non-chemical practices. A companion revised quideline may provide protocols and methodologies for conducting the studies necessary to produce acceptable compartive performance data. Registrants may experience cost increases to support registration of pesticide products. The benefits would be better and more uniform data on pesticide product performance.

Abstract: This action is intended to develop regulations to allow the sale of restricted use pesticides to persons who are not certified under special circumstances as set forth by Congress in 1978. Regulatory development will be coordinated with the review of state plans under FIFRA Section 4 to determine both need and compatibility with State authorities and programs.

2991. AMENDMENTS TO EXPERIMENTAL USE PERMIT RULE FOR CERTAIN MICROBIAL PESTICIDES (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136c /FIFRA 5; 7 USC 136a/FIFRA 3

CFR Citation: 40 CFR 172

Legal Deadline: None

Abstract: EPA proposes to amend its experimental use permit regulations for pesticides to clarify the circumstances under which an experimental use permit is presumed not to be required and to specify that the presumption is based on risk. EPA also proposes to require notification before initiation of small-scale testing of certain genetically modified microbial pesticides. Each notification will be reviewed by the Agency, and a determination made as to whether an experimental use permit will be required. This notification scheme would implement provisions of the Agency's policy statement of June 26, 1986 (51 FR 23302), with some modifications, and is intended to provide sufficient oversight of the early testing of these microbial pesticides pesticides to mitigate any adverse human health or environmental effects.

2992. REPORTING REQUIREMENTS FOR RISK/BENEFITS INFORMATION

Legal Authority: 7 USC 136d/FIFRA 6

CFR Citation: 40 CFR 153

Legal Deadline: None

Abstract: FIFRA Section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6(a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is reissuing it as a proposal to clarify the types of information which registrants must report to EPA. EPA is also incorporating instructions for use by registrants who are subject to generating reregistration data on what 6(a)(2) data to identify during reregistration.

Legal Authority: 7 USC 136 / FIFRA 3, FIFRA 6, FIFRA 19

CFR Citation: 40 CFR 158; 40 CFR 165

Legal Deadline: None

Abstract: EPA is authorized to issue regulations to specify the types and minimum amounts of data the Agency requires to support the registration or continued registration of a pesticide, and for other purposes. This rule may specify the necessary information and data EPA would require regarding methods for the safe storage and disposal of pesticides. The data requirements table and supporting information would become a part of existing 40 CFR Part 158.

Abstract: This amendment may update the data requirements for evaluating the risks of pesticide products. Recent health and environmental concerns (e.g., groundwater contamination and neurotoxicity) and advancements in testing technology have changed. Also, the revisions may clarify data requirements to reflect current practice.

Significance: Regulatory Program

Legal Authority: 21 USC 346a/FFDCA 408; 21 USC 348/FFDCA 409

CFR Citation: 40 CFR 180

Legal Deadline: None

Abstract: The first phase of this regulation will set forth procedures for which food additive tolerances, required by section 409 of the Federal Food, Drug and Cosmetic Act (FFDCA), may be established, modified or revoked. The proposal also covers procedural rules governing the filing of objections, requests for hearings and hearing procedures under FFCDA Sections 406 and 409. In the second phase, which will overlap the first, the Agency plans to develop a unified regulation that will deal with the substantive interpretations and criteria for deciding when tolerances or food additive regulations are needed, what data are needed to support a tolerance or food additive regulation, and what criteria will be used by EPA to determine whether a tolerance or food additive regulation should be established, modified, or revoked.

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6; 15 USC 2608/TSCA 9

CFR Citation: 40 CFR 754

Legal Deadline: None

Abstract: EPA, in consultation with the Consumer Product Safety Commission, Occupational Safety and Health Administration, and Food and Drug Administration, is developing a comprehensive and integrated strategy for a regulatory investigation of methylene chloride and five other chlorinated solvents. In some cases, these chlorinated solvents are competitive and can be easily substituted for each other in a number of uses. The integrated effort is being conducted to reach general agreement on the risks associated with the solvents and to avoid ineffective risk management actions that may occur due to solvent switching or pollutant transfer among media which could be caused by piecemeal regulation. Data are being gathered for six solvents (methylene chloride, perchloroethylene, trichloroethylene, methyl chloroform, carbon tetrachloride, and CFC-113 which is now being phased out due to its ozone depletion characteristics) and their potential substitutes. This regulatory investigation is focused on three categories: metal cleaning, paint stripping, and aerosol application. The investigation will determine whether coordinated regulatory controls are needed to eliminate or reduce (cont)

Abstract: Processing, distribution in commerce, and disposal activities by the scrap metal recycling industry are resulting in some releases of PCBs (and other hazardous substances such as lead) at levels exceeding current regulatory action levels. The problem may affect all media (air, land, and water). Regulatory options under consideration focus on the mandate of both the Resource Conservation and Recovery Act (RCRA) and the Toxic Substances Control Act (TSCA). Options include: (1) mechanisms to provide relief to the shredding industry such as authorizing PCB-related activities that do not present an unreasonable risk, and (2) the feasibility of using TSCA to reduce risks posed by other materials.

An RIA and an RFA would not be statutorily required for this regulation because the rule would grant relief from the Toxic Substances Control Act (TSCA) processing, distributions in commerce and disposal requirements rather than impose additional burdens on the regulated community. Nevertheless, we do plan to assess the economic impact of any proposed actions on industry, particularly small businesses, as part of our unreasonable risk analysis for TSCA.

Abstract: The following table lists chemicals for which EPA will initiate rulemaking to require testing, obtain testing through negotiated consent orders, or publish a notice which provides the reasons for not doing so. The list includes chemicals which have been designated for priority testing consideration by the Interagency Testing Committee as well as those chemicals (i.e., recommended and non-designated chemicals) for which the 12-month statutory requirement does not apply. The list also includes chemicals or categories of chemicals which have been identified for testing consideration by other EPA program offices and through EPA review processes.

3013. CHEMICAL SPECIFIC SIGNIFICANT NEW USE RULES TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, import, processing, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5(e) to limit the aforementioned activities. However, section 5(e) orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons are free to manufacture, import, or process the substance without controls. Therefore, EPA by rule, designates manufacture, import, or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no uncontrolled activities will occur without an opportunity for prior Agency review.

3014. GENERIC SIGNIFICANT NEW USE RULE FOR ACRYLATE COMPOUNDS

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: The generic acrylate significant new use rule may require any person who proposes to manufacture, import, or process an acrylate/methacrylate subject to the category definition contained within the proposed rule to notify EPA at least 90 days in advance of the initiation of manufacture or process for a significant new use. The significant new use rule will apply to a subset of acrylates and methacrylates added to the inventory after the effective date of the rule. It will no longer be necessary to issue routine 5(e) orders or chemical specific SNURs for those acrylates covered by the rule.

3015. RULEMAKING CONCERNING CERTAIN MICROBIAL PRODUCTS ("BIOTECHNOLOGY")

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA 5; 15 USC 2607 /TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 720; 40 CFR 721

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act, the agency is proposing two separate regulatory actions for manufacturers, importers, and processors of certain microbial products of biotechnology. Under section 5, the Agency is proposing to amend its definition of "small quantities solely for research and development" contained in the Premanufacture Notification (PMN) Rule, thereby requiring persons to submit notices prior to testing new microorganisms in the environment. This amendment will require reporting for new microorganisms and will establish a special notification mechanism for experimental releases of microorganisms. EPA also is proposing significant new use notification requirements under section 5(a)(2), which would ensure that EPA will receive for review, notices of large scale releases of other microorganisms developed for significant new uses, and will review small-scale environmental releases. The primary objective of these actions is to ensure uses of microorganisms in the environment do not affect human health and the environment in unforeseen and possible harmful ways.

3016. PROPOSAL TO EXEMPT CERTAIN MICROORGANISMS FROM PMN REQUIREMENTS UNDER TSCA 5(H)(4)

Significance: Regulatory Program

Legal Authority: 15 USC 1504/TSCA 5

CFR Citation: 40 CFR 723

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act, the Agency will propose to exempt from review new microorganisms used in certain contained systems. The Agency considers it a priority to exempt from consideration organisms that can be shown to meet the statutory requirements under section 5(h)(4) of TSCA. To meet those requirements, it must be shown that the substances will not present unreasonable risks. EPA is considering public comment received and other evidence concerning use of microorganisms in closed systems and other controlled environments to determine whether those categories satisfy the requirements of section 5(h)(4) of TSCA.

3017. REGULATORY INVESTIGATION OF FORMALDEHYDE

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 765

Legal Deadline: Other, Judicial, October 30, 1989.
Court Ordered Deadline for Bi-Annual Progress Report every April and October.

Abstract: As described in the Federal Register on May 23, 1984, the Agency has been investigating regulatory options for reducing the exposure to formaldehyde of: (1) residents exposed to formaldehyde emissions from wood products used in the construction of manufactured homes; (2) similarly exposed residents of conventional homes; (3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. When OSHA proposed a revised workplace standard in December 1985 that applies to all occupational exposure, EPA terminated its investigation with respect to apparel manufacturing employees. Investigation of risks from exposure to formaldehyde emissions from wood products is being conducted in consultation with HUD and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

3020. MODIFICATION OF TOXIC RELEASE REPORTING UNDER SARA 313, TITLE III

Legal Authority: 42 USC 11013/SARA 0313

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: This action proposes to add ten chemicals to the list of toxic chemicals under Section 313 of SARA. The addition of nine of these substances is based on concerns for carcinogenicity and chronic toxicity as reflected in determinations made under Section 102 of the Comprehensive Environmental Response Compensation, and Liability Act of 1980 (CERCLA). EPA believes that these chemicals meet the criteria for addition to the list of toxic substances as established in Section 313(d)(2). EPA is also proposing a modification to include toluenediisocyanate (mixed isomers) on the same concern of health and environmental effects as the individual isomers already on the list.

3021. NEGOTIATED CONSENT/PROCEDURAL TEST RULE (REVISION)

Legal Authority: 15 USC 2603/TSCA 4

CFR Citation: 40 CFR 790

Legal Deadline: None

Abstract: This amends the test rule development and exemptions procedural rule published October 10, 1984 (49 FR 39776) which allowed for rulemaking to be conducted in a single phase (i.e., a proposed rule and a final rule covering both the effects for which testing is necessary and the testing methodology) and added consent orders as a means of obtaining test data required under Section 4 of TSCA. This rule will simplify the procedures governing the development and implementation of testing requirements under 2-phase rulemaking, and amend the current procedures governing modification of test standards and schedules for tests required under test rules and testing consent agreements.

Abstract: These rules add chemicals to the list of chemicals and designated mixtures subject to the requirements of the TSCA Section 8(a) Preliminary Assessment Information Rule (40 CFR Part 712). These chemicals are identified by OTS, other EPA offices, and other Agencies, as well as chemicals recommended by the Interagency Testing Committee (ITC) on the TSCA Section 4(e) priority list. Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. CFR Citation: 40 CFR 455

Legal Deadline: Final, Statutory, December 31, 1986.
Date contained in Water Quality Act of 1987

Abstract: On October 4, 1985 the EPA promulgated a final regulation establishing BAT effluent limitations, NSPS, PSES, and PSNS for the pesticide industry under the Clean Water Act. On July 25, 1986, the final regulation was remanded to the EPA by the Eleventh Circuit Court of Appeals in response to a joint motion filed by the Agency and other parties to litigation challenging the regulation. EPA removed the BAT effluent limitations, NSPS, PSNS, and PSES from the Code of Federal Regulations at the direction of the Court and informed the public that the regulation is no longer effective (December 15, 1986; 51 FR 44911). The BCT limitations published on April 25, 1978 and September 29, 1978, are still effective. The Agency intends to establish new effluent limitation guidelines and standards for the pesticide manufacturers and formulators/packagers industry in a future rulemaking. The Agency has decided to establish separate rulemaking tracks for the pesticide manufacturers and formulators/packagers because of significant differences between these two industries.

Legal Authority: 33 USC 1251 et seq /CWA 301

CFR Citation: 40 CFR 414

Legal Deadline: None

Abstract: EPA is proposing to amend 40 CFR 414 to allow regulatory authorities to establish cyanide limitations and standards based on best professional judgment for elevated levels of non-amenable cyanide that result from the unavoidable complexing of cyanide at the process source of cyanide- bearing waste streams. Another amendment proposes to allow regulatory authorities to establish metals limitations and standards to accommodate low background levels of metals in non-"metal-bearing waste streams" that result from corrosion of construction materials or from contamination of raw materials. EPA is also proposing to amend Appendices A and B to Part 414 to correct listing errors. The last amendment specifies the method for determining BOD5 and TSS effluent limitations for direct discharge plants with manufacture processes in more than one subcategory.

Abstract: In accordance with a settlement agreement, the Agency modified the Copper Forming regulation (40 CFR Part 468) to exclude the forming of beryllium copper alloys (copper that is alloyed to contain 0.1 percent or more beryllium) and to create a new subcategory in the regulation reserved for effluent guidelines and standards covering beryllium copper alloys. This rulemaking would establish guidelines and standards in that reserved subcategory.

3039. REVISIONS TO REGULATIONS FOR MODIFICATION OF SECONDARY TREATMENT REQUIREMENTS FOR MUNICIPAL DISCHARGE INTO MARINE WATERS

Legal Authority: 33 USC 1311(h)/CWA 301(h)

CFR Citation: 40 CFR 125

Legal Deadline: None

Abstract: The revisions to the regulations primarily are intended to respond to statutory changes made to sec. 301(h) of the Clean Water Act (33 USC 1311(h)), which governs secondary treatment waivers for municipal discharges into marine waters. The statutory changes to be addressed include, among other things, new requirements for minimum treatment levels and additional requirements for pretreatment programs for certain waiver applicants. In addition, the Agency is considering revising the regulations to address more specifically procedures and requirements for the renewal of secondary treatment waivers. The revised regulations will affect only the limited number of municipal treatment plants which met the 1982 statutory deadline for applying for a secondary treatment waiver.

Significance: Regulatory Program

Legal Authority: 33 USC 1401 et seq /MPRSA

CFR Citation: 40 CFR 228.12

Legal Deadline: None

Abstract: The Agency is taking action to de-designate certain ocean dumping sites. This action will take the form of two rulemaking actions: (1) to remove from the list of ocean dumping sites as published in the Code of Federal Regulations sites which are expired or which were terminated by previous rulemaking and (2) to de-designate ocean dumping sites which are no longer needed. None of the sites affected are being used. This action is necessary to assure that the list of ocean dumping sites accurately reflects earlier rulemaking and also to assure that unnecessary sites are removed from the list.

Abstract: EPA published a Federal Register notice on July 24, 1989 to re-open and extend the public comment period on a proposal to require a biennial submission of lists under sections 303(d) and 305(b) of the Clean Water Act (CWA). On January 12, 1989, in conjunction with regulations to implement Section 304(l) of the CWA, EPA proposed to require that the States submit as part of 305(b) reports, the lists of waters required by 303(d) of theq CWA. However, after reviewing public comments, EPA decided not to include this particular requirement in the final regulations for 304(l), which was published in the Federal Register on 8/2/89 (54 FR 23868). Instead, EPA decided to solicit additional comments on the proposal and consider promulgating these listing requirements at a later date, if appropriate. The proposed amendments require States to submit to EPA every two years the list of water quality-limited waters required under 303(d) of the CWA. The reporting vehicle for the list would be the States Biennial Water Quality Reports required by CWA 305(b). [SEE ADDITIONAL INFORMATION FOR COMPLETION OF ABSTRACT]

3058. GUIDELINES ESTABLISHING TEST PROCEDURES FOR THE ANALYSIS OF POLLUTANTS UNDER THE CLEAN WATER ACT

Legal Authority: 33 USC 1251 /CWA 301, 302, 304(h), 307, 501(a), and 502

CFR Citation: 40 CFR 136

Legal Deadline: None

Abstract: This rule will amend 40 CFR 136 by adding new measurements and new test procedures for the analysis of pollutants under section 304(h) of the Clean Water Act. This rule: adds Direct Current Plasma (DCP) atomic emission spectrometric method to the list of approved methods for certain metals; adds multi-laboratory validation data to three previously approved methods for metals; clarifies the interpretation of equivalency of methods approved under Part 136; and allows the option to use hydrochloric acid as a preservative for samples to be analyzed for oil and grease.

CFR Citation: 40 CFR 403

Legal Deadline: Final, Statutory, August 1987.

Abstract: The Agency will prepare final changes to the NPDES and General Pretreatment Regulations that address: toxicity testing by POTWs, specific discharge prohibitions; controls on spills and batch discharges; discharges by liquid waste haulers; industrial user notification requirements; control mechanisms for significant industrial users and local limits. These changes will be responsive to the recommendations of the Domestic Sewage Study submitted to Congress February 7, 1986 and are to improve the control of hazardous wastes and other toxic materials discharged through sewers to publicly-owned treatment works.

Legal Deadline: None

Abstract: On August 15, 1985, the Agency promulgated generally applicable environmental standards for the management and disposal of spent nuclear fuel, high-level and transuranic radioactive wastes. These Standards applied to management and disposal of such materials generated by activities under the jurisdiction of the Department of Energy or regulated by the Nuclear Regulatory Commission. They established limits for the release of radioactive materials to the environment. Subsequent to promulgation of this rule, several petitions for review were filed and consolidated in the U.S. Court of Appeals for the First Circuit. As of September 23, 1987 the Court vacated and remanded Subpart B of the Standards to the Agency for revision consistent with its ruling.

Abstract: Under 40 CFR 193, the Agency intends to set generally applicable standards for the management and disposal of low-level radioactive wastes under the purview of the Atomic Energy Act, as amended. The Agency is considering criteria for declaring certain wastes as below regulatory concern as part of this activity. Under 40 CFR 764, the Agency is proposing to regulate the disposal of certain naturally occuring and accelerator-produced radioactive wastes.

Abstract: These amendments to the UIC Program clarify the intent of the regulations covering authorization-by-rule requirements at 40 CFR Part 144, Subpart C. These new provisions will clarify how existing injection wells become authorized by rule and when injection is prohibited for failure to comply with authorization- by-rule requirements. EPA will also propose amendments to the noncompliance and program reporting requirements at 40 CFR 144.8; to the mechanical integrity requirements at 40 CFR 144.28(f) and 144.51(p). Finally, a new regulation will codify SDWA 1445(a)(1) as it applies to the UIC program.

Abstract: EPA is reproposing maximum contaminant level goals (MCLGs) and proposing National Primary Drinking Water Regulations (NPDWRs) for about 38 synthetic organic chemicals and inorganic chemicals. The NPDWRs consist of proposed maximum contaminants level (MCLs), as well as proposed monitoring, reporting, and public notification requirements for these contaminants. This action proposes the best available technology (BAT) upon which the MCLs are based and BAT for the purposes of issuing variances and exemptions to public water systems. In addition to the NPDWRs for the synthetic organic chemicals and inorganic chemicals, the notice proposes monitoring requirements for other synthetic organic chemicals which are not regulated by NPDWRs or proposed for regulation in this notice.

3081. ● STATE-ADMINISTERED UIC PROGRAMS; INCORPORATION BY REFERENCE UPDATE

Legal Authority: 42 USC 300 /SDWA 1451

CFR Citation: 40 CFR 147

Legal Deadline: None

Abstract: The Safe Drinking Water Act requires EPA to promulgate regulations specifying minimum requirements for State Underground Injection control programs to prevent injections through wells which may endanger drinking water sources. The individual State-administered programs (primacy) are codified in 40 CFR 147 and that Part incorporates by reference and makes applicable requirements from the appropriate State regulations. The incorporation by reference material has not been updated since 1984. Any Federal enforcement action in a primacy State will be based on the codified Part 147 material no matter what is actually in place at the time. Thus, for any enforcement action to be effective, the State statutes which are incorporated by reference must be up-to-date. Without this action, any Federal enforcement action could be ineffective. There is no impact on the economy, costs, or prices, and no public health or intermedia issues, or adverse consequences on the public. The only alternative given the present codification (cont)

3084. DETERMINATION ON WASTES FROM COMBUSTION OF COAL BY ELECTRIC UTILITY POWER PLANTS

Significance: Regulatory Program

Legal Authority: 42 USC 6921 /RCRA 3001; 42 USC 6982 /RCRA 8002

CFR Citation: 40 CFR Not yet determined

Legal Deadline: NPRM, Statutory, September 1988.

Abstract: EPA conducted a study of fly ash waste, bottom ash waste, slag waste, flue gas emission control waste and other wastes generated by the combustion of coal by electric utility power plants. The study was in response to Section 8002(n) of RCRA and culminated in a Report to Congress on March 8, 1988. EPA must determine within six months after submitting the report, holding public hearings, and allowing for public comment whether to regulate any of these wastes under Subtitle C of RCRA.

3085. OIL POLLUTION PREVENTION REGULATION

Significance: Agency Priority

Legal Authority: 33 USC 1321 /CWA 311(j)(1)(c)

CFR Citation: 40 CFR 112

Legal Deadline: None

Abstract: Following a major oil spill with substantial environmental impacts, an interagency task force reviewed the adequacy of regulations concerning the prevention and control of oil spills. The task force recommended a significant upgrade to the Oil Pollution Prevention Regulation and an inventory of the regulated community. A two-phased regulatory approach is being pursued. In Phase I, the regulation will be clarified to indicate that widely accepted industry practices that are currently treated as recommended practices henceforth will be considered as required practices. The Phase II regulatory effort will address other recommended modifications.

CFR Citation: 40 CFR 268

Legal Deadline: None

Abstract: The Agency will propose a regulation that interprets the statutory requirements for making a "no-migration" demonstration that would allow the land disposal of untreated hazardous waste that has been restricted from land disposal under 40 CFR 268. The regulation will define such terms as "no-migration," "reasonable degree of certainty," "hazardous constituent," and various pathways by which waste can migrate and the environmental media of concern.

3090. EXCLUSIONS FOR WASTE GENERATED ON-BOARD SHIPS (REVISION)

Legal Authority: 42 USC 6921 /RCRA 3001; 42 USC 6922 /RCRA 3002

CFR Citation: 40 CFR 261.4(c)

Legal Deadline: None

Abstract: This proposed rule would amend an exemption in 40 CFR 261.4(c) which is currently limited to product or raw material vessels, so that it will apply to all vessels. The result of this change would be that all vessel operators, both product and non-product, would be regulated the same. In both cases, hazardous wastes generated on-board ships would not be subject to the RCRA regulations for storage, manifesting, etc., until the waste is removed from the ship. The discharge of any wastes while underway is governed by regulations issued under the provision of the Clean Water Act, Rivers and Harbors Act, Refuse Act, CERCLA/SARA, and others.

Abstract: This amendment will require those who submit delisting petitions for hazardous wastes to provide ground water monitoring data as part of their petition. The amended regulations will clarify the Agency's existing authority to consider the impact of a petitioned waste on groundwater and deny a petition based on groundwater contamination. EPA is seeking this amendment to clarify its authority to request and consider such data in delisting decisions.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925/RCRA 3005

CFR Citation: 40 CFR 266

Legal Deadline: None

Abstract: Burning of hazardous waste in boilers and industrial furnaces for the purpose of heat recovery or material recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. This regulation will establish standards for controlling emissions of organic compounds, metals, and hydrogen chloride from boilers and industrial furnaces that burn hazardous waste for any purpose, including energy recovery, material recovery, or destruction.

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 260; 40 CFR 270; 40 CFR 271

Legal Deadline: NPRM, Statutory, May 8, 1987.

Abstract: EPA has proposed these regulations under the authority of section 3004(a) and 3004(o)(4) of the Resource Conservation and Recovery Act. The regulations would require: 1) new landfills, surface impoundments, waste piles, and land treatment units for the treatment, storage, or disposal of hazardous wastes to utilize an approved leak detection system; 2) double liners and leachate collection systems for waste piles, and certain landfills and surface impoundments; and 3) development of a construction quality assurance program for certain landfills and surface impoundments, as well as final covers at land treatment units. EPA originally proposed this rule on May 29, 1987 (52 FR 20218); the Agency may repropose the double liner sections of the rule.

CFR Citation: 40 CFR 260; 40 CFR 264; 40 CFR 265; 40 CFR 270

Legal Deadline: None

Abstract: Section 3004(o)(7) of RCRA authorizes EPA to promulgate standards for the location of hazardous waste treatment, storage, and disposal facilities. Two existing location standards (floodplain and seismic restrictions) at 40 CFR Part 264.18 will be amended based on new data and information. Additional standards will specify other criteria for the acceptable location of new, expanding, and existing treatment, storage and disposal facilities in a variety of sensitive environments (e.g., unstable terrains, wetlands). The Agency's goals are to enhance the effectiveness of a unit's design and operating controls by avoiding the most sensitive locations, to decrease cleanup and prospective future RCRA Corrective Action and superfund sites, and to more effectively ensure long-term protection of human health and the environment.

Abstract: These regulations set forth the technical and procedural requirements for conducting corrective action to clean up significant releases to air, surface water, ground water and soil at solid waste management units (SWMUs) at operating, closed, or closing RCRA facilities. The regulations will be used to define the structure of the program, and the requirements for implementing remedial action, remedy selection and corrective measures. Abstract: These regulations will provide alternate closure options for EPA and authorized states to establish closure and post-closure requirements on a site-specific basis. The regulations address waste and site characteristics, potential pathways of hazardous constituent migration, and health effects. These rules allow for cover systems to be designed base on unique site and waste characteristics. Abstract: The Agency is investigating the need to set separate treatment standards for soil and debris containing hazardous wastes. By statute, these wastes do not become subject to the Land Disposal Restrictions Rule (51 FR 40572 and 52 FR 25760) for Solvents and Dioxins (RCRA 3004(e)) and the California List (RCRA 3004(d)) until 11/8/88. Abstract: Currently, wastewater treatment units and elementary neutralization units are exempt from the requirements in 40 CFR Parts 264, and 265 (see 45 FR 76074, November 17, 1980). This action will amend the regulations to explain more clearly that thermal treatment units, except sludge dryers, are not exempt from regulation under the "wastewater treatment unit exclusion." It was never EPA's intention that thermal treatment units be exempt from regulation. Rather, specific regulations have been developed for these devices.

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA3004

CFR Citation: 40 CFR 260

Abstract: The Agency is receiving information on an increasing number of situations where it is difficult to determine whether specific types of hazardous waste management units meet the definition of a tan, pile or surface impoundment. EPA intends to clarify the difference between these units by revising the definitions for these units in 40 CFR 260.1. In particular EPA expects to address the use of liners for primary containment as well as other issues relating to the use of "earthen" and "nonearthen" materials.

Absolute prohibition on land disposal waste of any kind for which EPA has not established a treatment standard takes effect on 5/8/90.

Abstract: This rule will establish land disposal restrictions for the Third Third of scheduled hazardous waste and promulgate treatment standards for these waste streams as required by sections 3004(g) and 3004(m) of RCRA. The schedule was published on May 6, 1986 (51FR19300).

3107. HAZARDOUS WASTE SUMP REQUIREMENTS IN RESPONSE TO RULEMAKING PETITION (REVISION)

Legal Authority: 42 USC 6905; 42 USC 6912; 42 USC 6921; 42 USC 6974; 42 USC 6924; 42 USC 6925

CFR Citation: 40 CFR 260; 40 CFR 264; 40 CFR 265

Legal Deadline: None

Abstract: This regulation will address a petition for rulemaking submitted by the Boeing Company, requesting that EPA amend several hazardous waste tank system requirements as applied to certain existing sumps. A sump, being a type of tank, if used to manage a hazardous waste storage/treatment tank system. The petition focuses on those existing sumps that are situated inside of buildings and constructed as an integral part of the building's floor or foundation. The petitioner argues that because of differences in design, construction, and use, these sumps should be regulated independently of other hazardous waste storage/ treatment tank systems. Companies are requesting additional time to bring these sumps into compliance with the hazardous waste tank system standards.

Significance: Regulatory Program

Legal Authority: 42 USC 3251 / RCRA 3004

CFR Citation: 40 CFR 264; 40 CFR 270

Legal Deadline: None

Abstract: The Appendix IX of 40 CFR Part 264 is a list of hazardous constituents presently referenced in 40 CFR Part 264 for use in ground water monitoring. This proposed amendment would make minor revisions to Appendix IX and create a new list for the first part (Detection Monitoring) of the ground water monitoring program. This proposal would also include a more detailed discussion of the appropriate monitoring techniques than currently exists in the regulations.

Legal Authority: 42 USC 6991 /RCRA 9003

CFR Citation: 40 CFR 280

Legal Deadline: Final, Statutory, August 8, 1988.

Abstract: This regulation will establish, under Subtitle I of RCRA (as amended by SARA), requirements for demonstrating financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by releases from underground storage tanks (USTs) containing hazardous substances. An ANPRM was published to help gather data (e.g., frequency of releases from such USTs, costs of corrective action and third-party damages, and the regulated community's financial condition and use of financial assurance mechanisms) needed for the development of a proposed rule.

Legal Authority: 42 USC 6991(b)/RCRA 9003(b)

CFR Citation: 40 CFR 280.20(c)

Abstract: This action adds a provision to the overfill prevention equipment requirements that provides a performance standard alternative to the two design choices already in the final Underground Storage Tanks (UST) regulations. This clarifies EPA's interpretation of the "other alternatives allowed" provision in the final UST regulations. The added flexibility of meeting a performance standard will more clearly enable UST system owners and operators to use overfill prevention equipment in a manner that is more flexible as long as it is protective of human health and the environment.

CFR Citation: 40 CFR 259

Legal Deadline: Other, Statutory, May 30, 1989.
The legal deadline prescribed is for an interim final by May 1989.

Abstract: Because of the numerous incidents of public exposure to improperly disposed medical waste Congress passed the Medical Waste Tracking Act of 1988. The Act requires EPA to develop a demonstration tracking program for medical waste in 10 States. The demonstration program sets forth segregation, packaging, labeling, tracking, transportation, and recordkeeping requirements of medical waste generated in the covered States, and lists the wastes to be covered by the program. The emphasis of the tracking program is to assure the generator that the waste is delivered to a proper disposal facility. States participating in the program include New York, New Jersey, Connecticut (effective 6/22/89), Rhode Island, and Puerto Rico (effective 7/24/89).

Abstract: The Hazardous and Solid Waste Amendments of 1984 (HSWA) require EPA, by March 31, 1988, to revise the subtitle D criteria for facilities that may receive hazardous household wastes or hazardous wastes from small quantity generators. In response to this statutory mandate, EPA is revising the subtitle D criteria for municipal landfills. At a minimum these criteria should include ground-water monitoring requirements, location standards, and corrective action requirements as appropriate.

Abstract: EPA is presently developing a list of "high-volume, low- hazard" ore processing wastes for study under Section 8002(p) of RCRA, in response to an opinion of the U.S. Court of Appeals for the D.C. Circuit (EDF v. EPA, 852 F.2d 1316 (D.C. Cir. 1988). EPA will then conduct a Section 8002 study of those processing wastes excluded from Subtitle C regulation by the "Bevill Amendment" 3001(b)(3)(A) RCRA. The study will culminate in a Report to Congress in July 1990. RCRA Section 3001(b)(3) requires the Agency, after public hearing and public comment, to determine within six months of submitting the report, whether to regulate any of these wastes under RCRA Subtitle C.

CFR Citation: 40 CFR 260; 40 CFR 261

Legal Deadline: None

Abstract: This rule promulgates 47 new analytical methods approved for RCRA Subtitle C hazardous waste testing that were originally proposed in 1984. The purpose of this rulemaking is to provide better and more complete test methods for RCRA-related testing. These 47 methods may be used to meet regulatory requirements in conjunction with, or in addition to, the methods found in the Second Edition of SW-846, as amended by Updates I and II. Except where regulations specifically require the use of certain SW-846 test methods or QC procedures, the SW-846 manual is a guidance document and is not mandatory. These 47 methods offer the regulated community in some cases refinements of existing methods that are usually used, and in other cases, new technologies that provide alternative methods to those now available for the analysis of certain analytes or parameters. Therefore, the Agency believes that the economic impact of this rule on the regulatory community will be minimal to none.

3126. AMENDMENT TO THE FO19 HAZARDOUS WASTE LISTING TO EXCLUDE WASTEWATER TREATMENT SLUDGES FROM ZIRCONIUM PHOSPHATING IN THE ALUMINUM CAN WASHING PROCESS

Legal Authority: 42 USC 6905; 42 USC 6912(a); 42 USC 6921; 42 USC 6922

CFR Citation: 40 CFR 261; 40 CFR 262; 40 CFR 263; 40 CFR 264; 40 CFR 265; 40 CFR 268; 40 CFR 270; 40 CFR 271; 40 CFR 302

Legal Deadline: None

Abstract: This rule will modify the hazardous waste listing F019, wastewater treatment sludges from the chemical conversion coating of aluminum, (40 CFR 261.31). The modification will narrow the scope of the F019 listing to exclude the zirconium phosphating of aluminum cans process because it does not use or form any Appendix VIII constituents in hazardous concentrations. There are approximately 80 facilities employing this process, which is currently within the scope of the F019 listing. This modification to F019 will not exclude facilities engaged in other types of chemical conversion coating of aluminum.

Abstract: The Agency has proposed these regulations under the Hazardous and Solid Waste Amendment of 1984. The regulation will 1) minimize the placement of containers holding liquid hazardous waste and free liquids in hazardous waste landfills, 2) minimize the presence of free liquids in containers holding hazardous waste to be disposed of in landfills and 3) prohibit the use of absorbents that biodegrade or release liquids when compressed.

Abstract: This action will change the Subpart F ground-water monitoring regulations. The following is a summary of the major changes: - allow use of site-specific data on contaminant fate and transport for groundwater monitoring variances; - allow flexibility in well installation requirements when access to waste management boundary is difficult; - clarify the definition of waste management area and provide flexibility in determining the appropriate monitoring or response programs for individual areas; - allow flexibility in schedules for submittal of information upon approval by the Regional Administrator (RA); - base the requirement for ground-water flow rate & direction determinations upon site-specific fluctuations in water levels; - clarify the RA's authority to require monitoring of any flow pathway in the uppermost aquifer and unsaturated zone; - clarify the Regional Administrator's authority to designate supplemental monitoring wells when justified by complicated monitoring situations; and (see additional information for completion of abstract)

Legal Deadline: Final, Statutory, November 1988.

Abstract: This rule establishes minimum technology requirements (e.g., double liners and leachate collection systems) for new hazardous waste landfills and surface impoundments, as well as lateral expansions and replacements to existing landfills and surface impoundments. This rule will establish standards for these systems enabling unit owners and operators to design and construct systems that will protect human health and the environment.

Abstract: This action responds to a petition submitted to EPA by the Hazardous Waste Treatment Council (HWTC). It will establish state-wide permitting procedures for mobile hazardous waste treatment units, and will modify hazardous waste delisting procedures so that hazardous waste treatment residues could be delisted as part of the permitting process. In addition, the petition response solicited comment on HWTC's request that EPA exempt certain treatment technologies from the requirements for hazardous waste management.

Abstract: The CAA requires that testing protocols be developed to address at a minimum, the possible carcinogenic, mutagenic, and teratogenic effects of fuels and fuel additives as well as their effect on emissions and emission control devices. This action would implement protocols for such testing, which would have to be performed prior to fuel or additive registration, and or in the case already registered fuels, within three years of the date on which the protocols are promulgated. Fuels and additives already registered or for sale would also have to undergo testing testing, as provided for by the CAA.

Abstract: EPA is reassessing health and welfare information which has become available since the last revision of the standard. In May 1989 EPA received closure on the scientific and technical adequacy of the ozone staff paper. In order to retain a unified regulatory review package in light of the emerging data base on health and welfare effects associated with longer-term averaging times, EPA is continuing the standard review until such information is published and a decision made on the appropriate standards choice. The major issue is whether the new information will indicate that new standards with longer term averaging times are required to protect public health and welfare or whether adequate protection is afforded by the current form and averaging time of the standard.

Abstract: On July 1, 1987, EPA issued an ANPRM soliciting public comment on the development of a new secondary (welfare-based) NAAQS for fine particles (those particles less than 2.5 micrometers in aerodynamic diameter). This action represents a continuation of the review process for the secondary standards for particulate matter discussed by the Agency on March 20, 1984 (49 FR 10408). The principal welfare effect to be addressed by such a standard is impairment of visibility. Once a decision on whether and how to proceed is reached, a schedule for further action will be developed.

3151. FEDERAL PROMULGATION OF STATE IMPLEMENTATION PLAN TO PROTECT VISIBILITY

Significance: Regulatory Program

Legal Authority: 42 USC 7410 /CAA 110; 42 USC 7491 /CAA 169A

CFR Citation: 40 CFR 52

Legal Deadline: NPRM, Judicial. (See Timetable)

Abstract: Section 169A of the CAA requires that State Implementation Plans (SIPs) contain provisions to remedy existing and prevent future visibility impairment in certain national parks and wilderness areas. In 1980, EPA promulgated guideline regulations for States to follow in developing their SIP revisions (40 CFR 51.300-307). Many States failed to submit adequate visibility SIPs and EPA was sued to force the Agency to promulgate SIPs for such States. EPA entered into a consent decree under which it agreed to promulgate SIPs implementing the requirements of the visibility regulations in States that have not submitted adequate SIPs. This activity was divided into four parts, the first and third of which have been completed. Part IV is being proposed and promulgated according to the schedule shown under timetable.

3152. NEW SOURCE REVIEW REQUIREMENTS – CMA EXHIBIT B

Legal Authority: 42 USC 7410 /CAA 110

CFR Citation: 40 CFR 51; 40 CFR 52

Legal Deadline: None

Abstract: This action would revise EPA's new source requirements for new major stationary sources in PSD and nonattainment areas. EPA is taking this action to implement a settlement agreement with Chemical Manufacturer's Association (CMA) and other parties who challenged the regulation amendments promulgated on August 7, 1980. This action covers the issues in Exhibit B of the agreement.

Legal Authority: 42 USC 7411 / CAA 111

CFR Citation: 40 CFR 60

Legal Deadline: NPRM, Judicial, November 30, 1989. Final, Judicial, December 31, 1990.

Abstract: The EPA has completed a preliminary assessment of air emissions from municipal waste combustors (MWC). Based on this assessment, EPA has concluded that MWC emissions may reasonably be anticipated to contribute to the endangerment of public health and welfare. As a result, EPA issued a notice in the Federal Register (52 FR 25399) that announces its intent to regulate emissions from new and modified MWC under Section 111(b). Pollutants to be regulated will include one or more designated pollutants (pollutants not regulated under Sections 108-110 or 112) thus invoking Section 111(d) which will require States to develop additional emissions standards for existing MWC based on EPA guidelines.

3157. NESHAP: COKE OVEN EMISSIONS FROM COKE OVEN CHARGING, DOOR LEAKS, AND TOPSIDE LEAKS ON WET-COAL-CHARGED BATTERIES

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: NPRM, Statutory, March 1985.

Abstract: This regulation would control emissions of coke oven emissions, which have been designated as hazardous under section 112. It would require improved maintenance and operation to limit visible emissions from wet-coal-charged coke oven batteries. The standards may apply to charging and leaks from doors, lids, or offtakes for all existing or new sources. A supplemental proposal will be published to reevaluate the standard consistent with the court decision on vinyl chloride. Abstract: EPA issued a notice of intent to list total chromium or hexavalent chromium under Section 112 (50 FR 24317). EPA is further assessing the public health risks of chromium compounds. Also, EPA is investigating emissions of chromium and techniques that are available to control the emissions from 11 identified source categories. If EPA decides that emission standards are warranted, chromium or hexavalent chromium will be listed under Section 112, and EPA will propose standards. Abstract: EPA issued a notice of intent to list total chromium or hexavalent chromium under Section 112 (50 FR 24137). EPA is further assessing the public health risks of chromium compounds. Preliminary assessment performed by EPA has identified industrial process cooling towers as a source category for which the proposal of national emission standards may be warranted. If EPA decides, based on these investigations, that emissions standards are warranted, chromium or hexavalent chromium will be listed under Section 112 and EPA will propose standards. Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: EPA issued a notice of intent to list chromium or hexavalent chromium under Section 112 (50 FR 24317). EPA is further assessing the public health risks of chromium compounds. A preliminary assessment performed by EPA has identified chromium electroplating as a source category which emits significant quantities of chromium to the atmosphere and for which the proposal of national emission standards may be warranted. If EPA decides, based on these investigations, that emission standards are warranted, chromium or hexavalent chromium will be listed under Section 112, and standards will be proposed. However, the schedule has been delayed pending a decision on how to respond to the court decision on the Vinyl Chloride NESHAP (see Benzene Reconsideration).

Significance: Regulatory Program

Legal Authority: 42 USC 7412/CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: This potential regulation would control emissions of 1,3-butadiene, ethylene oxide, ethylene dichloride, chloroform, carbon tetrachloride, perchloroethylene, trichloroethylene, and methylene chloride, as hazardous pollutants under Section 112. The potential regulation would cover the production categories and some use categories for these eight pollutants. It would require installation of combustion devices to control process vents and an inspection and monitoring program to control leaks from pumps and valves. Significance: Regulatory Program

Legal Authority: 42 USC 7476/CAA 166

CFR Citation: 40 CFR 52.21; 40 CFR 51.166

Legal Deadline: Final, Statutory, July 1, 1989.

Abstract: The purpose of this action is to prevent significant deterioration of air quality as measured by the new indicator for particulate matter, PM10. The existing PSD program has particulate matter increments based on the original TSP indicator. The EPA has now promulgated a PM10 NAAQS to replace the original TSP-based particulate matter NAAQS. Therefore, EPA is preparing to revise the PSD program by promulgating PM10 increments in accordance with section 166 of the Clean Air Act.

Significance: Agency Priority

Legal Authority: 42 USC 7521 /CAA 201; 42 USC 7525 /CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: In conjunction with testing in support of EPA's regulatory effort to control motor vehicle reeling emissions, EPA determined that significant evaporative hydrocarbon emissions can occur when a motor vehicle is running. Such emissions are defined by EPA as "running losses." Testing has shown that running losses can be particularly high on hot summer days which are also conducive to ozone formation. Through this action, EPA will evaluate revisions to the motor vehicle test procedures for evaporative hydrocarbons in order to reduce running losses.

Legal Authority: 42 USC 7521 /CAA 201; 42 USC 7525 /CAA 208; 42 USC 7526 /CAA 207

CFR Citation: 40 CFR 86

Abstract: EPA will evaluate the imposition of requirements for passenger cars and light trucks for on-board vehicle diagnostic systems capable of detecting operational malfunctions within the emissions control system. Emission system failures often go undetected or are misdiagnosed resulting in excess emissions of carbon monoxide, hydrocarbons, and oxides of nitrogen. On-board diagnostic systems, which are required in the California vehicle emissions program beginning with the 1988 model year, have the potential for improving air quality through the early detection and proper repair of emission system failures. This regulatory effort will be structured to compliment existing and future State and local inspection and maintenance programs.

Significance: Agency Priority

Legal Authority: 42 USC 7521 /CAA 202

Abstract: EPA's current carbon monoxide (CO) emission standards are applicable to the 68 degree to 86 degree farenheit temperature range of the current Federal Test Procedure. 3172. REVISIONS TO THE STACK HEIGHT REGULATION

Legal Authority: 42 USC 7423/CAA 123

CFR Citation: 40 CFR 51.100

Legal Deadline: None

Abstract: Under the Clean Air Act, emission limitations for sources are generally determined on the basis of local, ground-level concentrations of pollutants. In the absence of laws and/or regulations prohibiting such action, a source can lower the local ground-level ambient pollutant concentrations not only by reducing the amount of pollutants it emits into the air, but also by raising the physical height of its stack or using other dispersion techniques. Section 123, which was added to the CAA by the 1977 Amendments, restricts the manner in which techniques for dispersion of pollutants from a source may be considered in setting emission limitations. The EPA promulgated the current stack height regulation on July 8, 1985. On January 22, 1988, the U.S. Court of Appeals for the D.C. Circuit upheld EPA's regulation except for three provisions which were remanded to the Agency for proceedings consistent with the court's opinion. The purpose of this action is to revise the stack height regulation in accordance with the January 22, 1988 court decision.

The court remanded two grandfathering provisions which allow dispersion credit, including credit for certain stack height increases. The decision also remanded the allowance of dispersion credit for sources with originally designed and constructed merged stacks. The court concluded that exclusion of these groups of sources from the regulation's restrictions was not adequately supported. The EPA is analyzing the court decision to determine whether further support should be offered for the current provisions or whether to revise the regulation to limit or delete these exclusionary provisions. The Agency's regulatory decisions and any rule revisions will be proposed for public comment in the Federal Register before taking final action.

3173. TEST PROCEDURES FOR TRAP-EQUIPPED DIESEL VEHICLES AND ENGINES

Legal Authority: 42 USC 7525 / CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: The particulate standards for 1991 and later model year heavy-duty diesel engines may require the use of trap-oxidizers for some vehicles and engines. The existing test procedures do not expressly describe how to deal with emissions and fuel economy effects during trap regeneration. If it turns out that trap oxidizers are necessary to comply with the 1991 particulate standards, the Agency will develop an appropriate test procedure.

Legal Authority: 42 USC 7524 /CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will address the availability of nonconformance penalties (NCPs) and specific upper limits and penalty rates for 1991 through 1994 model year emission standards for heavy-duty vehicles and engines. The availability of NCPs will allow a manufacturer, whose vehicles or engines fail to conform with certain applicable emission standards, but which do not exceed a designated upper limit, to be issued a certificate of conformity upon payment of a monetary penalty. This rule is the third phase of NCP rulemaking. The first, published August 30, 1985, established generic aspects of NCPs. The second, published December 31, 1985, addressed NCPs applicable to 1987 through 1990 model years.

3175. DIESEL FUEL QUALITY STANDARDS

Significance: Regulatory Program

Legal Authority: 42 USC 7545 / CAA 211

CFR Citation: 40 CFR 79; 40 CFR 80

Abstract: Trap oxidizers, the use of which may be required to meet future heavy-duty diesel particulate standards, may require the use of low sulfur diesel fuels. In promulgating the particulate standard, EPA promised to examine the potential need for low-sulfur fuel. In particular, fuel sulfur and aromatics content have been shown to have a direct effect on particulate emissions. This action will consider the costs and benefits of improving diesel fuel quality.

Abstract: The purpose of this action is to establish regulations under sections 211(c) and 211(f) of the CAA for the enforcement of prohibitions against certain fuel and fuel additives not complying with CAA requirements. The regulations will also formalize the procedures for reviewing applications from manufacturers of fuel and fuel additives for waivers of the provisions of paragraphs (1), (2), and (3) of section 211(f), which the Agency may grant pursuant to section 211(f)(4).

3178. TREATMENT, STORAGE, AND DISPOSAL FACILITY AREA SOURCE AIR EMISSIONS - RCRA STANDARDS

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA 3004, 3007

CFR Citation: 40 CFR 264, Subparts I to N

Legal Deadline: None

Abstract: The purpose of this action is to investigate the health impact of non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Area sources include surface impoundments, landfills, waste piles, land treatment operations and waste water treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment. The Agency has adopted a three-phase approach, with Phase I concerning organic emission leaks and vents, Phase II concerns hazardous waste storage tanks and impoundments, and Phase III deals with residual risks from particular hazardous organic constituents.

Significance: Agency Priority

Legal Authority: PL 100-202

CFR Citation: 40 CFR 81

Legal Deadline: NPRM, Statutory, August 31, 1988.

Abstract: On June 6, 1988 (53 FR 20722), the EPA, as directed by the Mitchell-Conte Amendment of December 22, 1987 (contained in the continuing resolution of 1987, Pub. L. 100-202), proposed to designate as nonattainment under the CAA those areas throughout the nation that have not attained the NAAQS for either ozone or carbon monoxide (CO). EPA proposed to designate as nonattainment some areas currently codified under the Clean Air Act as attainment or unclassified, and to renew the designations for areas currently codified under the Clean Air Act as nonattainment The notice also proposed for public comment 3 interpretations of the regulatory consequences of these nonattainment designations under the Mitchell-Conte amendment.

Legal Deadline: Final, Judicial, November 16, 1989.

Abstract: The various EPA regulations that govern new construction under the CAA generally apply to "major" new stationary sources of air pollution and "major" modifications of existing sources. They require fugitive emissions to be included in threshold applicability determinations of whether a new source is "major," but only for 30 categories of sources. The purpose of this action is to determine if surface coal mines should be added to the existing list of 30 categories. A companion action will respond to a petition on the more general issue of including fugitive emissions in NSR applicability determinations.

Significance: Regulatory Program

Legal Authority: 42 USC 7401 et seq/CAA

CFR Citation: 40 CFR Not applicable

Abstract: The EPA is developing a program to address the fact that many areas in the country have not attained the national ambient air quality standards (NAAQS) for ozone and carbon monoxide (CO) by December 31, 1987, the latest date for attainment expressly identified in the Clean Air Act. This notice describes EPA's views about how EPA should interpret the Act so as to bring those areas into attainment, the reasons for that interpretation, and the concrete steps EPA intends to take to implement that interpretation soon and in the long term. The final policy will be an advance notice of how EPA intends, in subsequent rulemakings, to judge the adequacy of State efforts to plan for attainment of the ozone and CO standards.

Abstract: EPA issued a notice of intent to list total chromium or hexavalent chromium under Section 112 (50 FR 24317). EPA is further assessing the public health risks of chromium compounds and investigating emissions of chromium and techniques that are available to control the emissions from identified source categories. Emissions from cooling towers using chromium chemicals in the recirculating water are predominantly hexavalent. EPA analysis has indicated that emissions standards are warranted, and standards have been proposed under Section 6 of TSCA.

Significance: Regulatory Program

Legal Authority: 42 USC 7401 /et. seq CAA

CFR Citation: 40 CFR 50; 40 CFR 52

Legal Deadline: None

Abstract: Since 1977, EPA has allowed States with rural fugitive dust areas (RFDAs) to discount fugitive dust in developing and enforcing a State Implementation Plan(SIP) for attainment and maintenance of the NAAQS for particulate matter (PM). On July 1, 1987, EPA promulgated revisions to its particulate matter National Ambient Air Quality Standards (NAAQS), 52 FR 24634. In this notice, EPA also solicited comments on alternatives for SIP requirements for RFDAs and on the adequacy of the definitions which are used in identifying RFDAs, and the importance of protecting annual versus 24-hour NAAQS (52 FR 24716). The EPA will issue its decision after considering public comments on the alternatives. The EPA will continue its existing fugitive policy and apply it to implementation of the revised particulate standard until a decision is made.

Abstract: In-use motor vehicle evaporative hydrocarbon emissions greatly exceed their applicable EPA emissions standards. A major reason is that the volatility of commercial gasoline is substantially greater than that of the certification test fuel specified by EPA. On March 22, EPA promulgated a rule limiting the summertime volatility of gasoline. EPA will continue to assess whether additional control of gasoline volatility is cost-effective and reasonable.

3197. TRADING AND BANKING OF HEAVY-DUTY ENGINE NOX AND PM EMISSION CREDITS

Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: In March 1985 the EPA promulgated NOx and PM emission standards for heavy-duty vehicles and engines. The rulemaking included a provision for emissions averaging for the final stages of standard implementation in order to mitigate the economic impact of the stringent standards. EPA realized that the averaging mechanism could provide more benefits to manufacturers with a broader product line. In order to address this issue, EPA included in the final package a provision to study the potential for mitigating this uneven distribution of benefits through an emissions credit trading program. The study was expanded to include the concept of 'banking' emissions credits. The study was completed and the Agency made it available to the public and a technical workshop was held in January 1987. EPA proposed a comprehensive trading and junking program for heavy-duty engines in May 1989.

3198. SMALL-VOLUME MANUFACTURERS CERTIFICATION PROCEDURE (REVISION)

Legal Authority: 42 USC 7525 / CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This rule revises the regulations governing small-volume manufactured and small-volume engine family certification procedures. The revisions are intended to increase EPA's confidence in the useful life emissions compliance of vehicles and engines certified under the small-volume certification procedures. The revisions incorporate procedures to which many manufacturers currently adhere to and thus are designed to ensure that small volume manufacturers will also comply with these procedures. No significant impact on industry is expected.

Legal Authority: 42 USC 7541 (b) / CAA 207 (B)

CFR Citation: 40 CFR 85

3200. MOTOR VEHICLE EMISSIONS PERFORMANCE WARRANTY SHORT TESTS

Legal Authority: 42 USC 7541 /CAA 207

CFR Citation: 40 CFR 85

Legal Deadline: None

Abstract: This action will consider allowing alternative dynamometer specifications for an existing loaded-mode short test approved for use in State and local inspection/maintenance programs in conjunction with the federal emissions performance warranty regulations. The alternative specifications the Agency is considering would allow lower loading, perhaps varying by engine size. Such a change could improve overall test effectiveness for identifying excess in-use emissions and correlation with the Federal Test Procedure.

3209. ● COMPREHENSIVE ENVIRONMENTAL RESPONSE COMPENSATION AND LIABILITY ACT (CERCLA) COST RECOVERY

Significance: Agency Priority

Legal Authority: 42 USC 9604 /CERCLA 104; 42 USC 9606/CERCLA 106; 42 USC 9607/CERCLA 107; 42 USC 9613/CERCLA 113; 42 USC 9622/CERCLA 122

CFR Citation: 40 CFR 305

Legal Deadline: None

Abstract: EPA is granted the authority, under CERCLA, to hold potentially responsible parties liable for the cost of cleanup. Consequently it is Agency policy to pursue those potentially responsible parties for costs expended if a cleanup settlement is not reached. As courts gradually resolve the fundamental question of CERCLA liability, PRPs have increasingly focused on the tactic of investigating the documentation supporting EPA's cost recovery program. Rulemaking can be used to identify the specific recoverable costs, the documentation sufficient to prove EPA's case, and the documents that will be available to PRPs. The cost recovery regulation should make the process more efficient. The regulation will at least address the following issues: Direct Costs, Indirect Costs, Recovery of Interest, and Oversight Costs. The selection of alternatives will be influenced primarily by Agency experience. Through consensus building with the work group, positions will be prepared for proposal.

Legal Authority: 42 USC 9605(a)(8)(B) /CERCLA 105(a)(8)(B); 42 USC 9620(d)(2) /CERCLA 120(d)(2)

CFR Citation: 40 CFR 300.66

Legal Deadline: None

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous waste sites in the National Contingency lan (NCP). CERCLA requires that the Agency revise the NPL at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. Significance: Regulatory Program

Legal Authority: 42 USC 9602 /CERCLA 102

CFR Citation: 40 CFR 302

Legal Deadline: None

Abstract: This rule will designate 232 non-CERCLA extremely hazardous substances (EHS), as defined in Section 302 of SARA Title III, as hazardous substances pursuant to Section 102 of CERCLA. Currently, only releases of those EHSs that are also CERCLA hazardous substances are required to be reported to the National Response Center under CERCLA Section 103. Upon designation, potential confusion concerning the different SARA Title III and CERCLA requirements will be reduced by ensuring consistent procedures for reporting releases of all EHSs.

CFR Citation: 40 CFR 300.440

Legal Deadline: None

Abstract: This rule interprets and codifies (1) the requirements of Section 121(d)(3) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) and (2) the revised off-site policy directive (November 13, 1987). Section 121(d)(3) and the directive describe procedures that must be observed when a response action funded under CERCLA or using a CERCLA authority involves off-site transfer of CERCLA wastes. Section 121(d)(3) CERCLA specifies that wastes from removal or remedial actions under CERCLA: 1) only be transferred to facilities that are in compliance with Sections 3004 and 3005 of the Resource Conservation and Recovery Act (RCRA), other applicable Federal laws and State laws, and 2) only be transferred to units at hazardous waste land disposal facilities that are not leaking and where releases from other (non-receiving) units at the facility are under a corrective action program.

CFR Citation: 40 CFR 300

Legal Deadline: NPRM, Statutory, April 17, 1988. Final, Statutory, April 17, 1988. Court-ordered: January 31, 1990

Abstract: The National Contingency Plan (NCP) is the primary regulation directing government and responsible party response to and cleanup of discharges of oil, and releases of hazardous substances, pollutants and contaminants. The Superfund Amendments and Reauthorization Act of 1986 mandated that the NCP be revised within 18 months of the date of enactment to incorporate statutory changes.

CFR Citation: 40 CFR 300

Legal Deadline: Final, Statutory.

Abstract: This action revises the Hazard Ranking System (HRS) which is Appendix A of the National Contingency Plan. The HRS is a system for determining the relative risk among releases of hazardous substances. The HRS is the primary mechanism for establishing the National Priorities List under CERCLA. CERCLA, as amended by the Superfund Amendments and Reauthorization Act of 1986, requires that the HRS be amended to assure, to the extent feasible, that it accurately assesses relative risk to public health and the environment. CERCLA specifically requires that the HRS take into consideration natural resource damages that may affect the human food chain as well as potential air contamination. The HRS must also appropriately assess human health risks associated with contamination of surface waters for drinking or recreation.

3225. ● NATIONAL PRIORITIES LIST FOR UNCONTROLLED HAZARDOUS WASTE SITES UPDATE 9

Legal Authority: 42 USC 9605(a)(8)(B)/CERCLA 105(a)(8)(B)

CFR Citation: 40 CFR 300.66; 40 CFR 322

Legal Deadline: Other, Statutory. Annual Update

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous wastesites in the National Contingency Plan (NCP). CERCLA requires that the NPL be revised at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. EPA uses the Hazard Ranking System (HRS) to evaluate the sites. See the related actions in the proposed and final rule sections of this Agenda.

CFR Citation: 40 CFR 300.66

Legal Deadline: None

Abstract: This action is a proposed update to the National Priorities List (NPL) for uncontrolled waste sites in the National Contingency Plan (NCP). This update proposes to add two sites to the NPL: Radium Chemical Co., Inc., in Woodside, Queens, New York; Forrest Glen Subdivision in Niagara, New York. CERCLA requires that the Agency revise the NPL at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up.

Legal Authority: 42 USC 9601/SARA 120

CFR Citation: 40 CFR 373

Legal Deadline: Final, Statutory, April 17, 1988.

Abstract: Section 120(h) of SARA requires that EPA, in consultation with the General Services Administration, promulgate rules which will require the disclosure of the type and quantity of any hazardous substances that have been stored, released or disposed of on federally owned land when such land is sold or otherwise transferred by the United States. This section of SARA also requires that the agencies holding such land provide, at the time of transfer, a covenant warranting that: (1) all remedial actions necessary for protection of human health and the environment have been taken; and (2) any additional action found to be necessary after the transfer will be undertaken by the U.S. EPA is not required to develop rules concerning these latter requirements and is not doing so.

Abstract: Under Title III of SARA, EPA has authority to establish thresholds below which facilities do not have to report. In the rule published on October 15, 1987, EPA set reporting thresholds for the first two years of reporting. At the same time, the Agency made a commitment to further evaluate the appropriate level for a final threshold. The proposed rule set forth the proposed permanent threshold for reporting as well as proposed amendments to the sections 302, 304, and 313 final rules. The final rule will establish a uniform final reporting threshold for Sections 311 and 312, and will finalize other amendments.

Significance: Regulatory Program

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Legal Deadline: None

Abstract: This action will revise EPA's existing 404(c) regulations, in effect

since October 9, 1979. It will amend the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. The revisions will reflect our experiences to date under Section 404(c), and more clearly address use of 404(c) in advance of a specific proposed discharge.

Development (ORD). The purpose of this rulemaking is to develop procedures for categorically excluding classes of ORD actions having no significant impact on the environment, from the requirement to prepare an environmental assessment (EA) or an environmental impact statement (EIS). The rulemaking also clarifies the criteria under which EPA would be required to prepare an EIS. This rulemaking will enable EPA to focus its resources on assessing research and development projects which have the potential to significantly affect the environment. The revisions are consistent with the Council on Environmental Quality's NEPA regulation in 40 CFR Parts 1500-1508. .SEE ADDITIONAL INFORMATION FOR COMPLETION OF ABSTRACT]

This revision would make the regulation consistent with CEQ and other federal agency NEPA regulations.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order No. 12291, 3 CFR p. 127 (1981 Compilation), and the Regulatory Flexibility Act, 5 U.S.C. Chapter 6. The agenda contains all regulations which are scheduled for review or development during the next twelve months.

FOR FURTHER INFORMATION CONTACT: Irene L. Hill, Assistant Legal Counsel for Coordination, Office of the Legal Counsel, Equal Employment Opportunity Commission, 1801 L Street NW., Washington, DC 20507; telephone (202) 663-4690.

SUPPLEMENTARY INFORMATION: The Commission identified ten current and projected rulemakings for inclusion in the agenda. Two of the listings have been published as ANPRMs. Two have been published as NPRMs. Four are currently under development or review by Commission staff. One is under review by another agency, and one has been published as a final regulation.

Signed in Washington, DC, this 28th day of August 1989.

For the Commission.

Clarence Thomas,

Chairman, Equal Employment Opportunity Commission.

3260. PROCEDURES FOR ADMINISTRATIVE EXEMPTIONS UNDER SECTION 9 OF THE AGE DISCRIMINATION IN EMPLOYMENT ACT

Legal Authority: 29 USC 628 Age Discrimination in Employment Act

CFR Citation: 29 CFR 1627.15

Legal Deadline: None

Abstract: The purpose of the proposed amendment to 29 CFR 1627.15 is to give those covered by the ADEA more specific information about what they should do if they wish to seek an exemption from any or all of the ADEA's prohibitions. The advantage is that the establishment of a specific procedure will facilitate the processing of exemption requests.

3261. EARLY RETIREMENT PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 628

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The ADEA prohibits discrimination on the basis of age with respect to an employee's compensation, terms, conditions, or privileges of employment. In light of recent amendments to the ADEA and several cases dealing with early retirement, questions have arisen regarding the legality of early retirement plans in general and of specific plans. Since the use of early retirement has expanded greatly in recent years, the Commission deems it appropriate to consider the issuance of regulatory guidance in the area. The ANPRM seeks comment on issues such as voluntariness, plan structuring and eligibility to participate.

3262. POSSIBLE REVISIONS TO INTERPRETATIONS RELATING TO BENEFITS UNDER EMPLOYEE BENEFIT PLANS

Legal Authority: 29 USC 628

CFR Citation: 29 CFR 1625.10

Legal Deadline: None

Abstract: The current interpretive regulations at 29 CFR 1625.10 were framed in 1979. Since that time the ADEA has been amended in a manner that necessitates considering revisions to the regulations, for example, the addition of sec. 4(g) to the Act and the lifting of the age 70 cap. Accordingly, the Commission requested public comment to determine whether revisions are necessary and, if so, the nature and scope of any such revision. The continuing viability of this project will be assessed in light of the Supreme Court's decision in Retirement System of Ohio v. Betts, 57 U.S.L.W. 4931 (June 20, 1989).

Significance: Agency Priority

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Legal Deadline: None

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping. 48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to publication for comment, co-signatories to UGESP will engage in discussion of recommended changes and other affected agencies will be consulted under EO 12067.

Significance: Regulatory Program

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Legal Deadline: None

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

Federal Emergency Management Agency

Semiannual Regulatory Agenda

VOL 54 ISS 208 OCT 30 1989 UMI

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 "Federal Regulations," the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period April 1, 1989, to March 31, 1990.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street SW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: For general information, contact Susan Kantor Bank, Office of General Counsel, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3973. For additional information about a specific regulation, contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulations" directs each executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 601 *et seq.*

In fulfillment of requirements imposed by the Executive order and 5 U.S.C. 601 *et seq.*, this agenda describes current and projected regulations and regulations which will be under review during the period April 1, 1989, to March 31, 1990. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published April 24, 1989, at 54 FR 17344.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations, and organizational and management matters.

Dated: August 28, 1989.

George W. Watson,

Acting General Counsel.

3276. FLOOD INSURANCE RATING SYSTEM CHANGES

Significance: Regulatory Program

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 61

Legal Deadline: None

Abstract: National Flood Insurance Program premium rating system changes under consideration include a community rating system and a system to use revised FIRMs producing higher rates for existing policyholders, subject to a rate cap. The community rating system would be designed to recognize circumstances within local communities that mitigate or exacerbate the flooding risk, such as the inaction of a community in addressing flood problems or the performance of a community that goes beyond minimum NFIP floodplain management requirements. The use of revised FIRMs for existing policyholders would replace the current practice of allowing premium rates for such policyholders to be based on the map in existence at the time of construction so long as the construction met the requirements at that time.

CFR Citation: 44 CFR 305; 44 CFR 302; 44 CFR 360; 44 CFR 301; 5 CFR 900

Legal Deadline: None

Abstract: The comprehensive aspect of the CCA process itself was not created by legislation or even by regulation; Presidential emphasis on grants consolidation and FEMA policy on integrating programs created the CCA. The cooperative agreement aspect of the CCA process is based on PL 95-224, the Federal Grant and Cooperative Agreement Act of 1977. Cooperative agreements are used when stimulating a public purpose (the multiple programs delivered in each CCA are aimed at stimulating public purposes, primarily civil defense). The Federal Civil Defense Act of 1950, as amended, authorizes the major portion of CCA programs and assistance dollars, and is therefore the major legislative authority underpinning the CCA process. Various Civil Preparedness Guides, primarily CPG 1-36 and CPG 1-3 address the CCA process and associated programs. However, a regulation would provide complete notice to States and interested parties and complete the policy and procedural requirements identified by the Office of General Counsel. Specific quantitative estimates cannot be cited.

CFR Citation: 44 CFR 59; 44 CFR 60; 44 CFR 61; 44 CFR 62

Legal Deadline: None

Abstract: Section 544 of the Housing and Community Development Act of 1987 provided a new benefit to National Flood Insurance Program policyholders: Payment for demolition or relocation of an insured structure if it is located "along the shore of a lake or other body of water and is certified by appropriate State or local land use authority to be subject to imminent collapse or subsidence as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels." FEMA published interim regulations on this subject on September 23 and November 2, 1988, and commissioned an investigation through the National Academy of Sciences to provide a basis for further regulations.

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 59; 44 CFR 65

Legal Deadline: None

Abstract: Regulations will be developed defining criteria for evaluating the effectiveness of coastal flood control structures in preventing or reducing 100-year flooding or damage. The criteria will be used to determine whether

areas protected by such structures will be included in, or excluded from, Special Flood Hazard Area designations and/or Coastal High Hazard Area (V-zone) designations on Flood Insurance Rate Maps prepared for the National Flood Insurance Program. The criteria will be based on the results of a special study by the U.S. Army Corps' Coastal Engineering Research Center entitled "Development of Criteria for Evaluating Coastal Flood Control Structures." Other changes to NFIP regulation, including changes to the standard flood insurance policy, are being considered.

Significance: Agency Priority

Legal Authority: 50 USC App. 2251 et seq; 44 USC 5121 et seq.; 31 USC 9701; EO 12657

CFR Citation: 44 CFR 352

Legal Deadline: None

Abstract: The rulemaking adopts in final form Part 352 in Title 44 CFR Emergency Management and Assistance, Chapter 1, Subchapter E Preparedness. This part concerns licensee certification and FEMA determinations, and provision of Federal assistance for offsite radiological emergency planning and preparedness for commercial nuclear power plants under Executive Order 12657. This part responds to a requirement in section 6[a] of the order that FEMA issue directives and procedures to implement the order. This part is intended to ensure that plans and procedures are in place to respond to radiological emergencies at commercial nuclear power plants under construction or in operation.

3306. NEGOTIATED DISPOSAL OF PERSONAL PROPERTY

Legal Authority: 40 USC 486(e)

CFR Citation: 41 CFR 101-44; 41 CFR 101-45; 41 CFR 101-46

Legal Deadline: None

Abstract: This regulation will implement the personal property sales provisions and reporting requirements of the Federal Managements of the Federal Property Management Improvement Act of 1988. There should be no significant costs to the public as a result of this rule. The rule will significantly reduce time and workload in preparing reports to Congress and improve the efficiency and effectiveness of personal property sales by expanding on negotiated sales procedures.

Legal Authority: 40 USC 476; 42 USC 2000d-1; 20 USC 1681

CFR Citation: 41 CFR 101-8.2

Legal Deadline: None

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer.

Abstract: This regulation is being issued for the purpose of requiring Executive agencies to institute policies and procedures to preserve and protect Federal real property assets. This regulation will not produce a major impact on the economy, and its potential benefits out weigh potential costs. The regulation now primarily affects those Federal agencies for whom GSA provides office space and related facilities. As the regulation is developed, it will affect agency controlled and GSA controlled real property.

3315. FEDERAL PROPERTY MANAGEMENT REGULATION PART 101-17, ASSIGNMENT AND UTILIZATION OF SPACE

Significance: Agency Priority

Legal Authority: 40 USC 481; 40 USC 601; 7 USC 1924; 40 USC 490; 40 USC 531; 42 USC 3601; 42 USC 4321; 42 USC 4201; EO 12072; EO 12411; EO 12512; PL 100-678

CFR Citation: 41 CFR 101-17

Legal Deadline: None

Abstract: A new and comprehensive permanent FPMR 101-17, Assignment and Utilization of Space, will improve the space delivery process for federal agencies by making it more efficient, more timely, and better able to deliver quality space that supports agency mission needs. The new FPMR will implement a new space assignment process that emphasizes client service; issue a new comprehensive move policy that clarifies roles and responsibilities; revise the GSA location policy to be more responsive to agency mission needs; revise the standard alterations, which agencies receive upon an initial move, to recognize modern office needs; and revise the space classification definitions to eliminate ambiguity. These changes will result in a more efficient space delivery process that will improve the overall efficiency of government operations. The assignment and utilization of federal space has been governed by a series of four temporary regulations since 1963. The current FPMR Temporary Regulation D-73 is outdated and is not comprehensive in its coverage of the process for acquisition and assignment of federal space. The new permanent FPRM will correct these problems.

Legal Authority: 5 USC 5701 to 5709; EO 11609, July 22, 1971 (36 FR 13747)

CFR Citation: 41 CFR 301-15

Legal Deadline: None

Abstract: This rule prescribes requirements and procedures for the reporting of travel and relocation cost data by selected Federal agencies for the fiscal year 1988, 1989, and 1991. The Federal Civilian Employee and Contractor Travel Expenses Act of 1985, January 2, 1986, requires the Administrator of General Services to submit periodic analyses of agency payments for employee travel and relocation to the Director of the Office of Management and Budget (OMB). The analyses are to be based on a sampling survey of agencies each of which spent more than $5 million on employee travel and relocation during the previous fiscal year. The law further requires the selected agencies to provide the information necessary for preparing the analyses in a format prescribed by the Administrator and approval by the Director of OMB. This rule establishes a travel survey questionnaire as the format for reporting the required travel and relocation cost data. The economic impact of this rule has not been estimated to date.

Legal Authority: 5 USC 5721 to 5734; 20 USC 905(a); EO 11609, July 22, 1971(36 FR 13747)

CFR Citation: 41 CFR 302-6; 41 CFR 302-12

Legal Deadline: None

Abstract: This document amends the Federal Regulation (FTR) to authorize, under certain conditions, reimbursement of allowable residence transaction expenses for employees transferred from an official station in a foreign area to a different nonforeign area official station than the one from which the employer was transferred when assigned to the foreign post of duty. The estimated economic impact of the relocation legislation is approximately $24 million, assuming that 75 percent of employees selling a residence will opt for relocation services and that the average price of a residence transaction is $100,000. This regulation implements the provisions of Section 628 of Pub. L. 100-202 (101 Stat. 1329-430, 431), Dec. 22, 1987.

Abstract: This project revises FIRMR Provisions relating to Federal Telecommunications acquisition and management. It will include changes brought about by the Federal Communications Commission Computer II inquiry and the divestiture of AT&T. This regulation will update GSA policies and provisions impacting Governmentwide telecommunication management and will specifically address the need for requirements definition and analysis for local and intercity service. It will revise "major change" requirements and state what GSA needs from agencies if GSA is expected to provide services or if GSA is reviewing service for individual agency acquisitions. All obsolete provisions will be eliminated.

Abstract: This regulation implements certain selected portions of the Paperwork Reduction Reauthorization Act of 1986. Among the other changes, it clarifies the applicability of the FIRMR to the management acquisition, and use of various information resources by Federal agencies. The amendment prescribes FIRMR policies and procedures for use in determining whether any particular procurement must be conducted under GSA's exclusive procurement authority. It also streamlines the Delegations Program by establishing uniform procedures, uniform blanket delegations of procurement authority, Agency Procurement Requests for all ADP and telecommunications resources.

Abstract: In response to recommendations by users of the FIRMR to revise the regulation to make it more readable and useful, GSA plans to restructure the FIRMR during the next few years. This restructuring will include: the separation of policies and procedures, the separation of contracting from management and use provisions, the reorganization of FIRMR contracting provisions for consistency with the Federal Acquisition Regulations, and the reorganization of the FIRMR's management and use provisions into a life cycle format. As the final draft of each subchapter is completed, GSA will seek public comment on the subchapter through a notice of proposed rulemaking. Subchapter E, which deals with acquisition, will be completed first and, if possible, issued as a final rule before publication of the entire FIRMR. An advanced notice of proposed rulemaking describing the project was published in the Federal Register in January 1988. The next planned action is a notice of proposed rulemaking for planned action is a notice of proposed rulemaking for Sub Chapter C.

Abstract: This project revises the FIRMR to simplify provisions on the use and implementation of Federal automatic data processing and telecommunications standards. It results in major changes in the regulatory coverage and presentation of FIRMR provisions on standards. The intent is to remove redundant and nonregulatory provisions from the FIRMR that may be found in other agency issuances and to reorganize provisions, consistent with the FAR so that users may more readily locate standards provisions relevant to their particular need.

3343. INFORMATION RESOURCES MANAGEMENT REVIEWS CODIFICATION AMENDMENT FOR FIRMR TEMPORARY REGULATION 10

Significance: Regulatory Program

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201-19

Legal Deadline: None

Abstract: This project revises the FIRMR by codifying certain provisions contained in FIRMR Temporary Regulation 10 regarding the Federal Information Resources Management Reviews Program (triennial reviews). Temporary Regulation 10 describes the policies and procedures for GSA - Federal agencies to follow in carrying out their information resources management review responsibilities under the Paperwork Reduction Act. It also established GSA as the primary agency for collecting, assessing, and reporting on information resources management review results to OMB. This Final Rule will be issued incorporation comments received on temporary regulation 10. This rule will codify in the FIRMR Governmentwide for policies for triennial reviews. A bulletin will also be issued providing detailed information regarding review procedures.

Abstract: The Telecommunications Accessibility Enhancement Act of 1988 (PUB.L.100-542) directed GSA to prescribe regulations that make the Federal Telecommunications system fully accessible to hearing and speech impaired individuals. In condition with other agencies and organizations, GSA is developing an interim rule that will specify requirements for Federal agencies in providing telecommunications access to hearing and speech impaired individuals who are either employees or client of the agencies. A FIRMR Bulletin will also be issued to describe the types of telecommunication devices for the deaf (TDD's) and related services currently available.

Abstract: This change to the GSAR revised Subpart 509.4 by eliminating provisions that unnecessarily duplicate or repeat material contained in FAR Subpart 9.4. Section 509.401 was revised to apply the procedures outlined in Subpart 509.4 to debarment and suspension proceeding arising under General Services Administration Property Management Regulation (GSPMR) 105-68 (nonprocurement debarment and suspension). Revised section 509.405 by requiring contracting officers to review both sections of the Lists of Parties Excluded from Federal Procurement and Nonprocurement Programs, eliminating the requirement that termination of current contracts with debarred or suspended contractors be approved at a level above the contracting officer, and requiring contracting officers to consider the availability of remedies under FAR Subpart 3.2 (gratuities clause) and Subpart 3.7 (voiding and rescinding). This rule also clarified the role of the agency factfinding official in proceedings conducted pursuant to FAR 9.406-3(d)(2) (ii) and FAR 9.407-3(d)(2)(i).

Abstract: This revision to the General Services Administration Acquisition Regulation revised section 505.203 to establish the same minimum requirement for publicizing in local newspapers acquisitions of leasehold interests in real property as is currently provided for acquisitions of real property appraisal services and to establish for leasehold interests in real property a minimum response time of 20 calendar days between issuance of the solicitation and receipt of initial offers. The Administrator of General Services made to determination under section 18(c)(3) of the Office of Federal Procurement Policy Act that publicizing acquisitions of leasehold interests in real property and real property appraisal services in local newspapers is more appropriate than synopsizing in the Commerce Business Daily. The requirement to publicize applies to blocks of space of 10,000 square feet or more. [GSAR 505.101]

Legal Authority: 20 USC 1681 et seq

CFR Citation: 14 CFR 1253

Legal Deadline: None

Abstract: This regulation proposes to establish for NASA a set of rules prohibiting sex discrimination in educational programs or activities receiving financial assistance from NASA. Under authority provided by the Education Amendments of 1974, this regulation seeks to ensure that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied benefit of, or otherwise be subject to discrimination under any program or activity receiving Federal financial assistance from NASA.

Legal Authority: 42 USC 2456(e); 42 USC 2456(f); EO 12356

CFR Citation: 14 CFR 1203.b

Legal Deadline: None

Abstract: NASA proposes to implement 42 USC 2456(e), (f), and EO 12356 by establishing centralized control over the exercise of arrest authority at NASA Headquarters and ensuring that NASA Security Force personnel at NASA Installations exercise such arrest authority, including the use of force to effect such an arrest in a manner consistent with both NASA's security objectives and recognized legal standards.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA)

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since April 1989. This agenda was developed under the guidelines in OMB Bulletin No. 89-12, dated July 5, 1989. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291 "Federal Regulation."

FOR FURTHER INFORMATION CONTACT: John A. Constance, Acting Chief, Information Management and Directives Branch, (202) 523-3214.

Dated: August 22, 1989.

Don W. Wilson,

Archivist of the United States.

3423. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 44 USC 2104; 44 USC 2504

CFR Citation: 36 CFR 1207

Legal Deadline: None

Abstract: This action proposes a common rule updating and replacing agencies' implementation of OMB Circular A-110 with a single, government-wide common rule establishing consistency and uniformity among Federal agencies in the administration of grants and cooperative agreements to institutions of higher education, hospitals, other nonprofit organizations, and commercial or for-profit entities. This result is achieved by amending the common rule issued by the agencies on March 11, 1988, to similarly update and replace implementation of OMB Circular A-102. The provisions of the common rule are largely drawn from the existing departmental rules issued by the several agencies which in the past developed a single, comprehensive rule implementing the circulars. This proposed common rule contains fiscal and administrative requirements applicable to grantees.

Significance: Agency Priority

Legal Authority: PL 100-690, Title V, Subtitle D, Sections 5151 to 5160; EO 12549

CFR Citation: 45 CFR 1154

Legal Deadline: Final, Statutory, February 16, 1989.
Section 5156 of the Drug-Free Workplace Act of 1988 requires agencies to issue regulations 90 days after the Act is signed into law.

Abstract: This rule is for the purpose of implementing the statutory requirements of the Drug-Free Workplace Act of 1988 which requires that recipients of Federal grants certify that they will maintain a drug-free workplace. If the grantee is an individual, certification that his or her conduct under the grant will be drug-free is required. This rule directs that grantees submit certifications and establish sanctions of violation for drug-free workplace requirements.

Unified Agenda of Regulations

AGENCY: National Endowment for the Humanities.

ACTION: Publication of the unified agenda of regulations.

SUMMARY: Pursuant to the Regulatory Flexibility Act, Pub. L. 96-354, and Executive Order 12291 "Federal Regulations," dated February 17, 1981, the National Endowment for the Humanities is required to publish in April and October of each year an agenda of proposed regulations that the Endowment has issued or expects to issue and current rules that are under agency review.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen J. McCleary, Deputy General Counsel, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., Washington, DC 20506, 202/786-0322.

3439. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS AND ACTIVITIES

Legal Authority: 42 USC 2000d to 2000d4

CFR Citation: 45 CFR 1110; 45 CFR 1173

Legal Deadline: None

Abstract: This proposed regulation implements Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, or national origin in federally assisted programs and activities, with respect to programs and activities receiving federal financial assistance from the National Endowment for the Humanities.

Programs and activities receiving federal financial assistance from the National Endowment for the Humanities are currently covered by a regulation implementing Title VI that was issued by the National Foundation on the Arts and the Humanities in 1973 (45 CFR 1110). The proposed rule will remove NEH programs from the coverage of the earlier rule and replace it with a new part applicable only to NEH-assisted programs and activities. Programs and activities assisted by the National Endowment for the Arts remain covered under the existing regulation.

ACTION: Publication of semiannual regulations agenda.

SUMMARY: The National Science Foundation (NSF) publishes its semiannual agenda of regulations under development or review as required by Executive Order 12291, Federal Regulation (46 FR 13193, February 17, 1981). This agenda has been prepared in accordance with OMB Bulletin No. 89-12, Unified Agenda of Federal Regulations.

FOR FURTHER INFORMATION CONTACT: For additional information regarding any particular regulatory action contained in the agenda, contact the individual identified as the contact person in the agenda. Comments or inquiries of a general nature about the agenda should be directed to Sukari S. Smith, Office of the General Counsel, National Science Foundation, Washington, DC 20550, (202) 357-9435.

Dated: July 28, 1989.

Sukari S. Smith,

Regulatory Contact.

NATIONAL SCIENCE FOUNDATION (NSF) — Final Rule Stage

3442. PATENTS

Legal Authority: 42 USC 1870(a) The Natl. Sci. Found. Act of 1950, as amended; 35 USC 200 et seq The Bayh-Dole Act, as amended

CFR Citation: 45 CFR 650

Legal Deadline: None

Abstract: The Bayh-Dole Act (35 USC 200 et seq) was amended by Title V of PL 96-620 (98 Stat. 3364, 3368). The Department of Commerce has prepared a governmentwide implementing regulation. The Foundation's Patents regulation (45 CFR 650) conforms to it. Because the revision to the NSF patents regulation will merely echo a governmentwide regulation on which the public will have had an opportunity to comment, the Foundation expects that the revision will be published as a final rule. No additional costs will be imposed on the public as a result of the revision.

Timetable:

Final Action	00/00/00	

Small Entities Affected: None

Government Levels Affected: None

Additional Information: The notable changes to be made in the revision of the NSF patents regulation will be: elimination of restrictions on the licensing of NSF-supported inventions by nonprofit organizations, including universities; modification of the criteria and procedures for determining that "exceptional circumstances" warrant restricting a grantee's right to retain principal patent rights to its employees' NSF-supported inventions; and elimination of the Foundation's authority to waive the government license and "march-in" rights in awards not subject to the Bayh-Dole Act. All these changes are required by amendments to the Bayh-Dole Act.

Semiannual Regulatory Agenda

OFFICE OF MANAGEMENT AND BUDGET (OMB)

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III

Federal Regulations; OMB Circulars and Policy Letters Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB policy guidelines are issued under authority derived from several sources including: Subtitles I, II, and V of title 31 United States Code; Executive Order No. 11541; and other specific authority as cited. The agenda includes actions on issuances which are not guidelines but which are of public interest. While it is presented in the standard Governmentwide format of prerule, proposed rule, and final rule stages, the entries are not rules.

OMB Circulars and OFPP Policy Letters are policy guidelines that communicate Governmentwide policy of a continuing nature. For purposes of this agenda, we have excluded directives that outline procedures to be followed in connection with the President's budget and legislative programs and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda; c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact Darrell A. Johnson (202/395-7250) at the above address.

Dated: September 15, 1989.

Darrell A. Johnson,

Assistant Director for Administration.

Significance: Agency Priority

Legal Authority: PL 100-418,Section 7002

CFR Citation: None

Legal Deadline: Other, Statutory, February 1990.
OFPP must present a report to Congress by February 1990 which includes policy guidance or recommended legislative changes on factors to be used in making determinations of country of origin.

Abstract: The Buy American Act (the Act) was enacted in 1933 to ensure Federal agencies gave domestic products priority in competition for government contracts. The Act provides that, unless it is inconsistent with the public interest or unreasonably costly, all materials and supplies purchased by any department of the Federal Government, and all materials and supplies furnished by contractors doing work for the Federal Government, be produced within the jurisdictional limits of the United States. In 1988, the Act was amended by several sections of Title VII of PL 100-418. among other things, the 1988 amendments, directed the Administrator of Federal Procurement Policy to "conduct an assessment of the rules currently used this Act for making determinations of country of origin and alternatives to such rules." In conducting this assessment, the administrator was directed to identify and evaluate reasonable alternative rules of origin, including one which requires that a determination be made on the basis of total cost. The results of this analysis, including policy guidance and recommended legislative changes,are to be submitted to designated committees of Congress by Feb. 90.

Significance: Agency Priority

Legal Authority: PL 100-679, Sec 6 OFPP Act Amendments of 1988

CFR Citation: None

Legal Deadline: Final, Statutory, July 16, 1989.
Sec 6(a) provides that regulations and guidelines are required to be issued 180 days after enactment of PL 100-679 (November 17, 1988). PL 101-28 extended effective date to July 16, 1989.

Abstract: Section 6 of PL 100-679 establishes a "Procurement Integrity" requirement applicable to all government contractors having contracts with federal agencies that are subject to the Office of Federal Procurement Policy Act. The Policy and Regulations will cover: Prohibited Conduct by Competing Contractors; Prohibited Conduct by Procurement Officials; Disclosure of Information to Unauthorized Persons; Post-Employment Restrictions on Government Officials; Contractual Penalties; Administrative Actions; Criminal Penalties; and Civil Penalties. The statutory provision mandates federal action by requiring implementation in the Federal Acquisition Regulation. No alternative approach is permitted. Potential cost and benefits undetermined.

3461. ORGANIZATION OF THE GOVERNMENT FOR PERSONNEL MANAGEMENT; PERSONNEL MANAGEMENT IN AGENCIES

Legal Authority: 5 USC 1104; 5 USC 1302; 5 USC 3301; 5 USC 3302; EO 10577

CFR Citation: 5 CFR 230; 5 CFR 250

Legal Deadline: None

Abstract: Deletes Part 230 and transfers its regulations to Part 250, to maintain parallel structure with 5 U.S.C. Combines material formerly in Part 230 with regulations now found in Part 250 to present all regulations on agencies' authorities for personnel management in a single part of the Code of Federal Regulations. Changes improve the technical integrity of the CFR by eliminating redundancies and improving the efficiency of OPM's regulations. No change in the coverage or substance of affected regulations.

CFR Citation: 5 CFR 293; 5 CFR 430

Legal Deadline: None

Abstract: Revises requirements for the Performance Management Systems for General Schedule and Prevailing Rate employees. Regulations will be streamlined to eliminate impediments to management flexibility while still assuring pay-for-performance systems. The section on filing and transfer of performance records contains a technical change that would bring the Official Personnel Folder (OPF) subpart into conformance with the Employee Performance Folder (EPF) subpart, indicating that performance ratings of record, and the performance plans on which they are based, may be filed in either the OPF or the EPF.

3472. RETIREMENT; CSRS OFFSET SERVICE

Legal Authority: 5 USC 8347

CFR Citation: 5 CFR 831, Subpart J

Legal Deadline: None

Abstract: The Federal Employees' Retirement System Act of 1986 provided that certain employees would continue to be covered by both the Civil Service Retirement System and social security. Their CSRS deductions are offset by social security taxes (FICA), and, when they retire, their CSRS benefits are offset by the value of this service in their social security benefits. CFR Citation: 5 CFR 300

Legal Deadline: None

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a time-consuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

3485. AMENDMENT TO SELECTIVE SERVICE REGISTRATION REQUIREMENTS

Legal Authority: 5 USC 3328

CFR Citation: 5 CFR 300, Subpart G

Legal Deadline: None

Abstract: We will issue a final rule delegating authority to agencies to determine whether a Federal job applicant's failure to register with the Selective Service System was knowing and willful. This change was authorized by an amendment to 5 USC 3328 which imposes the selective service registration requirement as a condition of employment in Federal executive agencies. The delegation will permit faster decisions for interested job seekers and reduce paperwork.

Legal Authority: 5 USC 5334(a); 5 USC 5338

CFR Citation: 5 CFR 531

Abstract: Under current regulations, Federal agencies must request prior OPM approval to use a special rate as an employee's "highest previous rate" upon reassignment to another position. The proposed regulations would revise the "highest previous rate" provisions of the regulations to remove this requirement and to clarify an agency's authority to establish an employee's rate of basic pay upon promotion, demotion, reassignment, transfer, reemployment, or change in type of appointment.

OPM — Final Rule Stage

Abstract: Public Law 100-202 authorized the Office of Personnel Management to establish a program under which Federal employees may transfer annual leave to other employees who need such leave because of a "personal emergency." Interim regulations issued in 1988 established administrative procedures for Federal agencies to permit the transfer of annual leave for this purpose. The statutory authority for this program has been extended through FY 89. In addition, Public Law 100-566 authorized a 5-year experimental voluntary leave transfer program, which will expire on October 31, 1993. Regulations to implement the new program by Public Law 100-566 will supersede previous regulations governing this program.

Significance: Regulatory Program

Legal Authority: 5 USC 6362; PL 100-566

CFR Citation: 5 CFR 630

Legal Deadline: Final, Statutory, April 30, 1989.

Abstract: Public Law 100-566 authorizes the Office of Personnel Management to establish a 5-year experimental voluntary leave bank program to be implemented in at least 3 executive agencies. Under the voluntary leave bank program, employees can donate annual leave to a common leave fund within each agency, and then can apply to withdraw leave from the fund if they encounter a medical emergency. The regulations will establish the administrative procedures for participating agencies to permit the contribution and use of annual leave for this purpose. The statutory authority for this program expires on October 31, 1993. Further action is dependent upon whether continuing or permanent authorization is enacted.

CFR Citation: 5 CFR 930, Subpart B

Legal Deadline: None

Abstract: OPM is proposing to amend its regulations governing the appointment, pay and removal of administrative law judges. The proposed amendment would permit an administrative law judge to transfer to another agency before completing 1 year of service, provided the losing agency agrees to a transfer. If both the gaining and losing agency agree to the transfer before the usually required 1 year of service following appointment is completed, such transfers should be permitted under the regulations, so that the gaining agency does not have to request a variation from established regulations to effect the transfer.

Panama Canal Commission

Semiannual Regulatory Agenda

VOL 54 ISS 208 OCT 30 1989 UMI

PANAMA CANAL COMMISSION (PANAMA)

PANAMA CANAL COMMISSION

35 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Assistant to the Chairman and Secretary, Panama Canal Commission, 2000 L Street NW., Suite 550, Washington, DC 20036-4996, (202) 634-6441 TDD; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011-5000.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, require that executive agencies publish in the Federal Register a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 88-12.

Dated: August 25, 1989.

Michael Rhode, Jr.,

Assistant to the Chairman and Secretary, Panama Canal Commission.

PANAMA CANAL COMMISSION (PANAMA) — Prerule Stage

3534. ● RULES FOR MEASUREMENT OF VESSELS

Significance: Agency Priority

Legal Authority: PL 96-70, Sec 1601

CFR Citation: 35 CFR 135

Legal Deadline: None

Abstract: In July 1982, 48 nations, representing more than 80 percent of world shipping, began implementing a new uniform method for tonnage determination in accordance with the International Convention on Tonnage Measurement of Ships, 1969. Final implementation is scheduled for July 1994. The present Panama Canal measurement system is based upon the old national tonnage measurement system. The Panama Canal Commission is currently studying the possibility of adapting its tonnage measurement system to one which is compatible with the 1969 Convention. This would eliminate the need for vessels to be measured twice, once under the new system and again under the old system for Panama Canal assessment purposes. No timetable for rulemaking has been established.

3535. PANAMA CANAL COMMISSION ACQUISITION REGULATION

Significance: Agency Priority

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR Chapter 35, (New)

Legal Deadline: None

Abstract: The Panama Canal Commission proposes to issue the Panama Canal Commission Acquisition Regulation (PAR) as Chapter 35 of Title 48 Code of Federal Regulations. The proposed PAR implements and supplements the Federal Acquisition Regulation (FAR), which is the primary acquisition regulation that governs the contracting process of all executive agencies or otherwise controls the relationship between such agencies and their contracts or prospective contractors. This action is necessary to provide regulatory coverage pertinent to Commission acquisitions that is not otherwise provided in the FAR.

PEACE CORPS

22 CFR Ch. III

Executive Order 12291, Federal Regulations, Semiannual Agenda of Regulations

AGENCY: Peace Corps.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the Peace Corps will have under development during the 12-month period from October 1, 1989, through September 30, 1990. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning Peace Corps regulations or this semiannual agenda, contact Robert Martin, Associate General Counsel, Peace Corps, 1990 K Street NW., Washington, DC 20526, (202) 254-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulations" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by Peace Corps are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. Peace Corps has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no regulatory analysis is required under 5 U.S.C. 602.

Dated: September 1, 1989.

Margaret H. Thome,

Associate Director for Management.

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next twelve months. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Office of the General Counsel, Code 22500, Pension Benefit Guaranty Corporation, 2020 K Street NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact J. Ronald Goldstein, Senior Counsel, Office of the General Counsel, 202-778-8850. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive order requires that the agenda also include those currently effective regulations that are being reviewed by the agency pursuant to the Executive order. The Regulatory Flexibility Act, Pub. L. 98-354, 5 U.S.C. 601, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 89-12) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next twelve months and provide certain specified information on each regulation. All of the items on this agenda are current or projected rulemakings.

Douglas R. Cannon,

Acting Executive Director, Pension Benefit Guaranty Corporation.

3550. TRANSFERS FROM MULTIEMPLOYER PLANS TO SINGLE-EMPLOYER PLANS

Legal Authority: 29 USC 1302(b)(3); 29 USC 1412; 29 USC 1414

CFR Citation: 29 CFR 2678

Legal Deadline: None

Abstract: Sections 4232 and 4234 of ERISA prescribe rules governing the transfer of liabilities and assets from a multiemployer plan to a single-employer plan and prohibit certain transfers unless approved by PBGC. The regulation will establish procedures for requesting and criteria for PBGC approval of transfers which require approval and guidelines for satisfying the statutory requirements pertaining to other transfers. The regulation will also establish standards for the PBGC's waiver of a multiemployer plan's contingent liability arising from the transfer of unfunded vested benefits to a single-employer plan.

Additional Information: Publication of this proposed regulation was delayed because of the need to revise the portions dealing with waiver of a multiemployer plan's contingent liability to reflect certain changes in related statutory provisions made by the Single-Employer Pension Plan Amendments Act of 1986. Work on this rule was subsequently deferred because the enactment of SEPPAA and the 1987 Pension Protection Act amendments required that staff be reassigned to work on higher priority regulations necessitated by those laws.

3551. PLAN RULES FOR REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1387(b)

CFR Citation: 29 CFR 2647 (Amendment)

Legal Deadline: None

Abstract: Under section 4207(a) of ERISA, the PBGC has issued a regulation (29 CFR Part 2647) providing for the reduction or waiver of an employer's liability for complete withdrawal upon the employer's resumption of participation under the plan from which it withdrew. The statute also requires the PBGC to prescribe procedures and standards under which multiemployer plans may adopt their own rules abating complete withdrawal liability upon an employer's return to the plan (section 4207(b)).

The purpose of letting plans adopt their own abatement rules is obvious: a specific rule adopted by a plan may well work better under the facts and circumstances of that particular plan than the broad rules adopted by the PBGC. This regulation will permit a plan to fashion the rules it needs to encourage the return of withdrawn employers, while at the same time protecting the plan from the loss of withdrawal liability payments without a compensating resumption of contributions to the plan by a formerly withdrawn employer. The PBGC is unable to (cont)

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322; 29 USC 1342

CFR Citation: 29 CFR 2624

Legal Deadline: None

Abstract: When the PBGC assumes trusteeship of a terminated pension plan pursuant to sections 4041 and 4042 of ERISA, it pays benefits to participants pursuant to plan provisions and section 4022 of ERISA. This regulation will contain rules and policies relating to the payment of such benefits. The regulation will enable the PBGC to process and administer PBGC-trusteed plans more efficiently with resultant cost savings. It also will reduce costs to the public and the PBGC by providing payment rules, thereby reducing the number of requests for administrative review.

Abstract: The PBGC's employer liability regulation incorporates by reference the interest rate charged under section 6601 of the Internal Revenue Code as the interest rate charged, or credited, on late payments, or overpayments, of employer liability. The Tax Reform Act of 1986 significantly changed the way in which the section 6601 rate is established and creates two interest rates: one for underpayments and another, lower rate for overpayments. Because of these changes, the PBGC plans to conduct a new rulemaking proceeding to determine whether it should continue to use the section 6601 interest rates under the employer liability regulation or whether it should adopt a new rate(s) for this purpose.

3554. PAYMENTS BY PBGC OF UNFUNDED NONGUARANTEED BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322(c) (Supp. V 1987)

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: The Pension Protection Act repealed ERISA section 4049 and 4062(c). Those provisions established new employer liability to plan participants and beneficiaries in the event of a distress termination or involuntary termination by the PBGC of a plan without sufficient assets to pay all benefit commitments; the section 4049 trust was the vehicle for collecting and distributing these liability amounts. This system proved flawed in several respects, however, and Congress therefore created a new scheme by which to channel employer liability recoveries to plan participants and beneficiaries, amended ERISA section 4022(c).

Under section 4022(c), participants no longer have a direct claim for employer liability. Instead, the PBGC's claim covers both its shortfall (unfunded guaranteed benefits) and participants' losses (unfunded benefit liabilities in excess of guaranteed benefits). In turn, the PBGC is to pay a portion of its employer liability recovery to participants and beneficiaries. The amount to be paid is based on the PBGC "recovery ratio" (as defined in amended sec. 4022(c)(3)).(cont)

Additional Information: This new statutory rule contains several ambiguities and also leaves to the PBGC the development of specific rules and procedures necessary to make this system work. The regulation will, for example, contain rules on how the PBGC will value its employer liability recoveries for purposes of computing the recovery ratio, whether the allocation of amounts payable under this provision will be done as part of the regular section 4044 asset allocation, and whether the PBGC will pay these benefits by increasing the amount of annuity payments it is making to participants or making lump sum payments.

3555. RETIREMENT EQUITY ACT AMENDMENTS - VALUATION OF PLAN BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341 (Supp. V 1987)

CFR Citation: 29 CFR 2619

Legal Deadline: None

Abstract: The Retirement Equity Act of 1984 ("REA") requires plans to provide certain benefits, prohibits the elimination of benefit options and certain early retirement benefits and retirement- type subsidies, and mandates the range of interest rates that may be used in calculating the amount of a non-consensual lump sum benefit. The Tax Reform Act of 1986 ("TRA '86") slightly modified the interest rate restrictions and extended them to the calculation of all lump sum benefits.

These rules necessitate several amendments to the PBGC's valuation of benefits regulation (29 CFR Part 2619). The major changes will address the rules on determining the form of benefit to be valued on plan termination and the interest rate rules for lump sum payments in standard terminations.

The PBGC had planned to issue the amendments to the valuation of benefits regulation concurrently with the two revised termination regulations. However, work on these amendments has been delayed pending PBGC's efforts with the Internal Revenue Service to develop a definition of the term "benefit liabilities", which was introduced by the Pension (cont.)

3556. REDUCTION OR WAIVER OF PARTIAL WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1388(e)(3)

CFR Citation: 29 CFR 2646

Legal Deadline: None

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal liability arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

3557. ADJUSTMENT OF WITHDRAWAL LIABILITY FOR A WITHDRAWAL SUBSEQUENT TO A PARTIAL WITHDRAWAL

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1386(b)

CFR Citation: 29 CFR 2649

Legal Deadline: None

Abstract: Under section 4206(b) of ERISA, if an employer partially or completely withdraws from a multiemployer plan subsequent to an earlier partial withdrawal from that plan, the employer's liability for the second withdrawal must be reduced by the amount of its liability for the earlier partial withdrawal. The purpose of this credit is to avoid plans double-charging employers for the same unfunded liabilities. Section 4206(b) also requires the PBGC to prescribe regulations adjusting this credit to ensure that the employer's liability for its second withdrawal properly reflects the employer's share of liability with respect to the plan.

The need for this adjustment to the credit can be seen from the following example. In a plan that uses the rolling-5 allocation method, an employer's withdrawal liability is based on its last five years' participation in the plan. If an employer's second withdrawal occurs more than five years after its partial withdrawal, the liability for the second withdrawal is based solely on plan participation subsequent to the partial (cont)

Thus, there is no double-charging with respect to the old liabilities and no reason to give the employer a credit against its liability for the second withdrawal. However, without this regulation, the employer would get that credit under the statute. There are many other possible situations in which the employer's credit should similarly be reduced in order to ensure equitable treatment of the withdrawing employer vis-a-vis the other employers still contributing to the plan.

This regulation will result in some shifting of liabilities among employers contributing to a multiemployer plan. An employer that has another withdrawal following a partial withdrawal may incur greater liability for the second withdrawal because of the reduction in the credit for the prior partial withdrawal. However, this increase in liability would reduce the unfunded vested benefits allocable to other employers that withdraw thereafter. In the aggregate, the regulation will impose no new costs.

3558. DETERMINATION OF WITHDRAWAL LIABILITY FOLLOWING A MERGER

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(f)

CFR Citation: 29 CFR 2642 (Amendment)

Legal Deadline: None

Abstract: The merger of two multiemployer plans creates a problem as to how the successor plan's unfunded vested benefits are to be allocated in order to determine withdrawal liability for post-merger withdrawals. Frequently, the two plans will have been using different allocation methods prior to the merger. Even if they were using the same method, if they had different plan years, that would create different allocations.

For this reason, section 4211(f) of ERISA requires the PBGC to issue regulations prescribing rules for the post-merger allocation of unfunded vested benefits. The PBGC proposes to establish rules that parallel the statutory allocation methods: i.e., there would be a presumptive allocation method that would apply to plans unless they chose otherwise, and plans would be permitted to adopt certain modifications to this presumptive method without the PBGC's approval and other more significant modifications with the PBGC's approval. Additional Information: ABSTRACT CONT: This regulation will remove a significant impediment to multiemployer plan mergers by eliminating employers' concern and confusion over how their withdrawal liability would be calculated after a merger. Plan mergers are generally to be encouraged since a larger plan is typically a stronger plan because of its broader contribution base, and because portability of benefits is increased. This regulation will impose no new costs.

3559. DISTRESS TERMINATIONS OF SINGLE-EMPLOYER PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(c) (Supp. V 1987)

CFR Citation: 29 CFR 2616

Legal Deadline: None

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 substantially revised ERISA section 4041 dealing with the voluntary termination of single-employer pension plans. Under amended section 4041, a plan may voluntarily terminate only if the termination satisfies the statutory conditions for a standard or distress termination. These rules were further modified by the 1987 Pension Protection Act, which increased the benefits that must be provided, or for which the employer maintaining the plan is liable, upon plan termination. Thus, under current law, unless a plan has sufficient assets to satisfy all plan benefit liabilities, it may voluntarily terminate only in a "distress" termination; i.e., a termination in which the plan sponsor and all members of its controlled group are able to demonstrate either such financial hardship or unduly burdensome pension costs that, as a practical matter, they are unable to continue to maintain the plan. Additional Information: ABSTRACT CONT:

The statutory rules and procedures for distress terminations are substantially different from the prior rules and procedures for terminating insufficient plans. Therefore, it is necessary to revise the PBGC's plan termination regulations to reflect these new rules and procedures. This regulation covering distress terminations and a companion rule covering standard terminations (to be codified in Part 2617) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Although the notice of proposed rulemaking for this regulation was

Legal Deadline: None

Abstract: Under ERISA Section 4041, as amended by the Single-Employer Pension Plan Amendments Act of 1986 and the Pension Protection Act, absent a showing of financial hardship or unduly burdensome pension costs that would satisfy the requirements for a distress termination, a single-employer plan may be voluntarily terminated only if it is sufficient for all benefit liabilities (i.e., all benefits provided under the plan on the termination date, whether or not vested). This is referred to as a "standard" termination. SEPPAA also modified many of the termination rules and procedures that applied under prior law, both to increase the protections afforded plan participants and beneficiaries and to simplify and expedite the PBGC's processing of these sufficient plan terminations. It is, therefore, necessary to promulgate this new regulation implementing the new rules and procedures for standard terminations. This regulation and its companion regulation covering distress terminations (to be codified in Part 2616) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617). Abstract: The Single-Employer Pension Plan Amendments Act of 1986 ("SEPPAA") and the Pension Protection Act ("PPA") made several changes in Title IV rules and procedures that affect and, in some cases, override portions of several PBGC regulations. For this reason, these regulations - administrative review of agency decisions, benefit reductions in terminated plans, reportable events and employer liability - must be amended to conform them to the current law. For example, because SEPPAA altered the determinations that the PBGC may make with respect to voluntary plan terminations, the list in 29 CFR 2606.1(b) of determinations subject to agency review must be amended.

Similarly, SEPPAA contained, for distress terminations, specific benefit cutback rules. These rules differ somewhat from those set forth in 29 CFR Part 2623 and, therefore, conforming amendments to Part 2623 are required. SEPPAA and the PPA significantly changed the rules on employer liability to the PBGC in distress and involuntary terminations. Now, an employer is liable to the PBGC for the total plan underfunding, (cont)

Further, the 30 percent of net worth limitation is now relevant only in determining the amount subject to PBGC's statutory lien and the status of PBGC's claim in bankruptcy. The employer liability regulation needs to be amended to reflect these changes.

3562. RULES UNDER SECTIONS 4041A AND 4281 FOR PLANS TERMINATED BY MASS WITHDRAWAL

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341A ERISA; 29 USC 1441 ERISA

CFR Citation: 29 CFR 2675

Legal Deadline: None

Abstract: Section 4041A of ERISA provides rules with respect to the termination of multiemployer plans and the payment of benefits under those plans. Under section 4041A(f)(2), PBGC is authorized to prescribe rules for the administration of those plans that are appropriate to protect the interests of plan participants and beneficiaries or to prevent unreasonable loss to the insurance system. Under section 4281(b), the plan sponsor of a plan that has terminated by mass withdrawal is required annually to determine the value of the plan's nonforfeitable benefits and assets. If the value of the benefits exceeds the value of the assets, the sponsor must amend the plan to eliminate benefits not eligible for PBGC's guarantee under section 4022A(b), to the extent necessary to insure that the plan assets are sufficient to pay all nonforfeitable benefits. This determination of sufficiency is to be made in accordance with rules prescribed by PBGC. This regulation would establish the rules for administering plans that have terminated by mass withdrawal, including the rules for determining sufficiency in the circumstances described above. By thus helping to preserve plan assets, these rules will, in the first instance, benefit plan participants and beneficiaries and secondarily, the multiemployer insurance system and premium payers. PBGC lacks adequate data to be able to quantify these benefits.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1306; 29 USC 1307; PL 100-203, Sec 9331

CFR Citation: 29 CFR 2610

Legal Deadline: None

Abstract: The Pension Protection Act substantially altered the rules pertaining to single-employer plan premiums that are paid to the PBGC. Under the Act, there is a flat per capita charge (increased from that under prior law) plus a new variable rate charge tied to the value of a plan's unfunded vested benefits. The new premium rules are effective for plan years beginning after December 31, 1987.

On June 30, 1988, the PBGC issued an interim regulation implementing these rules. Because of the need to issue the regulation quickly to provide guidance for 1988 premium payments, the PBGC did not solicit public comment before issuing the regulation. For the same reason, the interim regulation did not address certain relevant, but secondary, issues pertaining to the new rules. Therefore, on October 5, 1988, the PBGC issued a notice of proposed rulemaking in order to permit public comment on the interim regulation. The NPRM also addressed problems or questions raised by the public in response to the interim regulation.

Additional Information: ABSTRACT CONT: The PBGC expects to issue the final regulation in June 1989, effective for 1989 premium payment. As set forth in the proposed regulation, the final regulation will contain some new provisions further simplifying the rules for determining a plan's unfunded vested benefits and excluding more plans from having to calculate unfunded vested benefits.

3564. DETERMINING DISABILITY

Significance: Regulatory Program

Legal Authority: 45 USC 231f(b)(5)

CFR Citation: 20 CFR 220; 20 CFR 208; 20 CFR 230; 20 CFR 260

Legal Deadline: None

Abstract: The Board's regulations with respect to disability determinations have not been updated for several years and they are, in certain respects, obsolete. As revised, this regulation should ease the administration of disability benefits and result in greater consistency in disability determinations.

Small Business Administration

Semiannual Regulatory Agenda

VOL 54 ISS 208 OCT 30 1989 UMI

SMALL BUSINESS ADMINISTRATION (SBA)

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's 21st semiannual agenda of regulations. Although not a regulatory agency, SBA has attempted to draft agendas that meet both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291, the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, and Pub. L. 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual Agency official listed for the particular item.

For information concerning SBA's overall Regulatory Review and Development Program or general semiannual agenda questions, contact Martin D. Teckler, Deputy General Counsel, Small Business Administration, 1441 L Street NW., Washington, DC 20416; (202) 653-6644.

SUPPLEMENTARY INFORMATION: The SBA agenda contains many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format has four parts. Part I, Pre-Rulemakings, includes investigations and reviews to be conducted prior to deciding whether or not to propose a rule or rule change. Part II, Proposed Rules, includes rulemaking which will be proposed during the 12-month period covered by the agenda. Part III, Final Rules, includes proposed rules which will be finalized during the period covered by the agenda. Part IV, Completed Actions, includes regulations completed or withdrawn and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

Dated: August 25, 1989.

Susan Engeleiter,

Administrator.

Significance: Regulatory Program

Legal Authority: 15 USC 634(b)(6); 15 USC 687(c); 15 USC 694(d); PL 100-590

CFR Citation: 13 CFR 115

Legal Deadline: Final, Statutory, May 2, 1989.

Abstract: This regulation implements changes necessitated by the Preferred Surety Bond Guarantee Program Act of 1988, Title II of Pub. L. 100-590. The regulation changes the method of computing the guarantee fee charged by SBA to the surety from a flat dollar amount to 20 percent of the premium. It also provides for additional guarantee fees or refunds, whenever the contract amount is increased or decreased in excess of 25 percent or $50,000, whichever is less.

3636. PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470ll

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal, through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

DEPARTMENT OF DEFENSE/GENERAL SERVICES ADMINISTRATION/NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Ch. I

Semiannual Agenda

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council, in compliance with Executive Order 12291 "Federal Regulation." This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions; however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Margaret A. Willis, FAR Secretariat, (202) 523-4755.

SUPPLEMENTARY INFORMATION: DoD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FACs). None of the regulations listed in this agenda are considered major under Executive Order 12291 "Federal Regulation."

Dated: August 28, 1989.

Harry S. Rosinski,

Acting Director, Office of Federal Acquisition Policy.

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others on the agenda.

ADDRESS: Comments should be sent to: Gerry Smith, Office of the Executive Director, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, (202) 254-6090.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of April and October of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules which it presently expects may be considered during the course of the next year, irrespective of their potential impact on small entities.[1]

The Commission's agenda represents its best estimate of significant rules which will be considered over the next twelve months.[2] In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its October 1989 Regulatory Flexibility Agenda as part of the Unified Agenda of Federal Regulations. The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in the Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's October 1989 Regulatory Flexibility Agenda is set forth below.

Issued in Washington, DC, by the Commission.

Lynn K. Gilbert,

Deputy Secretary of the Commission.

[1] The Commission has published its definition of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (April 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an event in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[2] In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar and, on a weekly basis, an advisory which list rules that the Commission is considering or will consider in the near future.

COMMODITY FUTURES TRADING COMMISSION (CFTC) — Proposed Rule Stage

3758. MINIMUM FINANCIAL AND RELATED REPORTING REQUIREMENTS FOR FUTURES COMMISSION MERCHANTS

Legal Authority: 7 USC 6c; 7 USC 6f; 7 USC 6g; 7 USC 12a

CFR Citation: 17 CFR 1.12; 17 CFR 1.17

Legal Deadline: None

Abstract: The Commission adopted two amendments to its minimum financial and related requirements for futures commission merchants (FCMs). One amendment preserves the one-day grace period for debit/ deficit accounts unless the account had been in debit/deficit status on the previous business day and the previous day's debit or deficit was not timely satisfied in its entirety by the deposit of new funds. The second amendment is an enhancement of the financial early warning system which requires an FCM to notify its designated self-regulatory organization and the Commission immediately when it determines that an account it is carrying is undermargined by an amount which exceeds its adjusted net capital. The Commission also reproposed a rule to clarify the requirements for and treatment of a guaranteed account.

3759. RULES RELATING TO COMMISSION REVIEW OF NATIONAL FUTURES ASSOCIATION DECISIONS IN DISCIPLINARY, MEMBERSHIP DENIAL, REGISTRATION AND MEMBER RESPONSIBILITY ACTIONS

Legal Authority: 7 USC 21(h); 7 USC 21(i); 7 USC 21(o)(2); 7 USC 12(a)(5); 7 USC 4a

CFR Citation: 17 CFR 3; 17 CFR 171

Legal Deadline: None

Abstract: The Commission proposes to adopt rules establishing standards and procedures for Commission review of decisions of registered futures associations such as the National Futures Association ("NFA"). The Commission is proposing specific standards of review for decisions by NFA in four types of actions - disciplinary actions, membership denial actions, registration actions and member responsibility actions. The proposed rules would establish a common procedure for seeking review and a stay of a final decision by NFA in disciplinary, membership denial and registrations actions. The proposed rules would also establish a procedure for seeking review of and a stay of decisions by NFA in a member responsibility action. In proposing these rules, the Commission seeks to promulgate standards for review that will permit NFA to exercise its expertise and independent judgment in the proceedings subject to these rules while providing a person aggrieved by the result of NFA's action an effective means to obtain relief from prejudicial errors in NFA's determination. The Commission also seeks to establish an appellate process that is comprehensive, balanced, efficient and fair.

Abstract: The Commission is considering whether to amend Rule 1.55, its basic rule with respect to risk disclosure by futures commission merchants and introducing brokers. Any such amendments would be designed to further simplify risk disclosure with respect to trading of domestic and foreign futures products so as to reduce the number of separate risk disclosure documents required by the Commission, the National Futures Association and other self-regulatory organizations (SROs), including foreign SROs. The Commission may also consider whether the current rules need to be clarified regarding disclosure of the risk of bankruptcy and disclosures required when an account is transferred from one futures commission merchant or introducing broker to another futures commission merchant or introducing broker.

Abstract: The proposed rulemaking will establish requirements for frequent collection of trading cards and filled customer order tickets on the exchanges during the trading day. Specifically, the rulemaking will require that such records be collected at intervals not to exceed one half hour during a brief implementation stage and thereafter at intervals not to exceed 15 minutes. Such defined periods shall include separately designated opening and closing periods with a separate trade record submission requirement. In addition, the rule will require that all trading cards be timestamped upon completion or collection, be prenumbered, that exchange members account for all trading cards and record trades in chronological order as sequential lines of a trading card. These rules, among other things, will improve the audit trail for all trades and limit any opportunity to alter such records.

Legal Authority: 7 USC 6; 7 USC 6g; 7 USC 7; 7 USC 7a; 7 USC 12a

CFR Citation: 17 CFR 1.35

Legal Deadline: None

Abstract: The anticipated proposed regulation will amend existing regulation 1.35 to require that an order ticket be prepared for orders placed by members on the floor of an exchange with another member for execution (CTI 3 trades) as is presently required for all other orders. Currently, regulation 1.35 (a-1) (3) exempts a member receiving an order from another member on the floor from the requirements of this regulation, which requires that an order ticket be prepared and time stamped upon receipt, if the member receiving such order notes on his trading card or other record the time of execution to the nearest minute. Alternatively, the proposed regulation may require other audit trail improvements for such orders. The proposed amendment is intended to improve the available audit trail for orders executed on behalf of members on the floor of an exchange so that the trading activity of those members may be better monitored. The proposed regulation will contain an exemption for certain inter-commodity or futures/option spread transactions to preserve the efficient execution of such orders. Because of the relatively small number of orders for members on the floor, the Commission (cont)

Abstract: This rule would require self-regulatory organizations (SROs), i.e., contract markets, clearing organizations, and the National Futures Association, to implement rules that prohibit persons with significant disciplinary histories from serving on SRO disciplinary committees, arbitration panels and governing boards. The rule is intended to uphold the perceived integrity of the SROs and thereby enhance the effectiveness of the self-regulatory system.

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish twice each year a regulatory flexibility agenda listing the rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governmental units. In this document, the Commission publishes its semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions expected to be under development or review by the agency during the succeeding 12 months and which further provide that such an agenda may be combined with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATE: The Commission welcomes comments on each subject area of the agenda, particularly from small entities. Written comments concerning the agenda should be received in the Office of the Secretary by December 31, 1989.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Allen F. Brauninger, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207; (301) 492-6980. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601-612, contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act, 5 U.S.C. 602, requires each agency to publish twice each year a regulatory flexibility agenda containing a brief description of the subject area of any rule expected to be proposed or promulgated which is likely to have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the nature of the rule, the objectives and legal basis for the rule, and a schedule for acting on each rule for which the agency has issued a notice of proposed rulemaking. The regulatory flexibility agenda shall also contain the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and to solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or current regulations under review and further states that such an agenda may be combined with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The regulatory flexibility agenda published below lists, for a 12-month period, the regulatory activities expected to be under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, DC 20207.

Dated: September 20, 1989.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

Abstract: On May 31, 1985, the Commission published an advance notice of proposed rulemaking (ANPR) to announce its preliminary determination that an unreasonable risk of injury may be associated with all-terrain vehicles. An all-terrain vehicle (ATV) is a three- or four-wheeled motorized machine, designed for off-road use, and intended to be ridden by one person. A consent decree in the U.S. District Court of the District of Columbia in U.S. v. American Honda Motor Co. et al., approved on April 28, 1988, Civil Act. No. 87-3525 GAG), required ATV manufacturers to attempt in good faith to reach agreement on a voluntary standard for the Commission's consideration. The Commission accepted that standard, along with an industry agreement concerning lateral stability, on October 28, 1988. Except for lateral stability and youth models, the Commission will defer rulemaking for a time sufficient for the voluntary standard to be adopted by the American National Standards Institute. Also, the Commission concluded that for labeling, manuals, age recommendations, advertising, training, point-of-purchase materials, and other

Abstract: On March 3, 1988, the Commission published an Advance Notice of Proposed Rulemaking (ANPRM) to announce its preliminary determination that unreasonable risks of death and injury may be associated with cigarette lighters because they are not sufficiently resistant to operation by children. The Commission staff is analyzing comments received in response to the ANPRM. A test protocol using panels of children and adults is under development. The test protocol will be used to determine the child resistance of lighters now on the market and to evaluate lighter modifications reported to be more child resistant. A child resistant cigarette lighter standard will be developed using the test protocol as a basis.

3774. METHOD FOR IDENTIFYING TOYS AND OTHER ARTICLES INTENDED FOR CHILDREN UNDER 3 YEARS OF AGE WHICH PRESENT CHOKING, ASPIRATION, OR INGESTION HAZARDS BECAUSE OF SMALL PARTS

Legal Authority: 15 USC 1261 to 1262 Federal Hazardous Substance Act

CFR Citation: 16 CFR 1501

Legal Deadline: None

Abstract: The Commission has a regulation applicable to toys and other articles intended for children under three years old that prescribes a test cylinder to determine if articles, or detachable parts of such articles, present a choking hazard to young children. Articles or components which fit within the test cylinder are banned. Although this regulation has been in effect since January 1980, choking incidents have occurred since it went into effect involving products which either pass the test or which are exempt from the regulation. The Commission has established a project to gather information about the nature and causes of these incidents and to determine what, if any, additional measures are needed to reduce injuries and deaths from such incidents, including possible modification of the small parts test cylinder. The Commission published an ANPRM on June 7, 1988, to solicit comments on ways to address choking hazards to young children, including specific modifications of the test cylinder requested in a petition from the Consumer Federal of America and the New York State Attorney General's Office.

3775. PETITION CP 89-2 REQUESTING DEVELOPMENT OF A STANDARD FOR ELECTRIC HEAT TAPE

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2056 Consumer Product Safety Act; 15 USC 2058 Consumer Product Safety Act; 15 USC 2076(e) Consumer Product Safety Act

CFR Citation: 00 CFR 00

Legal Deadline: None

Abstract: On December 22, 1988 Christian B. Stegeman, III and others petitioned the Commission to begin a proceeding under provisions of the Consumer Product Safety Act for development of a safety standard for electric heat tape. The petition requests the Commission to develop a standard with requirements for the design and performance of electric heat tape and for instructions and warnings to accompany the product. If the Commission grants the petition, it will begin a rulemaking proceeding under the Consumer Product Safety Act.

3776. PETITION CP 89-3 FOR SAFETY STANDARD FOR HAND-HELD ELECTRIC HAIR DRYERS

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: 00 CFR 00

Legal Deadline: None

Abstract: On September 5, 1988, David A. Snow, President of the Michele Snow Foundation, petitioned the Commission to issue a consumer product safety standard for hand-held electric hair dryers. The petition alleges that hand-held electric hair dryers are associated with five to ten fatal electrocutions of children each year. The petition requests the Commission to issue a safety standard for hand-held electric hair dryers to require immersion detection circuit interrupters to protect against electric shock injuries if the hair dryer accidentally falls into water. The Commission staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition, it will begin a proceeding under the Consumer Product Safety Act for development of a consumer product safety standard.

3778. PETITION CP 89-1 FOR SAFETY STANDARD FOR SAUNAS

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: 00 CFR 00

Legal Deadline: None

Abstract: On October 4, 1988, Edward Press, M.D. petitioned the Commission to issue a safety standard for saunas. A sauna is a wood-walled enclosure equipped with benches and a heater. The petition alleges that saunas are associated with risks of death and injury from heat stroke or hypothermia, cardiac arrhythmia and cardiac arrest, myocardial infarction, and syncope or fainting. The petition requests the Commission to issue a safety standard for saunas with requirements for signs to warn about hazards associated with use of saunas; a switch outside the sauna enclosure to limit operating time of the sauna to a maximum of ten minutes per setting; a switch inside the sauna enclosure to shut off the sauna when the dry-bulb temperature exceeds 195 degrees F.; adequate ventilation of the sauna enclosure; and an alarm signal which can be activated inside the sauna enclosure to summon aid. The staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition, it will begin a proceeding for development of a consumer product safety standard under provisions of the Consumer Product Safety Act.

3779. PETITION PP 88-2 FOR RULES TO REQUIRE CHILD-RESISTANT PACKAGING FOR PRODUCTS CONTAINING ACETONITRILE OR SODIUM BROMATE OR POTASSIUM BROMATE

Legal Authority: 5 USC 553(e) . Administrative Procedure Act; 15 USC 1471 Poison Prevention Packaging Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: 16 CFR 1700.14

Legal Deadline: None

Abstract: On June 27, 1988, the American Association of Poison Control Centers, Inc. petitioned the Commission to issue rules under provisions of the Poison Prevention Packaging Act to require child-resistant packaging for two types of cosmetics: products containing acetonitrile used to remove sculptured nails; and home cold-wave permanent kits containing sodium bromate. The petition alleges that children have suffered serious injuries after accidentally ingesting the products which are the subject of the petition. The staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition it will begin a proceeding under the Poison Prevention Packaging Act to issue rules requiring child-resistant packaging of household glue removers containing acetonitrile and home permanent wave neutralizers containing sodium or potassium bromate.

3780. ● PETITION CP 89-4 FOR LABELING RULE APPLICABLE TO WATER BEDS

Legal Authority: 5 USC 553(e) Administrative Procedure Act; 15 USC 2051 Consumer Product Safety Act

CFR Citation: 00 CFR 00

Legal Deadline: None

Abstract: On July 10, 1989, the Commission received a petition from the New York State Attorney General and others requesting initiation of a proceeding for issuance of a labeling rule applicable to adult- sized water beds. The petition asserts that adult-sized water beds are associated with risks of death and injury by suffocation to infants and physically handicapped children, and requests issuance of a rule to require labeling of adult-sized water beds and point-of-sale information to warn of these risks. The Commission staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition, it will begin a proceeding under the Consumer Product Safety Act to issue the requested labeling rule.

CONSUMER PRODUCT SAFETY COMMISSION (CPSC) — Proposed Rule Stage

3781. REQUIREMENTS FOR THE SPECIAL PACKAGING OF HOUSEHOLD SUBSTANCES; REVISION OF TEST PROTOCOL FOR CHILD RESISTANT PACKAGING

Legal Authority: 15 USC 1472 Poison Prevention Packaging Act; 15 USC 1473 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.20

Legal Deadline: None

Abstract: On January 19, 1983, the Commission published an Advance Notice of Proposed Rulemaking soliciting comments on ways to amend the existing requirements for child-resistant packaging to improve the effectiveness and efficiency of these requirements. In June 1985, the Commission staff completed testing to determine the feasibility of using some of the alternate procedures for evaluation of child-resistant packaging described in the ANPR. In August 1987, the Commission considered the comments received in response to the ANPR and the staff's recommendations regarding revision of existing requirements for child-resistant packaging. The Commission directed the staff to prepare draft proposals to amend the test protocols used to evaluate the effectiveness of child-resistant packaging. The staff is preparing a briefing package concerning specific revisions to the child test protocol and the adult test protocol. The staff anticipates that it will transmit the briefing package to the Commission in September 1989.
